Christopher Curtis Mead

Paris, Capital of Modernity David Harvey, 2003
Collecting David Harvey's finest writings on 19th century Paris, this title offers insights ranging from the birth of consumerist spectacle on the Parisian boulevards, the creative visions of Balzac, Baudelaire and Zola, and the reactionary cultural politics of the bombastic Sacre Coeur.

Paris Patrice L. R HIGONNET, 2009-06-30 In an original and evocative journey through modern Paris from the mid-eighteenth century to World War II, Patrice Higonnet offers a delightful cultural portrait of a multifaceted, continually changing city. In examining the myths and countermyths of Paris that have been created and re-created over time, Higonnet reveals a magical urban alchemy in which each era absorbs the myths and perceptions of Paris past, adapts them to the cultural imperatives of its own time, and feeds them back into the city, creating a new environment. Paris was central to the modern world in ways internal and external, genuine and imagined, progressive and decadent. Higonnet explores Paris as the capital of revolution, science, empire, literature, and art, describing such incarnations as Belle Epoque Paris, the Commune, the surrealists' city, and Paris as viewed through American eyes. He also evokes the more visceral Paris of alienation, crime, material excess, and sensual pleasure. Insightful, informative, and gracefully written, Paris illuminates the intersection of collective and individual imaginations in a perpetually shifting urban dynamic. In describing his Paris of the real and of the imagination, Higonnet sheds brilliant new light on this endlessly intriguing city.

Paris Fashion Valerie Steele, 2017-09-21 Paris has been the international capital of fashion for

more than 300 years. Even before the rise of the haute couture, Parisians were notorious for their obsession with fashion, and foreigners eagerly followed their lead. From Charles Frederick Worth to Gabrielle "Coco" Chanel, Christian Dior, and Yves Saint Laurent, fashion history is dominated by the names of Parisian couturiers. But Valerie Steele's Paris Fashion is much more than just a history of great designers. This fascinating book demonstrates that the success of Paris ultimately rests on the strength of its fashion culture - created by a host of fashion performers and spectators, including actresses, dandies, milliners, artists, and writers. First published in 1988 to great international acclaim, this pioneering book has now been completely revised and brought up to date, encompassing the rise of fashion's multiple world cities in the 21st century. Lavishly illustrated, deeply learned, and elegantly written, Valerie Steele's masterwork explores with brilliance and flair why Paris remains the capital of fashion.

The Cambridge Companion to the Literature of Paris Anna-Louise Milne, 2013-08 A comprehensive exploration of Paris through the texts and experiences of a vast and vibrant range of authors.

Fashioning the City Agnès Rocamora, 2009-04-30 While much attention has been paid to the making of Paris in the work of writers and artists, little is known about the city as defined and created by the fashion media. Filling this gap in studies of the French capital, this original and illuminating book focuses on how the French fashion press - with its rich conjunction of words and images - has been able to construct Paris as a leading world fashion city. Based in an original analysis of fashion writing and images in contemporary French fashion magazines and newspapers, the book shows how the fashion media

have been central to the consecration of the city of Paris on the fashion map, as well as its celebration in the collective imaginary. Agnes Rocamora explores, for example, the figures of 'la Parisienne' and 'la passante' (the female passer by), and the presence of the Eiffel tower in fashion visuals. She gives attention to the continuum between the French journalistic discourse and that of cultural forms such as films, paintings and literature, thus revealing the persistence across texts and time of visions of Paris and shedding light on the production and reproduction of the Paris myth.

Making Modern Paris Christopher Curtis Mead, 2012 Investigates how architecture, technology, politics, and urban planning came together in French architect Victor Baltard's creation of the Central Markets of Paris. Presents a case study of the historical process that produced modern Paris between 1840 and 1870.

Paris Dreams, Paris Memories Charles Rearick, 2011-04-06 "A rich and entertaining history of the French capital's predominant myths and 'image-making' from the nineteenth century to the present." -Roxanne Panchasi, H-France Review How did Paris become the world favorite it is today? Charles Rearick argues that we can best understand Paris as several cities in one, each with its own history and its own imaginary shaped by dream and memory. Paris has long been at once a cosmopolitan City of Light and of modernity, a patchwork of time-resistant villages, a treasured heirloom, a hell for the disinherited, and a legendary pleasure dome. Focusing on the last century and a half, *Paris Dreams, Paris Memories* makes contemporary Paris understandable. It tells of renewal projects radically transforming neighborhoods and of counter-measures taken to perpetuate the city's historic character and soul. It provides a historically grounded look at the

troubled suburbs. Further, it tests long-standing characterizations of Paris's uniqueness through comparisons with such rivals as London and Berlin. *Paris Dreams, Paris Memories* shows that in myriad forms—buildings, monuments, festivities, and artistic portrayals—contemporary Paris gives new life to visions of the city long etched in Parisian imaginations. "A pleasure to read."

—Catherine Clark, *H-Urban* "Fascinating." —Nicoleta Bazgan, *Contemporary French Civilization* "Rearick is an expert guide." —Jeffrey H. Jackson, *Rhodes College* "Like a pleasant stroll through the city, one finds much that one has already seen, but also plenty that one has not." —Stephen Sawyer, *French History* "Rearick has written not so much a history of Paris, but a history of the history of Paris." —William Irvine, *York University*

Paris, capitale philosophique Stéphane

Van Damme, 2005-02-20 Comment Paris est-il devenu la capitale mondiale des Lumières ? La philosophie moderne serait-elle au fondement même de notre culture urbaine ? Une triple revendication a traversé les Lumières : faire de Paris une patrie de la philosophie, un modèle universel ; montrer qu'il est un laboratoire privilégié pour penser la société ; afficher une nouvelle figure du philosophe, entre solitude studieuse et sociabilité mondaine. On comprend que le philosophe écossais David Hume ait pu déclarer, lors d'un séjour sur les bords de la Seine : « Je suis citoyen du monde ; mais si j'avais à adopter la capitale d'un pays, ce serait celle où je vis à présent. » Stéphane Van Damme décrypte la généalogie de ce paradoxe entre patriotisme local et universalisme. Il décrit surtout les hauts lieux du savoir dans le Paris d'avant la Révolution et montre comment la vie de l'esprit a pesé sur la géographie urbaine. Agrégé et docteur en histoire, Stéphane Van Damme est chercheur au CNRS à la Maison française d'Oxford. Spécialiste des

relations entre savoirs et cultures politiques dans les capitales européennes, il a publié *Descartes*, essai sur une grandeur philosophique et a reçu la médaille de bronze du CNRS.

Thierry Van de Leur,

Cultural Capitals Karen Newman, 2021-06-08 Social theories of modernity focus on the nineteenth century as the period when Western Europe was transformed by urbanization. Cities became thriving metropolitan centers as a result of economic, political, and social changes wrought by the industrial revolution. In *Cultural Capitals*, Karen Newman demonstrates that speculation and capital, the commodity, the crowd, traffic, and the street, often thought to be historically specific to nineteenth-century urban culture, were in fact already at work in early modern London and Paris. Newman challenges the notion of a rupture between premodern and modern societies and shows how London and Paris became cultural capitals. Drawing upon poetry, plays, and prose by writers such as Shakespeare, Scudéry, Boileau, and Donne, as well as popular materials including pamphlets, ballads, and broadsides, she examines the impact of rapid urbanization on cultural production. Newman shows how changing demographics and technological development altered these two emerging urban centers in which new forms of cultural capital were produced and new modes of sociability and representation were articulated. *Cultural Capitals* is a fascinating work of literary and cultural history that redefines our conception of when the modern city came to be and brings early modern London and Paris alive in all their splendor, squalor, and richness.

The European Cities and Technology Reader David C. Goodman, 1999 The *European Cities and Technology Reader* is divided into three main sections presenting key readings on: Cities of the

Industrial Revolution (to 1870), European Cities since 1870 and the Urban Technology Transfer.

Paris as Revolution Priscilla Parkhurst Ferguson, 2022-07-15 In nineteenth-century Paris, passionate involvement with revolution turned the city into an engrossing object of cultural speculation. For writers caught between an explosive past and a bewildering future, revolution offered a virtuoso metaphor by which the city could be known and a vital principle through which it could be portrayed. In this engaging book, Priscilla Ferguson locates the originality and modernity of nineteenth-century French literature in the intersection of the city with revolution. A cultural geography, *Paris as Revolution* reads the nineteenth-century city not in literary works alone but across a broad spectrum of urban icons and narratives. Ferguson moves easily between literary and cultural history and between semiotic and sociological analysis to underscore the movement and change that fueled the powerful narratives defining the century, the city, and their literature. In her understanding and reconstruction of the guidebooks of Mercier, Hugo, Vallès, and others, alongside the novels of Flaubert, Hugo, Vallès, and Zola, Ferguson reveals that these works are themselves revolutionary performances, ones that challenged the modernizing city even as they transcribed its emergence. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1994.

Paris, Capital of Europe Johannes Willms, 1997
Johannes Willms, a historian and journalist,

recreates the years from 1789 – the city on the brink of upheaval – to the First World War. He masterfully weaves various social, political, artistic and economic threads into a vivid tapestry, allowing the general reader as well as the scholar the rare opportunity to grasp the city in Proustian detail. One reads not only of the estates, the Terror, and the Commune, but also of street life and repression, social customs, Napoleonic architecture, the growth of trade and commerce, work and wages, health and hygiene, morality, class struggles, crime, and of course art and entertainment.

Dividing Paris Esther da Costa Meyer, 2022-02-15
A groundbreaking work of scholarship that sheds critical new light on the urban renewal of Paris under Napoleon III In the mid-nineteenth century, Napoleon III and his prefect, Georges-Eugène Haussmann, adapted Paris to the requirements of industrial capitalism, endowing the old city with elegant boulevards, an enhanced water supply, modern sewers, and public greenery. Esther da Costa Meyer provides a major reassessment of this ambitious project, which resulted in widespread destruction in the historic center, displacing thousands of poor residents and polarizing the urban fabric. Drawing on newspapers, memoirs, and other archival materials, da Costa Meyer explores how people from different social strata—both women and men—experienced the urban reforms implemented by the Second Empire. As hundreds of tenements were destroyed to make way for upscale apartment buildings, thousands of impoverished residents were forced to the periphery, which lacked the services enjoyed by wealthier parts of the city. Challenging the idea of Paris as the capital of modernity, da Costa Meyer shows how the city was the hub of a sprawling colonial empire extending from the Caribbean to Asia, and exposes the underlying violence that enriched it at the

expense of overseas territories. This marvelously illustrated book brings to light the contributions of those who actually built and maintained the impressive infrastructure of Paris, and reveals the consequences of colonial practices for the city's cultural, economic, and political life.

Capital Cities at War Jay Winter, Jean-Louis Robert, 1999-07-08 A comparative, historical analysis of three of the world's most challenging capital cities.

The Personality of Paris Alan R. H. Baker, 2021-01-28 What was the personality of 19th-century Paris? To answer that question, this book eschews the conventional narrative and chronological route taken by most histories of Paris. Instead, it thematically analyses the complex personality traits of Paris from the onset of the Revolution of 1789 to the beginning of the Great War. Starting with the topographical and cultural legacies that late 18th-century Paris inherited from its foundation in pre-Roman and Roman times and from its medieval infancy and early-modern adolescence, *The Personality of Paris* unpacks the social and material complexity of the 19th-century city. It considers the role of immigration in the making of Parisians and in the city's growth from half a million in 1801 to almost three million in 1911. It examines the making of its distinctive landscape through the construction of monuments and architectural icons, through its massive re-modelling by Napoléon III and Baron Haussmann, through its five world exhibitions, through its emphasis on food, fashion and leisure, and through the ways in which Parisians sought rural release from urban pressure. Finally, the book considers the self-harm done to the person of 19th-century Paris by revolutions and wars and the damage inflicted on it by 20th-century hubristic politicians and architects.

The Flaneur (RLE Social Theory) Keith

Tester, 2014-08-21 Timely and original, this collection of essays from the leading figures in their fields throws new and valuable light on the significance and future of flânerie. The flâneur is usually identified as the 'man of the crowd' of Edgar Allen Poe and Charles Baudelaire, and as one of the heroes of Walter Benjamin's Arcades Project. The flâneur's activities of strolling and loitering are mentioned increasingly frequently in sociology, cultural studies and art history, but rarely is the debate developed further. The Flâneur is the first book to develop the debate beyond Baudelaire and Benjamin, and to push it in unexpected and exciting directions.
