The Informal American City Vinit Mukhija, Anastasia Loukaitou-Sideris, 2014-05-16 An examination of informal urban activities—including street vending, garage sales, and unpermitted housing—that explores their complexity and addresses related planning and regulatory issues. Every day in American cities street vendors spread out their wares on sidewalks, food trucks serve lunch from the curb, and homeowners hold sales in their front yards—examples of the wide range of informal activities that take place largely beyond the reach of government regulation. This book examines the “informal revolution” in American urban life, exploring a proliferating phenomenon often associated with developing countries rather than industrialized ones and often dismissed by planners and policy makers as marginal or even criminal. The case studies and analysis in *The Informal City* challenge this narrow conception of informal urbanism. The chapters look at informal urbanism across the country, empirically and theoretically, in cities that include Los Angeles, Sacramento, Seattle, Portland, Phoenix, Kansas City, Atlantic City, and New York City. They cover activities that range from unpermitted in-law apartments and ad hoc support for homeless citizens to urban agriculture, street vending and day labor. The contributors consider the nature and underlying logic of these activities, argue for a spatial understanding of informality and its varied settings, and discuss regulatory, planning, and community responses. Contributors Jacob Avery, Ginny Browne, Matt Covert, Margaret Crawford, Will Dominie, Renia Ehrenfeucht, Jeffrey Hou, Nabil Kamel, Gregg Kettles, Anastasia Loukaitou-Sideris, Kate Mayerson, Alfonso Morales, Vinit Mukhija, Michael Rios, Donald Shoup, Abel Valenzuela Jr. Mark Vallianatos, Peter M. Move: How to Rebuild and Reinvent America's Infrastructure Rosabeth Moss Kanter, 2015-05-11 Americans are stuck. Americans are stuck. We live with travel delays on congested roads, shipping delays on clogged railways, and delays on repairs and project approvals due to gridlocked leadership. And when we can't move, when goods are delayed, and when information networks can't connect, then economic opportunity deteriorates and social inequity grows. We don't have to take it anymore! In *Move*, Harvard Business School professor and bestselling author Rosabeth Moss Kanter visits the business leaders, mayors, transportation advocates, and entrepreneurs across the country tackling these challenges through underwater tunnels, instant bridges, road sensors, parking apps, bike-sharing programs, seamless wifi, and much more. It all adds up to a new vision for American mobility, where local leaders and public-private partnerships lead the way. With unique insight and unrivaled expertise, Kanter gives us a sweeping look at the innovative projects, vital leaders, and bold solutions that are moving our transportation infrastructure toward a cleaner, faster, and more prosperous future.

New York City Travel Guide 2024 T Turner, One of the world's greatest cities, New York City (known as The Big Apple, NYC, or just plain New York) is a global center for media, entertainment, art, fashion, research, finance, and trade. The bustling, cosmopolitan heart of the 4th largest metropolis in the world and by far the most populous city in the United States, New York has long been a key entry point and a defining city for the nation. From the Statue of Liberty in the harbor to the Empire State Building towering over the Manhattan skyline, from the tunnels of the subway to the riches of Wall Street, from the bright signs of Times Square to the naturalistic beauty of Central Park, and from Yankee Stadium in the Bronx to Coney Island in Brooklyn, New York's landmarks are quintessential American landmarks. The city's neighborhoods and streets are so iconic they have become ingrained into the American consciousness. Here the power, wealth and culture of the United States is on full display in one of the largest and most iconic skylines in the world, in the food and music to be found around every corner, and in the diverse population of immigrants who come from every corner of the globe to take part in what this city has to offer.

Why? P.J. Dodge,2020-11-06 Why? What happens when 15 men of various military backgrounds and histories band together? This is one possible scenario. Especially if they realize they have a common bond and issue. As they become more of a 'like-minded' group, they realize, that their strengths and history

may be able to make a difference, if not for them, perhaps for others. The realization that what was promised them never came to fruition makes for an irate group. Realizing th

Strategic Airport Planning Mike Brown,2022-04-10 This book will explore a new approach to airport planning that better captures the complexities and velocity of change in our contemporary world. As a result, it will lead to higher performing airports for users, business partners, investors and other stakeholders. This is especially pertinent since airports will need to come back better from the Covid-19 pandemic. The book explains the importance of articulating a clear strategy, based on a rigorous analysis of the competitive landscape while avoiding the pitfalls of ambiguity and ‘virtue signalling’. Having done so, demand forecasts can be developed that resemble S-curves, not simple straight lines, that reflect strategic opportunities and threats from which a master plan can be developed to allocate land and capital in a way that maximizes return on assets and social licence. The second distinctive feature of this book is the premise that planning an airport as an island, a fortress even, does not work anymore given how interconnected airports are with other components of the transportation system, the economies and communities they serve and the rapid pace of social and technological change. In summary, the book argues that airport planning needs to move beyond its traditional boundaries. The book is replete with real examples from airports of all sizes around the world and includes practical advice and tools for executives and managers. It is recommended reading for individuals working in the airport business or the broader air transport industry, members of airports’ board of directors, who may be new to the business, elected officials, policy makers and urban planners in jurisdictions hosting or adjacent to airports, regulators, economic development professionals and, finally, students.

Sea Lions in the Parking Lot Lenora Todaro, 2021-10-05 What would happen if people all around the world stayed inside, away from animals' habitats? Twelve fascinating real-life stories of creatures around the globe who reclaimed their habitat during the COVID-19 quarantine show animal lovers and aspiring

citizen scientists how to help wildlife by fighting habitat loss. With the skies, roads, and waterways clear and quiet during the COVID-19 pandemic, the natural world seemed to return to an earlier, wilder state. Animals crossed boundaries that people had set over centuries, reclaiming ancient habitats. From sea lions who clambered into a parking lot in Argentina to deer who wandered in a Japanese subway to lions lounging in the middle of South African roads to kangaroos who bounced through a shopping district in Australia, this thoroughly researched, stunningly illustrated book tells the stories of these newly footloose creatures -- and describes what the COVID-19 pause taught scientists about how ecosystems and wildlife can rebound if the right environmental conditions are achieved.
