The Internet As A Diverse Community Urs E. Gattiker,2000-10-01 In this volume, author Urs Gattiker offers a broad overview of Internet and technology-related theory. He examines Internet and multimedia issues from an international perspective, outlining issues of international sovereignty and the potential impact of national interests on global technology policy. He also surveys the issues of regulation and institutionalization of the Internet, examines ways for reducing the inequality of benefits from such technology, and explores the opportunities and challenges the Internet offers for consumers, firms, governments, and interest groups. In assembling this treatise, Gattiker synthesizes a vast body of literature from communication, economics, philosophy, political science, management, psychology, science policy, telecommunication engineering, and other areas. The Internet as a Diverse Community provides readers with a framework for analyzing and selecting between many different Internet choices. It explores issues from a social-impact perspective, using examples from a variety of contexts and firms around the world. The work also offers a wealth of new social theory on such topics as moral and ethical issues and the opportunities, choices, and challenges the Internet offers for consumers, investors, managers, and public policy decision makers. It examines the current and future challenges that computer-mediated technologies present, and sets forth new theoretical perspectives on such areas as multimedia and the profit-maximizing firm; the Internet and the private user; managing multimedia productively; and the social and moral costs of various Internet options and choices. Taken as a whole, this resource provides valuable insights on the Internet and is essential reading for business, telecommunication, public policy, and technology decision makers around the globe.

*Westminster's World* Donald Searing,1994 From Policy Advocates to Whips to Ministers, the many roles within the British Parliament are shaped not only by institutional rules but also by the individuals who fill them, yet few observers have fully appreciated this vital aspect of governing in one of the world's oldest representative systems. Applying a new motivational role theory to materials from extensive first-hand interviews conducted during the eventful 1970s, Donald Searing deepens our understanding of how Members of Parliament understand their goals, their careers, and their impact on domestic and global issues. He explores how Westminster's world both controls and is created by individuals, illuminating the interplay of institutional constraints and individual choice in shaping roles within the political arena. No other book tells us so much about political life at Westminster. Searing has interviewed 521 Members of Parliament—including Conservative Ministers Margaret Thatcher, Peter Walker, and James Prior; Labour Ministers Harold Wilson, Barbara Castle, and Denis Healey; rising stars Michael Heseltine, Norman Tebbit, David Owen, and Roy Hattersley; habitual outsiders, like Michael Foot, who eventually joined the inner circle; and former insiders, like Enoch Powell, who were shut out. Searing also gives voice to the vast number of Westminster's backbenchers, who play a key part in shaping political roles in Parliament but are less likely to be heard in the media: trade unionists, knights of the shires, owners of small businesses, and others. In this segment of his study, women, senior backbenchers, and newcomers are well represented. Searing adroitly blends quantitative with qualitative analysis and integrates social and economic theories about political behavior. He addresses concerns about power, duty, ambition, and representation, and skillfully joins these concerns with his critical discoveries about the desires, beliefs, and behaviors associated with roles in Parliament. Westminster's World offers political scientists, historians, anthropologists, political commentators, and the public rich new material about the House of Commons as well as a convincing model for understanding the structure and dynamics of political roles.

**Ask a Manager** Alison Green,2018-05-01 From the creator of the popular website Ask a Manager and New York’s work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There’s a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don’t know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You’ll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you’re being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate’s loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green’s] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author’s friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers’ lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green’s Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together

**How to Win a Marginal Seat** Gavin Barwell,2016-03-17 During the 2015 general election, the contest in Gavin Barwell's constituency of Croydon Central was by any measure - the amount of money spent, the frequency of visits by ministers, the volume of literature delivered or the number of political activists pounding the streets - one of the most intensive constituency campaigns this country has ever seen. At the end of it, after an experience both physically and psychologically gruelling, Gavin had clung on by the skin of his teeth, and had a story well worth telling. Journalists produce a great deal of commentary on the leaders of our political parties, their campaign strategies and key messages. Elections, however, are won and lost on the pavements of only about 100 so-called marginal constituencies - places like Croydon Central. This book gives an unparalleled insight into what it's like to be an MP defending an ultra-marginal seat. It answers questions such as: Why do activists knock on your door - do they really think a quick conversation is going to change your mind? What is it like to find yourself splashed across the front page of a national newspaper? How do you cope with the very real possibility that you might be out of a job tomorrow? How to Win a Marginal Seat is a fascinating behind-the-scenes look at how campaigning is conducted at the coalface of British politics.
