Green Politics is Eutopian Paul Gilk,2009-02-26 There have been various thinkers who have attempted to explain the Earth-altering (even ecocidal) features in modern life. Jacques Ellul, for instance, a French intellectual, became famous for his exposition of technique. But technique does not adequately address the institutional context out of which technique itself arises. In these essays, Paul Gilk stands on the shoulders of two American scholars in particular. One is world historian Lewis Mumford, whose work spans fifty years of scholarship. The other is classics professor Norman O. Brown, who brought his erudition into a systematic study of Freud. From these intellectuals especially, Gilk concludes that the accelerating ecocidal characteristics of globalisation are inherent manifestations of perfectionist, utopian, predatory institutions endemic to civilisation. Our great difficulty in arriving at or accepting this conclusion is that civilisation contains no negatives it is strictly a positive construct. We are therefore incapable of thinking critically about it. A corrective is slowly emerging from Green intellectuals. Green politics, says Gilk, is not utopian but eutopian. It is not aimed at perfectionist immortality but, rather, at earthly wholeness. Yet the ethical message of Green politics confronts a society saturated with utopian mythology. The question is to what extent, and at what speed, ecological and cultural breakdown will dissolve civilised, utopian certitudes and provide the requisite openings for the growth of Green, eutopian culture.

Jughead & Archie Comics Double Digest #10 Archie Superstars,2015-02-11 Mr. Weatherbee and Jughead come to a battle of the taste buds when the Bee accuses Jughead of having an unrefined palate. What starts as a discussion of culinary choices turns into a race around Riverdale to see who can eat the most! It's MEN VS. FOOD in "The Feast and the Furious." Then, a class trip to the local petting zoo is a bust when the biggest bear in Riverdale is hibernating for the season. To make matters worse—the snack bar is closed, too! See how the teens will handle this abomination when left to their own devices. It's MEN VS. WILD in "The Snack Attack!" Enjoy both of these fun new stories and more classic comics fun in this jumbo-sized comics digest!

Comparative Politics Jeffrey Kopstein,Mark Lichbach,Stephen E. Hanson,2014-07-21 Twelve in-depth case studies of the EU and countries across the globe, written by the leading country specialists

and combining insights of cutting-edge institutional analysis and deep study of national histories, explore how the concepts of interests, identities and institutions shape the politics of nations and regions. The country studies trace the global and historical contexts of political development and examine the diverse pathways that countries have taken in their quest to adapt to the competitive pressures of twenty-first-century globalization. These country studies constitute the overarching framework of the text, addressing the larger question, 'why are countries ruled and governed so differently?' Free of heavy-handed jargon, Comparative Politics inspires thought-provoking debate among introductory students and specialists alike, and encourages students to engage in real comparative analysis. In this new edition, all twelve country studies have been rewritten, and the first two theory chapters have been updated to reflect the latest research in the field.

The Gluten Connection Shari Lieberman,2006-11-28 One of the nation's top clinical nutritionists presents her 14-day program for treating and reversing gluten sensitivity, a condition that affects as much as 35 to 50 percent of the U.S. population and is a major contributing factor to an array of chronic illnesses Struggling with weight gain? Plagued by fatigue? Suffering from joint pain? According to preeminent clinical nutritionist Dr. Shari Lieberman, these symptoms are among the hallmarks of a little-known but surprisingly common sensitivity to gluten, a protein in certain grains. Dr. Lieberman has been investigating gluten sensitivity for more than 20 years. In her experience, eliminating gluten can alleviate many troubling symptoms for which doctors often can't find a cause, as well as chronic conditions for which mainstream medicine offers little hope of relief—including rheumatoid arthritis, ulcerative colitis, psoriasis, fibromyalgia, lupus, and irritable bowel syndrome. In fact, 85 percent of Dr. Lieberman's clients who follow a gluten-free diet report dramatic improvement in their health—and scientific studies support her results. In *The Gluten Connection*, Dr. Lieberman presents a simple questionnaire to help readers assess their risk for gluten sensitivity and provides a 14-day eating plan to start them on the path to improved health and vitality. She also recommends nutritional supplements to support and maximize the therapeutic potential of a gluten-free diet.
