The Synonym Finder J. I. Rodale,2016-04-22 Originally published in 1961 by the founder of Rodale Inc., The Synonym Finder continues to be a practical reference tool for every home and office. This thesaurus contains more than 1 million synonyms, arranged alphabetically, with separate subdivisions for the different parts of speech and meanings of the same word.

The SAGE Encyclopedia of Food Issues Ken Albala,2015-05-08 The SAGE Encyclopedia of Food Issues explores the topic of food across multiple disciplines within the social sciences and related areas including business, consumerism, marketing, and environmentalism. In contrast to the existing reference works on the topic of food that tend to fall into the categories of cultural perspectives, this carefully balanced academic encyclopedia focuses on social and policy aspects of food production, safety, regulation, labeling, marketing, distribution, and consumption. A sampling of general topic areas covered includes Agriculture, Labor, Food Processing, Marketing and Advertising, Trade and Distribution, Retail and Shopping, Consumption, Food Ideologies, Food in Popular Media, Food Safety, Environment, Health, Government Policy, and Hunger and Poverty. This encyclopedia introduces students to the fascinating, and at times contentious, and ever-so-vital field involving food issues. Key Features: Contains approximately 500 signed entries concluding with cross-references and suggestions for further readings Organized A-to-Z with a thematic "Reader's Guide" in the front matter grouping related entries by general topic area Provides a Resource Guide and a detailed and comprehensive Index along with robust search-and-browse functionality in the electronic edition This three-volume reference work will serve as a general, non-technical resource for students and researchers who seek to better understand the topic of food and the issues surrounding it.

Social Predation Guy Beauchamp,2013-12-07 The classic literature on predation dealt almost exclusively with solitary predators and their prey. Going back to Lotka-Volterra and optimal foraging theory, the theory about predation, including predator-prey population dynamics, was developed for solitary species. Various consequences of sociality for predators have been considered only recently. Similarly, while it was long recognized that prey species can benefit from living in groups, research on the adaptive value of sociality for prey species mostly emerged in the 1970s. The main theme of this book is the various ways that predators and prey may benefit from living in groups. The first part focusses on predators and explores how group membership influences predation success rate, from searching to subduing prey. The second part focusses on how prey in groups can detect and escape predators. The final section explores group size and composition and how individuals respond over evolutionary times to the challenges posed by chasing or being chased by animals in groups. This book will help the reader understand current issues in social predation theory and provide a synthesis of the literature across a broad range of animal taxa. Includes the whole taxonomical range rather than limiting it to a select few Features in-depth analysis that allows a better understanding of many subtleties surrounding the issues related to social predation Presents both models and empirical results while covering the extensive predator and prey literature Contains extensive illustrations and separate boxes that cover more technical features, i.e., to present models and review results

Finder's Shore Anna Mackenzie,2012-02-01 This gripping final volume in The Sea-wreck Stranger trilogy for young adults offers

post-apocalyptic science fiction at its best. A year on from the aggressive attacks against them, the farming community at Ebony Hill still shows the cracks. When it becomes clear the paramilitaries aren't about to give up, hard decisions must be made. Can our heroine, Ness, risk going back to the Island of Dunnett, the home she narrowly escaped? If she does, what will she find? How will she deal with the legacy of her defection and the scars it has left on those she loves? Following Ness's attempts to make whole the tangled threads of her heart, this is a haunting exploration about belonging and the stark and unsettling reality of ambition and greed. A sequel to Ebony Hill, which was shortlisted for the 2010 NZ Post Children's Book Awards and CLF Notable Book of 2010.

Bird Land J. M. White, 2017-06-26 They had been in space a long time. They had examined every planet within their trajectory as ordered. There had been six planets in their path that they examined as possible sites for colonization and a nebula off in the distance. The nebula was very beautiful, kind of purple and dark blue. But, their orders were not to examine nebulas, but to find a class M planet that could be adaptable to humans. This was definitely a class M planet all the readings were perfect. But, with all the experts on board no one could find the source of the intelligence it took to make these amazing gardens that circled the planet. Some fairly large birds had been seen. But, there were no land animals with brains large enough to make these gardens. They had to be gardens, gardens with uniformed rows of growing crops. There were uniformed rows of trees as well and lines of shrubs or hedge which divided the garden areas. This planet was placed between three suns just right so as to have one side always warm. The temperature was

around 70 to 80 degrees and at night near 50 degrees. The suns were orbiting in a slightly arched line with this small planet. The planet and its two moons orbited around the larger sun. The smaller suns being further away gave little light and a small amount of warmth just enough so the other sides of the planet were not in total darkness at any time. It had water and oxygen, breathable oxygen that meant no suits or helmets. This planet was just what they were looking for. It was a small green pearl in the vast darkness of space.

Mark of the Finder Frank Caccavo,2020-10-06 Seth Kish of the Borderlands has achieved a powerful ancient magic of the Elves and now reluctantly wields power he neither desires nor fully understands. Having barely survived numerous attempts on his life, he must risk it again to intercept the wizard Locke before the “demon-man” can obtain the last unclaimed Talisman, “Water.” Enraged at Seth’s persistence, Locke sets his genocidal scheme into motion. While the sorcerer treks to claim the final mystical device, his army launches its invasion, threatening all the Southlands with destruction and enslavement. While Seth’s brave comrades race to confront the massive host descending upon them, he must travel alone to challenge Locke before the mad wizard can achieve his ends. But Locke knows the last Finder is coming... In this tale of epic fantasy adventure, Seth must overcome doubt and terror, and defy a merciless enemy, while all he holds dear hangs in the balance.

Roux the Day Peter King,2012-09-25 When a Crescent City culinary dynasty loses its family cookbook, the London-based detective is on the scene “in this whimsical and entertaining mystery” (Library Journal). For five generations, the Belvedere family restaurant has been a Louisiana landmark. Unfortunately, the Belvedere clan inherits more than a talent for cooking from each other—they also have an unfortunate tendency of becoming insane. When the latest Belvedere patriarch loses his mind, his son attempts to take over the business, only to find that the ancient family cookbook has vanished—and with it the priceless recipe for the world famous Oysters Belvedere. The Crescent City will never be the same. A bookseller claims to have found the family heirloom, and attempts to sell it at auction—a daring Creole gambit that draws the attention of London’s famous gourmet detective. The sleuth visits the bookshop, but when he finds a corpse at the desk, he must lead a chase for the murderer and the stolen cookbook. One false step, and he’ll end up like a crawfish at a boil: in mighty hot water.

Dine and Die on the Danube Express Peter King,2012-09-25 Aboard a vintage luxury train on a voyage through Eastern

Europe, the gourmet detective encounters a thoroughly modern murder. The Danube Express was once the most famous train on the continent. Linking east and west, it was the fastest route from the Alps to the Black Sea, until airplanes and automobiles made it obsolete. When a group of savvy investors revived it in the 1970s, it became an Express only in name. A five-star hotel on wheels, it is now a luxurious icon—and it's celebrating its twenty-fifth anniversary. Some of the most glamorous figures in the world have booked passage on this historic trip, and riding among them is London's gourmet detective, who has come to sample the Danube's famous cooking. But when a Hungarian actress disappears from the train, it turns out to be more than a publicity stunt. Soon it is clear that a killer lurks on the Danube Express, and plans on taking it all the way to the end of the line.
