**The Lincoln Trail in Pennsylvania** Bradley R. Hoch, 2001-07-25 What is the Lincoln Trail in Pennsylvania? It is the story of Abraham Lincoln in the Keystone State—the chronicle of where he went, what he did, and what he said in the state. The trail begins with Lincoln's Pennsylvania ancestors, moves on to his travels, public appearances, and speeches, and concludes with his funeral train in 1865. The Lincoln Trail in Pennsylvania tells a story for the reader, but it is also a guide for those who would travel the state figuratively or literally, to recover the memory of America's sixteenth president. The Lincoln Trail in Pennsylvania transports the reader back in time to key moments in Lincoln's public life. In 1846, at the age of thirty-seven, Lincoln was elected to the U.S. House of Representatives. Using mileage that Lincoln claimed for his trip, available routes, duration of the journey, and average speeds, Bradley Hoch is the first to establish the probable route Lincoln followed on his way from Illinois to Washington, D.C. Hoch concludes that he traveled by steamboat along the Ohio and Monongahela Rivers and by stagecoach on the National Road into Maryland. After Lincoln was elected president in November 1860, he transformed his inaugural journey from Springfield to Washington into a grand railroad tour of northern cities, hoping to cement the people's loyalty to the Union and to himself. His inaugural train, the first of its kind, made several stops in Pennsylvania. Hoch follows Lincoln throughout his journey, including the dramatic last leg—the secret night train—when Allan Pinkerton and his agents, determined to protect Lincoln from would-be assassins, cut telegraph lines and sidetracked trains in order to spirit him safely from Harrisburg to Washington. Hoch recovers symbolic moments, none more moving than Lincoln's funeral train as it stopped in several Pennsylvania cities, including York, Harrisburg, Lancaster, and Erie. In Philadelphia, the Liberty Bell was placed at the head of Lincoln's coffin when it lay in

Independence Hall. As more than one hundred thousand mourners passed by, the bell's inscription memorialized his life: Proclaim LIBERTY throughout all the Land unto all the inhabitants thereof. Rarely seen photographs, engravings, and maps enrich this illuminating volume. In the final chapter, Hoch offers a guide of sites to visit in present-day Pennsylvania, making *The Lincoln Trail in Pennsylvania* a welcome book for a wide range of readers interested in American history.

**The Trail Map**© Caitlyn A. Jordan,2013 Previous research has shown that First Generation College Students (FGCS) struggle academically when compared to their non-FGCS peers (Bui, 2002). For example, FGCS tend to experience a lack of social, financial and emotional support which contributes to the following student success deficits: 1) lower academic performance, 2) problematic transitions, 3) and poor retention (Majer, 2009; Terenzini et al., 1996). Studies have shown that mental fitness skill (MFS) constructs such as self- efficacy, goal setting, motivation, and resilience are all related to academic success (Hammermeister, Jordan, Briggs, Galm, & Pickering, 2012). This study aimed to explore further the idea that MFS can be of utility to FGCS in their pursuit of academic success. Specifically, this study focused on a curriculum, which intensively immersed each participant in the goal setting process using the roadmap model developed by South (2005) as a tool to more effectively prepare for classes, exams, and presentations. A single subject non-experimental design with follow-up member checking was used to validate quantitative results (Creswell, 2007). Individual students improved on a number of targeted MFS variables, self-concepts, study habits, academic motivation, resilience, and ability to set goals. Qualitative results revealed that the course was enjoyed by each student and successful in facilitating positive changes in the participants. The academic version of the roadmap, the trail map©, appears to be a useful tool for FGCS--Document.

**A Pathway to PDS Partnership** Emily Shoemaker, Michael Cosenza, Thierry Kolpin, Jacquelyn May Allen, 2020-01-01 Professional Development Schools offer P-12 schools and universities the opportunity to create rich learning environments for students, teacher candidates, teachers, university professors and administrators. The creation of Professional Development Schools requires careful thought and planning by leaders from both institutions who understand the importance of a systemic approach to gathering information that will allow them to build strong, sustainable partnerships. This book is a practical, hands-on guide to exploring and assessing school and university readiness and compatibility to pursue a PDS partnership. The Professional Development School Exploration and Assessment (PDSEA) Protocol provides surveys and focus group interview questions that facilitate the identification of P-12 school and teacher preparation program qualities, characteristics and perceptions to determine institutional compatibility. Collaborative discussion and PDS planning templates provide guidelines for planning new PDSs. Assessment instruments used with the PDSEA Protocol are available online. The authors offer unique insights into Professional Development Schools based on their experiences as educators in elementary, middle school, high school and as university professors who have been active in Professional Development Schools for 13 years. In this book, they share their insights and practical ideas about what it takes to develop viable and sustainable Professional Development Schools. Developed over a period of 8 years in a study that involved three universities and 13 partner schools, the PDSEA Protocol will assist teacher preparation programs, P-12 school districts and individual school sites as they explore, assess and plan school-university partnerships.
