Name and Number: Based On a True Prison Story John Hoskison,2012-10-01 Art student Nick Wood risks selling a few Ecstasy tablets at a party to impress friends and ends up with a two year prison sentence. Nick hopes to spend his sentence in an open prison, the type he's read about in the papers. The ones often referred to as 'holiday camps'. Instead, his worst nightmare comes true. Locked up in HMP Blackthorpe, a prison known for its medieval-like squalor, Nick lives at the mercy of the drug barons and in fear of the lifers. Constantly stalked by danger he has to find a way to survive. To earn protection money he turns to the one thing he's good at—art. But can selling pictures to visitors be enough to keep the mob at bay? Or will he be made an example of by the hard men and suffer the worst type of prison punishment? Based on the experiences of the author.

ABOUT JOHN HOSKISON: In 1994, bestselling author John Hoskison broke a lifetime rule by drinking and driving and on his way home, he hit and killed a cyclist. As a non-violent first offender, he was told he would serve part of his sentence in an open prison, but was instead consigned to some of the toughest in Britain. John was only able to survive his time in prison through the incredible forgiveness he received from the woman whom he'd made a widow and by the support of friends and family who knew his actions were so out of character. Now John spends time speaking to young people at schools and through community out-reach programs, warning them about taking

unnecessary risks and what prison is really like. If anyone is under the illusion that prison is a holiday camp, and that breaking the law just once is worth the risk, read this book. The Line of Polity Neal Asher,2013-12-18 Outlink station Miranda has been destroyed by a nanomycelium, and the very nature of this sabotage suggests that the alien bioconstruct Dragon - a creature as untrustworthy as it is gigantic - is somehow involved. Sent out on a titanic Polity dreadnought, the Occam Razor, agent Cormac must investigate the disaster. Meanwhile, on the remote planet Masada, the long-term rebellion can never rise above-ground, as the slave population is subjugated by orbital laser arrays controlled by the Theocracy in their cylinder worlds, and by the fact that they cannot safely leave their labour compounds. For the wilderness of Masada lacks breathable air ... and out there roam monstrous predators called hooders and siluroynes, not to mention the weird and terrible gabbleducks.
