Evidence-Based Assessment in ASD (Autism Spectrum Disorder) Kenneth Aitken,2017-09-21
Advocating for an increased emphasis on evidence-based practice, this book describes and analyses a wide range of available Autism Spectrum Disorder (ASD) assessment measures. The author offers guidance on how to evaluate services and programmes and how to recognise which will be most effective in different scenarios for people with differing needs. A wide range of measures are reviewed in detail, including assessments used in situations often ignored in overviews relevant to ASD, such as assessments of internet addiction, response to traumatic stress, and criminal offending risk and witness credibility. This book is an invaluable resource to professionals who support people with ASDs, including social workers and teachers, and who are under increasing pressure to reliably assess which services, programmes and therapies are effective and fit-for-purpose.

Financial Market Bubbles and Crashes, Second Edition Harold L. Vogel,2018-08-16 Economists broadly define financial asset price bubbles as episodes in which prices rise with notable rapidity and depart from historically established asset valuation multiples and relationships. Financial economists have for decades attempted to study and interpret bubbles through the prisms of

rational expectations, efficient markets, and equilibrium, arbitrage, and capital asset pricing models, but they have not made much if any progress toward a consistent and reliable theory that explains how and why bubbles (and crashes) evolve and can also be defined, measured, and compared. This book develops a new and different approach that is based on the central notion that bubbles and crashes reflect urgent short-side rationing, which means that, as such extreme conditions unfold, considerations of quantities owned or not owned begin to displace considerations of price.

The Equinox MJ Preston, 2019-07-02 "For those looking for a throwback to the writings of Stephen King . . . The Equinox by MJ Preston . . . [brings] horror back to its core" (Philip C. Perron, Dark Discussions Podcast). It has existed for centuries. A dark curse held captive by an ancient ritual, a creature of insatiable hunger possessing the ability to change shape at will. During the spring and fall equinox it would break through the walls, separating our worlds to feed. Now it walks among us, unrestrained, and very hungry. Daniel Blackbird has been chasing the murderous shapeshifter known as The Walker across North America for over a decade, obsessed with vengeance. As the Walker leaves a bloody trail of eviscerated victims in its wake, Blackbird finds

himself drawn to the prairie town of Thomasville where a string of child murders is being investigated. There, the chief of police, David Logan has uncovered a mass grave in the cornfield of a local farmer named Stephen Hopper. Hopper has confessed, even identified the graves, but claims that he is merely the caretaker of this macabre burial ground and that a creature who he thinks is the devil is responsible. As Chief Logan grapples with the unthinkable, Blackbird sets out for the prairie town which, as the Equinox approaches, is destined to become a killing ground where cultures and worlds will collide . . . "A tale that horrifies while dispensing generous dollops of Native American mysticism . . . an explosion of tension and violence." –Horror World

Rehabilitation Luc H. V. Woude, 2010 This book is a collection of summarized papers and poster presentations from the 4th International Congress Rehabilitation: Mobility, Exercise & Sports, which will be of interest to all those involved in the field of human movement sciences and the rehabilitation professions. Rehabilitation medicine is a relatively young discipline, as is the science of human movement, but both have progressed rapidly from their inception in the latter half of the 20th century to take their current place as important, multi-disciplinary, evidence-based, academic and clinical research subjects.

Confessions Kate Brian, 2012-10-11 Sometimes the truth hurts... Reed's new boyfriend Josh has been

arrested for her ex-boyfriend's murder, but Reed is convinced that he is innocent and that the killer is still out there. Desperate to uncover the truth, Reed does some digging - but what she unearths is more dangerous than even she knew. For the girls of Billings Hall have more secrets than the CIA, and they aren't relinquishing their hold on Reed. Once a Billings Girl, always a Billings Girl... Forever.

Dupuytren's Disease and Related Hyperproliferative Disorders Charles Eaton, M. Heinrich Seegenschmiedt, Ardeshir Bayat, Giulio Gabbiani, Paul M. N. Werker, Wolfgang Wach, 2012-01-19 This book is based on results of the 2010 International Symposium on Dupuytren's disease held in Miami, Florida, but it also includes new data and additional chapters. It is hoped that it will raise awareness of this underestimated condition and promote cooperative efforts to work towards a cure. Up to date information is provided on the epidemiology, biology, and pathology of the disease. The principles and specifics of treatment are explored in detail. The indications for and techniques of radiotherapy, minimally invasive treatments and open surgery are fully explained. The role of physical therapy is considered as well as the care of relapse and complications. The treatment of Ledderhose's disease and Peyronie's disease is also discussed. This book provides invaluable information for hand surgeons, podiatrists, orthopedists, radiation therapy specialists and general practitioners. It will help to foster an interdisciplinary approach to the understanding

and management of this debilitating disorder.

God's Coach Skip Bayless, 2014-01-28 "No football fan will want to miss this one." –PUBLISHERS WEEKLY "A searing character study...a breathless, can't-put-it-down read." –LOS ANGELES TIMES "As savvy, dirt-dishing expose." –KIRKUS REVIEWS From nationally-acclaimed journalist and ESPN commentator Skip Bayless, the newly updated eBook edition of the classic bestseller GOD'S COACH. First published in 1990, this unforgettable expose tears the metallic blue shine off the legendary star, revealing the truth about 'America's Team' and its beloved head coach Tom Landry, whose much-regaled Christian charity extended to strangers everywhere, yet stopped short of the team who labored under him. From the hangover that led Jerry Jones to buy the team, to the wild ride of the Staubach era, Bayless strips away the image of the team created by the most powerful PR machine in sports, revealed by insiders willing to break

their silence. Packed with unparalleled insight into one of the most storied franchises in the history of sports, GOD'S COACH is a compelling revelation about a corrupt football franchise that dared call itself America's Team. Skip Bayless appears daily as the host of ESPN's First Take; his commentary appears regularly on ESPN.com. A former columnist for the Dallas Morning News, DALLAS TIMES HERALD, CHICAGO TRIBUNE, and SAN JOSE MERCURY NEWS, and sportswriter for the LOS ANGELES TIMES and MIAMI HERALD. In addition to GOD'S COACH, he is the author of THE BOYS and HELL-BENT.

Consumption Behaviour and Social Responsibility

Karnika Gupta, Narendra Singh, 2020-05-23 This book investigates the concept of consumer social responsibility (CnSR) by considering the combination of 'consumption behaviour' and 'social responsibility'. It puts forward a theory of responsible consumption behaviour, then models and empirically tests this theory using quantitative research methods. In so doing, the book offers a new consumer behaviour model: the C-A-C-B (Concern-Attitude-Commitment-Behaviour) model. The book appeals to readers interested in consumer behaviour, research methodologies, social responsibility, corporate social responsibility, segmentation and profiling, sustainability, and structural equation modelling with path analysis and confirmatory factor analysis. The book also offers concrete recommendations that will benefit businesses and governments alike.

Security Analysis and Portfolio Management

Ambika Prasad Dash, 2013-12-30 Security Analysis and Portfolio Management endeavours to provide concepts, text and cases for a course on Security Analysis and Portfolio Management, which is widely taught in the business schools around the world. It is consciously planned to help students to acquire knowledge, develop analytical skills and gain insights pertaining to how a fund manager strikes winning strategies for investment by using time-tested, validated and proven techniques which ranges from fundamental analysis to mundane mathematical models. The book is divided in four broad parts. Part One describes the global investment scenario, major investment decisions, and the dynamics of the securities markets. Part Three discusses the most important analysis in investment decisions, wherein good mathematical models are factored in and applied to live conditions through building up case analysis. Part Four deals with the exotic instruments of derivatives and its applications, where cutting-edge research around the globe is going on. The book is designed to meet the expectations of common investors as well as hard core professionals (fund managers) in putting the precious resources at risk for higher returns. Rush Robert Freedman,2014-08-01 Rush is often referred to as a libertarian rock band, but really what the band is channeling is an Aristotelian individualism, a philosophy that strongly resonates with today's 40-somethings. This helps explain the band's resurgence in popularity, culminating in its 2013 induction in the Rock and Roll Hall of Fame.
