**How to Have a Good Day** Caroline Webb, 2016-02-02 In *How to Have a Good Day*, economist and former McKinsey partner Caroline Webb shows readers how to use recent findings from behavioral economics, psychology, and neuroscience to transform our approach to everyday working life. Advances in behavioral sciences are giving us an ever better

understanding of how our brains work, why we make the choices we do, and what it takes for us to be at our best. But it has not always been easy to see how to apply these insights in the real world—until now. In *How to Have a Good Day*, Webb explains exactly how to apply this science to our daily tasks and routines. She translates three big scientific ideas into step-by-step guidance that shows us how to set better priorities, make our time go further, ace every interaction, be our smartest selves, strengthen our personal impact, be resilient to setbacks, and boost our energy and enjoyment. Through it all, Webb teaches us how to navigate the typical challenges of modern workplaces—from conflict with colleagues to dull meetings and overflowing inboxes—with skill and ease. Filled with stories of people who have used Webb’s insights to boost their job satisfaction and performance at work, *How to Have a Good Day* is the book so many people wanted when they finished *Nudge*, *Blink* and *Thinking Fast and Slow* and were looking for practical ways to apply this fascinating science to their own lives and careers. A remarkable and much-needed book, *How to Have a Good Day* gives us the tools we need to have a lifetime of good days.

*The Pebble and the Tower* David Scott, 2007-07  
Despite the cynical Buhrstones belief that all stones should stay where they are, the pebble refuses to accept that as truth in this allegory. The pebble faces ridiculing judgment from its peers and despite its own inability to move independently, finds itself launched on its way.

*Pebbles, Pearls and Gems of the Orient* Charles

De Berard Mills,1882

Anger Thich Nhat Hanh,2001-09-10 [Thich Nhat Hanh] shows us the connection between personal, inner peace and peace on earth. –His Holiness The Dalai Lama Nominated by Martin Luther King, Jr. for a Nobel Peace Prize, Thich Nhat Hanh is one of today's leading sources of wisdom, peace, compassion and comfort. It was under the bodhi tree in India twenty-five centuries ago that Buddha achieved the insight that three states of mind were the source of all our unhappiness: wrong knowing, obsessive desire, and anger. All are difficult, but in one instant of anger—one of the most powerful emotions—lives can be ruined, and health and spiritual development can be destroyed. With exquisite simplicity, Buddhist monk and Vietnam refugee Thich Nhat Hanh gives tools and advice for transforming relationships, focusing energy, and rejuvenating those parts of ourselves that have been laid waste by anger. His extraordinary wisdom can transform your life and the lives of the people you love, and in the words of Thich Nhat Hanh, can give each reader the power to change everything.

**Of Living Stone** David E. Wilkins,Shelly Hulse Wilkins,2024-04-16 Of Living Stone: Perspectives on Continuous Knowledge and the Work of Vine

Deloria, Jr. is a collection of new essays on the legacy of Vine Deloria, Jr., one of the most influential thinkers of our time. This insightful collection features more than thirty original pieces, bringing together Tribal leaders, artists, scientists, activists, scholars, legal experts, and humorists. A group of French scholars offers surprising perspectives on Deloria's continuing global influence. Readers will find thoughtful and creative views on his wide-ranging and world-changing body of work. Some build upon his ideas while others offer important criticisms. In addition to its content, this volume is unique in that it was designed to center the traditional exercise of continuous knowledge whereby information is routinely shared, considered, and pragmatically adapted as it flows between generations. In this way, people, ideas and traditions remain alive and relevant—not set in stone—as the past is honored by those living in the present as they prepare for the future. The book includes contributions from a number of remarkable individuals, including: Climate expert Margaret Redsteer (Crow) Melanie Yazzie (Diné), host of The Red Power Hour podcast Cheryl Crazy Bull (Sicangu Lakota), president of the American Indian College Fund Activists Faith Spotted Eagle (Yankton Dakota) and Lauren Schad (Cheyenne River Lakota) Writer and producer Migizi Pensoneau (Ponca/Ojibwe) Environmental scientists Kyle Whyte (Citizen Potawatomi) and Ryan Emanuel (Lumbee) Experts on Tribal Governance Deron Marquez (Yuhaaviatam of San Manuel), Frank Ettawageshik (Little Traverse Bay), Norbert Hill (Oneida),

Megan Hill (Oneida), and Marty Case. Artists Cannupa Hanska Luger (MHA-Three Affiliated Tribes) and James Johnson (Tlingit) Legal Scholars Sarah Deer (Muscogee), Rebecca Tsosie (Yaqui descent), and Gabe Galanda (Round Valley) Archaeologist Paulette Steeves (Cree-Metis) Scholars of Indigenous Traditions Noenoe Silva (Kānaka Maoli), Natalie Avalos (Chicana of Mexican Indigenous descent), Tom Holm (Cherokee), and Greg Cajete (Tewa-Santa Clara Pueblo). Time magazine named Vine Deloria, Jr. as one of the greatest thinkers of the twentieth century, and his research, writings, and teachings on history, law, religion, and science continue to influence generations of Indigenous peoples and their allies across the world. He authored many acclaimed books, including *God Is Red; The Nations Within* (with Clifford Lytle); *Red Earth, White Lies*; *Spirit and Reason*; and *Custer Died for Your Sins*.

#### Gordimer Byrd's Reminder Robert

Weinstock, 2015-04-01 Gordimer Byrd is a champion thimble-dimpler. But he knows he is destined for something greater. And when he stumbles upon a seemingly magic pebble, he's absolutely sure of it. What happens, then, when the pebble is not as magic as it at first seems? In his stunning picture-book debut, Robert Weinstock relates the story of an unassuming little bird who struggles mightily to realize his dreams. His artwork draws upon antique etchings and a distinctive use of color and composition, and his story is every bit as original. Gordimer Byrd is sure to charm all who encounter him. He reminds us that when looking for magic, we need search no farther than our own

backyard.

**The Nearsighted Naturalist** Ann Zwinger, 2022-03-15 Seeking out wildflowers and whitewater, Ann Zwinger has called many places home. The Nearsighted Naturalist brings together work from more than two decades in her career as one of our most distinguished natural history writers. From the Indiana landscape of her youth to her Colorado mountain retreat, from Arizona's

Aravaipa Canyon to New Zealand's Kapiti Island, Zwinger leads an ever-widening armchair tour of natural places both ordinary and astonishing. Whether anticipating the first day of spring or seeing the elegance of the subtle hues of a moth's papery wings, Zwinger's trademark eye for detail brings the landscape alive. Her travels trace her evolution from a home-centered wife and mother to a wandering adventurer, an evolution that has taught her to be at home in nature no matter where she is. Sprinkled with Zwinger's own charming pen-and-ink drawings, *The Nearsighted Naturalist* reminds us of the power of the very best nature writing. It is an invitation to wander, to travel to faraway places, to revisit your own backyard, to chase dragonflies, and to experience the healing power of a sea-smoothed pebble. *Golden Pebbles* Tritia Hamilton, 2011-03-03 With her drum and the Songs of Intention and

Celebration author Tritia Hamilton has been keeping an appointment with the sunrise each morning for more than seven years. The songs beckon, smooth the pathway and celebrate our arrival into the New Garden Earth. From an island on the coastline of Maine to the high desert in the American Southwest and back to coastal Maine once again, Golden Pebbles traces an adventure of discovery which began while journeying to the sound of a Native American drumming rhythm. It was a journey from which I emerged astonished. I heard singing, I said to the drummer. You heard the voices of the ancestors, he replied quietly. The ancestor voices stirred a memory into the past, and into the future -- multiple layers converging in now. Eventually there were songs to sing -- to the heartbeat rhythm of the drum. Golden Pebbles is the story behind the ceremonial songs, the sunrise drumming ceremonies and the joyful radiating of a cohesive intention and direction. The lyrics for three dozen Songs of Intention and Celebration are included in Golden Pebbles. For more information about the songs, see: [www.goldenpebblepathway.me](http://www.goldenpebblepathway.me)

Cyborg Theatre J. Parker-Starbuck, 2011-04-28  
This book articulates the first theoretical context for a 'cyborg theatre', metaphorically integrating on-stage bodies with the technologized, digitized, or mediatized, to re-imagine subjectivity for a post-human age. It covers a variety of examples, to propose new theoretical tools for understanding performance in our changing world.

**The Pebbles on the Beach** Clarence Ellis, 2018-12-11  
This is a book about the simple pleasure of pebble spotting. Clarence Ellis is a charming, knowledgeable and witty guide to everything you didn't know there was to know about pebbles. He ruminates on what a pebble actually is, before showing us how they are formed, advising on the best pebble-spotting grounds in the UK, helping to identify individual stones, and giving tips on the necessary kit. You'll know your chert from your schist, your onyx from your agate, and will be on your guard for artificial intruders before you know it. Understanding the humble pebble makes a trip to the beach, lake-side or river bank simply that little bit more fascinating.

Stone Jeffrey Jerome Cohen, 2015-05-06  
Stone maps the force, vivacity, and stories within our most mundane matter, stone. For too long stone has served as an unexamined metaphor for the "really real": blunt factuality, nature's curt rebuke. Yet, medieval writers knew that stones drop with fire from the sky, emerge through the subterranean

lovemaking of the elements, tumble along riverbeds from Eden, partner with the masons who build worlds with them. Such motion suggests an ecological enmeshment and an almost creaturely mineral life. Although geological time can leave us reeling, Jeffrey Jerome Cohen argues that stone's endurance is also an invitation to apprehend the world in other than human terms. Never truly inert, stone poses a profound challenge to modernity's disenchantments. Its agency undermines the human desire to be separate from the environment, a bifurcation that renders nature "out there," a mere resource for recreation, consumption, and exploitation. Written with great verve and elegance, this pioneering work is notable not only for interweaving the medieval and the modern but also as a major contribution to ecotheory. Comprising chapters organized by concept—"Geophilia," "Time," "Force," and "Soul"—Cohen seamlessly brings together a wide range of topics including stone's potential to transport humans into nonanthropocentric scales of place and time, the "petrification" of certain cultures, the messages fossils bear, the architecture of Bordeaux and Montparnasse, Yucca Mountain and nuclear waste disposal, the ability of stone to communicate across millennia in structures like Stonehenge, and debates over whether stones reproduce and have souls. Showing that what is often assumed to be the most lifeless of substances is, in its own time, restless and forever in motion, Stone fittingly concludes by taking us to Iceland—a land that, writes the author, "reminds us that stone

like water is alive, that stone like water is transient.”
