Bike Snob BikeSnobNYC,2011-04-29 “Equal parts critical manifesto and tender mini-memoir about a boy and his bikes” from Eben Weiss, blogger and author of The Enlightened Cyclist (GQ). Cycling is exploding in a good way. Urbanites everywhere, from ironic hipsters to earth-conscious commuters, are taking to the bike like aquatic mammals to water. BikeSnobNYC—cycling’s most prolific, well-known, hilarious, and anonymous blogger—brings a fresh and humorous perspective to the most important vehicle to hit personal transportation since the horse. Bike Snob treats readers to a laugh-out-loud rant and rave about the world of bikes and their riders and offers a unique look at the ins and outs of cycling, from its history and hallmarks to its wide range of bizarre

practitioners. Throughout, the author lampoons the missteps, pretensions, and absurdities of bike culture while maintaining a contagious enthusiasm for cycling itself. Bike Snob is an essential volume for anyone who knows, is, or wants to become a cyclist. "This is a social manual that should be bundled with every bike shipped in America." –Christian Lander, author of *Stuff White People Like* "I like to think I know a thing or two (or three) about being ruthless and relentless—either trying to win the Tour or fighting cancer. The Snob knows it too. Keeping us dorks in line is tough work. I take pleasure in getting picked on by the Snob, slightly more pleasure in reading his writing, but take the most pleasure punishing his ass (my payback) on the bike either in Central Park or on 9W/River Road. Long live the Snob." –Lance Armstrong

You can use the review notes as a reference, to understand the subject better and improve your grades. Easy to remember facts to help you perform

better.

On Bicycles Evan Friss, 2019-05-07 Subways and yellow taxis may be the icons of New York transportation, but it is the bicycle that has the longest claim to New York's streets: two hundred years and counting. Never has it taken to the streets without controversy: 1819 was the year of the city's first bicycle and also its first bicycle ban. Debates around the bicycle's place in city life have been so persistent not just because of its many uses—recreation, sport, transportation, business—but because of changing conceptions of who cyclists are. In On Bicycles, Evan Friss traces the colorful and fraught history of cycling in New York City. He uncovers the bicycle's place in the city over time, showing how it has served as a mirror of the city's changing social, economic, infrastructural, and cultural politics since it first appeared. It has been central, as when horse-drawn carriages shared the road with bicycle lanes in the 1890s; peripheral, when Robert Moses's car-centric vision made room for bicycles only as recreation; and aggressively marginalized, when Ed Koch's battle against bike messengers culminated in the short-lived 1987 Midtown Bike Ban. On Bicycles illuminates how the city as we know it today—veined with over a thousand miles of bicycle lanes—reflects a fitful journey powered, and opposed, by New York City's people and its politics.
