Children's Educational Book: Junior Vincent Van Gogh Fiona Holt,2013-03-27 ABOUT THE 'SMART READS for Kids' BOOK SERIES“Love Art, Love Learning”Welcome to the 'SMART READS for Kids' book series. Designed to expand and inspire young minds; this is a range of short educational

books for children aged seven and over. These books do much more than just teach children about Art and Artists. They also act as a gateway to a much broader general knowledge base. Although one Artist's life and major works are always the central theme, wider learning is encouraged in the following ways:

- **Geography.** When locations relevant to the Artist's life are mentioned they are always accompanied by a colourful, child-friendly map so that the opportunity to learn some world geography does not pass the young reader by.
- **History.** If the Artist's actions or inspirations were based on the current affairs of the day then a snippet of history is explained in simple terms than can be easily understood by children.
- **Vocabulary.** In general the vocabulary is uncomplicated. However, a manageable number of longer words are intentionally introduced and then reused in each book. These are always demarked by bright bold colours and are accompanied by a clear definition and pronunciation. There is also a Glossary at the end.
- **Maths.** At least one maths sentence, for example a calculation of the Artist's age or how many years ago they were born, is included in each book. A column subtraction sum to accompany the statement is always laid out somewhere nearby.
- **Concentration.** Each book is written in the friendly first person and a trail of footprints running through it always leads to a cute cartoon animal at the end. The author sometimes asks questions of the young reader (and the final section is always a quiz). These features both keep children engaged in the book and encourage them to form their own opinions. There is intentionally a high ratio of images to text.
- **Other Artists.** No artist lives in isolation; they are invariably influenced by their peers and those that have come before them. Therefore each book introduces a select few new artist's names. In this way the child's knowledge horizon of Art History is gently expanded.
