In 2004, international sales accounted for \$ 9,949 million - that is about one third of its group revenues. [Clark (European takeover targets), p. 31.] Recently, the company has negotiated and realized several acquisitions in Europe. In May 2005, PepsiCo bought the leading German juice maker Punica Getraenke. [Mercer (Europe's juice sector), p. 1.] In November 2005, it has reached agreement on the principal terms and conditions for the purchase of Sara Lee Corporation's European nuts business in the Netherlands, Belgium and France. [PepsiCo International (Sara Lee Nuts Business), p. 1.] With these investments, PepsiCo is driving an international expansion strategy. It aims growth outside the United States (U.S.) by adding local products to their global brands, until its traditional carbonated soft drink portfolio suffers from slower growth, and even some decline. [Mercer (Europe's juice sector), p. 1.] Using this situation as a background, it is interesting to analyze the market of PepsiCo. Who are the global competitors? What structure has the market, as the firm is seeking for growth? The goals

of this research are to deduct the market of PepsiCo and to measure its structure by using significant ratios. First, PepsiCo will be briefly described and the contrast of a global and local view of the market will be compared. Afterwards the competitors of the firm will be named. The market will be split into the non-alcoholic beverage sector and the convenient food sector. Finally, the structure of these sectors will be measured by the concentration ratio and H

How Pepsi Popped Its Top New Word City, 2010-02-01 With U.S. soda sales flagging, Coca-Cola resurgent, and the world in recession, PepsiCo's Indra Nooyi has found ways to cope with each challenge. She has also moved PepsiCo toward a greater commitment to health and the environment, a strategy that has inspired employees, attracted customers, and aided overseas operations. Meet a rabid New York Yankees fan named Indra Nooyi. Apart from adoring the 2009 World Series champions, Nooyi is stunningly different from the men who head up most of America's biggest corporations. She was born 54 years ago in Madras, India. She often wears saris to work at her New York office. She is smart, ebullient, determined, and successful. As Chairperson and Chief Executive Officer of PepsiCo, Inc., she runs the biggest U.S. corporation headed by a woman. Analysis of Marketing Strategies Used by PepsiCo Based on Ansoff's Theory

Kristina Bachmeier, 2009-01-12 Seminar paper from the year 2008 in the subject Business economics - Offline Marketing and Online Marketing, grade: 2, University of applied sciences, Neuss, course: Marketing, language: English,

abstract: Most leading companies today pursue multiple strategies for growth simultaneously in order to reach their strategic goals. It is important to verify how different growth strategies are appropriate for companies operating in different types of markets, and how changes in business environment make the same company decide on different strategic options at stage time in its organisational life cycle. The reason why firms succeed or fail is perhaps the central question in strategy. The firm needs a well-defined scope and growth direction, that objectives alone do not meet this need, and additional decision rules are required if the firm is to have orderly and profitable growth. Such decision rules and guidelines have been broadly defined as strategy or, sometimes, as the concept of the firm's business. The choice of a marketing growth strategy is a function of the strategic situation, organisational characteristics, and entrepreneur motivations. It is inherent to the process of strategy formulation. Companies must be flexible to respond rapidly to competition and market changes. They must benchmark continuously to achieve best practice.

My Life in Full Indra Nooyi, 2021-09-28 A New York Times Bestseller An intimate and powerful memoir by the trailblazing former CEO of PepsiCo For a dozen years as one of the world's most admired CEOs, Indra Nooyi redefined what it means to be an exceptional leader. The first woman of color and immigrant to run a Fortune 50 company – and one of the foremost strategic thinkers of our time – she transformed PepsiCo with a unique vision, a

vigorous pursuit of excellence, and a deep sense of purpose. Now, in a rich memoir brimming with grace, grit, and good humor, *My Life in Full* offers a firsthand view of Nooyi's legendary career and the sacrifices it so often demanded. Nooyi takes us through the events that shaped her, from her childhood and early education in 1960s India, to the Yale School of Management, to her rise as a corporate consultant and strategist who soon ascended into the most senior executive ranks. The book offers an inside look at PepsiCo, and Nooyi's thinking as she steered the iconic American company toward healthier products and reinvented its environmental profile, despite resistance at every turn. For the first time and in raw detail, Nooyi also lays bare the difficulties that came with managing her demanding job with a growing family, and what she learned along the way. She makes a clear, actionable, urgent call for business and government to prioritize the care ecosystem, paid leave and work flexibility, and a convincing argument for how improving company and community support for young family builders will unleash the economy's full potential. Generous, authoritative, and grounded in lived experience, *My Life in Full* is the story of an extraordinary leader's life, a moving tribute to the relationships that created it, and a blueprint for 21st century prosperity.

Management and organisation of PepsiCo. Analysis of two case studies

Juliane Hanke, 2019-08-22 Studienarbeit aus dem Jahr 2015 im Fachbereich BWL - Unternehmensführung, Management, Organisation, , Sprache: Deutsch, Abstract: This seminar paper is guided by the questions of how PepsiCo managed successfully diversity management and CSR, how the company has been led during those changes and how the case of PepsiCo can assist other companies within the same sector. A brief summary of two case studies will be given at the beginning of this seminar paper followed by an analysis through the 7- S Framework of McKinsey. The ensuing chapter is putting diversity management and CSR in the context of leadership. An analysis of Indra Nooyi's leadership style will subsequently be given before deriving recommendations for companies being active within the same sector as closing chapter. The American company PepsiCo is among the world's leading companies in the food and beverage sector having a net revenue of 66 billion dollar in 2013 and being active in more than 200 countries. Starting diversity management under the former CEO Reinemund, the company has taken a step towards an increasing trend of multinational companies in the course of successfully entering new markets. The current CEO Indra Nooyi who is representing diversity herself introduced another aspect besides performance orientation to PepsiCo -

Corporate Social Responsibility (CSR) reflected in her company vision Performance with Purpose.

Pepsi's mission statement. An analysis Florian Metz, 2015-09-17 Essay from the year 2015 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: A, California State University, Fresno, language: English, abstract: The following paper analyzes the vision statement of PepsiCo. This analysis is divided into three parts: First of all the company itself is in the focus. This is followed by an in-depth analysis of PepsiCo's current vision statement. The analysis is carried out on the basis of seven characteristics namely graphic, directional, focus, flexible, feasible, desirable and memorable. Every single characteristic is taken into consideration. Last but not least a recommendation and a conclusion are given.

Analysis of key marketing themes for Pepsi-Cola Benjamin Pommer, 2014-08-25 Seminar paper from the year 2014 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: 1,3, University of Applied Sciences Essen, language: English, abstract: PepsiCo is a global consumption goods company with a very diversified portfolio. The company focuses on beverages and "junk" food. When it comes to brand value and numbers of sold cola beverages, Coca-Cola Co has a unique market share. Especially on the cola-market, both companies are the most successful competitors worldwide. In Germany, Pepsi-Cola has not been as

long on the market as Coca-Cola. None-theless, Pepsi proved to be a strong opponent by initiating clever marketing cam-paigns. However, the German market for cola products is much more competitive than the US-market. The strategic planning analysis of PepsiCo, using Kotler's four P's, shows, how much Pepsi-Cola's suffers from its lack of image compared to Coca-Cola. Pepsi-Cola is very present in retails and commercials, but does not have a trustful brand image. Pepsi-Cola's image as a cheap cola drink is a threat to its future deveopment, because a decline in the product-life-cycle is possible. PepsiCo's focus on the German beverage market needs to include a product development, that show consumers, that Pepsi-Cola can be a tasty as well as a sustainable product. The strategy of product diversification must not contain Pepsi-Cola as the main beverage drink of the company.

Coke-Cola Company performance with a close comparison to PepsiCo Kelly Clarkson, 2013-04-17 Essay from the year 2011 in the subject Business economics - Investment and Finance, grade: A, The University of Liverpool, language: English, abstract: Financial innovation has impacted on

introduction of different finance products. This has impacted on enhancing investor's freedom to choose from different investments options available in the market. Investors will have different risks altitudes and therefore, they will be able to select products which fit their needs. In most cases, Investors will often seek proper advice from investments advisory bodies prior to making investments decision. This will lower risks level as experts are well equipped with critical information on stock historical trend and can be able to make a more accurate projections. Similarly to individual investors, banks are also very cautious prior to extending credit to companies. Credit rating is mainly used in accessing credit worthiness of a given company. This will possibly impact on excluding some companies from accessing the much needed finances. This is common where value of creditors outweigh debt owed to the company. This will however minimize potential risks to the bank incase a company fails to meet debt obligation. It is important to note that all investments are made in the current period with potential benefits to be realized in future. Also, value of investments today may either appreciate or depreciate depending on different market and economic happenings. Banks and other interested stakeholders have been largely utilizing value for money technique in evaluating expected returns in future. Financial projections are also calculated based on expected value of returns in future. This research paper explores Coke-Cola Company performance with a close comparison PepsiCo. Financial performance is analyzed together with

stock performance in both companies. Credit rating as applied by the banks is also discussed.

Market definition and analysis of Pepsi-Cola Benjamin Pommer, 2014-08-25
Seminar paper from the year 2014 in the subject Business economics - Offline Marketing and Online Marketing, grade: 1,3, University of Applied Sciences Essen, language: English, abstract: PepsiCo is a global consumption goods company with a focus on beverages and “junk” food. The total revenue in 2013 underlines its global significance. Compared to Coca-Cola Company, PepsiCo is stronger in North America and around the globe, but that is a direct result of PepsiCo’s diversified portfolio. When it comes to brand value and numbers of sold cola beverages, Coca-Cola Co has a unique market share. Especially on the cola-market, both companies are the most successful competitors worldwide. Pepsi-Cola has a very long history, but had only been a domestic product in the United States until the late 1940s. Therefore, Coca-Cola has an advantage regarding international distribution. In Germany, Pepsi-Cola entered the market almost 30 years after Coca-Cola. Nonetheless, Pepsi proved to be strong opponent by initiating clever marketing campaigns. After the so-called “Pepsi-Challenge” in the 1970s PepsiCo could succeed temporarily in winning the consumers’ hearts. However, the German market for cola products is much more competitive behind Coca-Cola than the US-market. Traditionally, Coca-Cola is the main producer of cola in Germany followed by local products from discount markets. Next to the big international players, the German

beverage industry is very diversified and oriented locally. Pepsi-Cola is available in nearly every German supermarket. It is also very present due to PepsiCo's strong focus on advertising and sponsorship. But among German consumers Coca-Cola still maintains its pole position supported by a dominant brand image. This turns out to be one of the most obvious threat to Pepsi-Cola's market position. Additionally, Pepsi-Cola's image as a cheap cola drink is firm, because of PepsiCo's focus on distribution through discount markets. The development on the German beverage market shows the importance of sustainable packaging and ingredients. Therefore, Pepsi-Cola has to rely on its niche position in order to offer an alternative meeting consumers' requirements in the future.

The Real Pepsi Challenge Stephanie Capparell,2008-06-17 In America's long march toward racial equality, small acts of courage by men and women whose names we don't recall have contributed mightily to our nation's struggle to

achieve its own ideals. This moving book details the story of one such little-noted chapter. In the late 1940s and early 1950s, as Jackie Robinson changed the face of baseball, a group of African-American businessmen -- twelve at its peak -- changed the face of American business by being among the first black Americans to work at professional jobs in Corporate America and to target black consumers as a distinct market. The corporation was Pepsi-Cola, led by the charismatic and socially progressive Walter Mack, a visionary business leader. Though Mack was a guarded idealist, his consent for a campaign aimed at black consumers was primarily motivated by the pursuit of profits -- and the campaign succeeded, boosting Pepsi's earnings and market share. But America succeeded as well, as longstanding stereotypes were chipped away and African-Americans were recognized as both talented employees and valued customers. It was a significant step in our becoming a more inclusive society. On one level, *The Real Pepsi Challenge*, whose author is an editor and writer for *The Wall Street Journal*, is a straightforward business book about the birth of niche marketing. But, as we quickly learn, it is a truly inspirational story, recalling a time when we as a nation first learned to see the strength of our diversity. It is far more than a history of marketing in America; it is a key chapter in the social history of our nation. Until these men came along, typical advertisements depicted African-Americans as one-dimensional characters: Aunt Jemimas and Uncle Bens. But thereafter, Pepsi-Cola took a different approach, portraying American blacks

for what they were increasingly becoming -- accomplished middle-class citizens. While such portrayals seem commonplace to us today, they were revolutionary in their time, and the men who brought them into existence risked day-to-day professional indignities parallel to those that Jackie Robinson suffered for breaking baseball's color line. As they crossed the country in the course of their jobs, they faced the cruelty of American racial attitudes. Jim Crow laws often limited where they could eat and sleep while on the road, and they faced resistance even within their own company. Yet these men succeeded as businessmen, and all went on to success in other professions as well, including medicine, journalism, education, and international diplomacy. Happily, six of these pioneers lived to tell their stories to the author. Their voices, full of pride, good humor, and sharp recollection, enrich these pages and give voice to the continuing American saga.
