How to Be a Perfect 10 Diana Polska,2013-01-01 How to Be a Perfect 10 is the most comprehensive book ever written on how to improve female attractiveness, with over 1,000 scientific studies referenced. Beauty is not in the eye of the beholder as some have come to believe. The author establishes that there is a template for physical beauty. The book explains in exquisite detail how every woman can improve her outer beauty (face, skin, hair, body, breasts, health, style, elegance) and her inner beauty (personality, character). Although some individuals deem certain women to be unappealing and unapproachable, the book confirms that there are no ugly women; there are only women who do not know how to look pretty. With the help of this book, any woman can become a perfect 10 and attract all the love, respect, and admiration she desires. How to Be a Perfect 10 is a must-read for women everywhere!

Felder's Comprehensive, 2005 Edition Nick Felder,2005-07-14 Every industry has its standard professional directory -- advertising has its Black Book, manufacturing its Thomas's Register -- except, that is, for architecture...and design...and construction. While there are dozens of smaller directories, each addressing a specific market niche, none speak to all three industries in a comprehensive way. And larger product directories, like Sweets, are advertising driven and therefore incomplete. Felder's Comprehensive is the first pan-industry guide of its kind, and it is many times more comprehensive than the nearest competitor. It is an annual desk reference, directory, and product source guide with more reference information than any other title currently available. It contains thousands of listings of time-sensitive and timeless reference information for anyone involved in the business or practice of architecture, design, design/build, construction, interior design, facility management, and real-estate development. For example, readers can find listings for more than 12,000 manufacturers of furnishings, fixtures, equipment, and materials listed alphabetically, and, most importantly, by product category. Felder's also lists design competitions, domestic and international trade shows, trade publications and other media, trade associations, professional organizations, and more. Most sections are indexed and cross-referenced for easy referral and identification. Felder's is the first truly comprehensive reference guide of its kind for the A/E/C marketplace and is certain to become the industry standard.
