Fix Your Period Nicole Jardim, 2020-04-28 “Nicole Jardim walks the talk, and I am confident that Fix Your Period will help ignite the hormone balance you are seeking and restore your vitality.” -- Sara Gottfried, MD, New York Times bestselling author of *The Hormone Cure* A life-changing step-by-step natural protocol to ignite lasting hormone balance and improve everything from PMS, period pain, and heavy periods to irregular cycles and missing periods, from Nicole Jardim, certified women's health coach and co-host of the podcast *The Period Party*. For most women, getting their period sucks. Bloating. Cramps. Acne. Aches. Moodiness. Messiness. No wonder we call it *The Curse!* For many, it's not just an inconvenience—it's a colossal life disruption, forcing them to miss work, school, appointments, or dates. We've been encouraged to medicate away common period problems with birth control and ibuprofen, and just survive the mood swings as best we can. But as Nicole Jardim explains, periods aren't a nuisance, they're information. When you learn to decode

your period (or lack thereof), you'll be able to recognize the underlying hormone imbalances causing your period problems and know how to fix them naturally with Jardim's proven six-week protocol to resolve even the most challenging hormone imbalances and menstruation issues. Joining the ranks of books by Jolene Brighten, Sara Gottfried, and Aviva Romm, Nicole Jardim's *Fix Your Period* is essential for women plagued by PMS, irregular, painful, or heavy periods, PCOS, Endometriosis, or fibroids—and for anyone who wants to take charge of her hormonal health—and regain control of her life—naturally.

Deluxe Dana Thomas, 2007-08-16 "With *Deluxe: How Luxury Lost Its Luster*, [Dana] Thomas—who has been the cultural and fashion writer for *Newsweek* in Paris for 12 years—has written a crisp, witty social history that's as entertaining as it is informative." —*New York Times* From the author of *Fashionopolis: The Price of Fast Fashion and the Future of Clothes* Once luxury was available only to the rarefied and aristocratic world of old money and royalty. It offered a history of tradition, superior quality, and a pampered buying experience. Today, however, luxury is simply a product packaged and sold by multibillion-dollar global corporations focused on growth, visibility, brand awareness, advertising, and, above all, profits. Award-winning journalist Dana Thomas digs deep into the dark side of the luxury industry to uncover all the secrets that Prada, Gucci, and Burberry don't want us to know. *Deluxe* is an uncompromising look behind the glossy façade that will enthrall anyone interested in fashion, finance, or culture.

Self-Tracking Gina Neff, Dawn Nafus, 2016-06-24 What happens when people turn their everyday experience into data: an introduction to the essential ideas and key challenges of self-tracking. People keep track. In the eighteenth century, Benjamin Franklin kept charts of time spent and virtues lived up to. Today, people use technology to self-track: hours slept, steps taken, calories

consumed, medications administered. Ninety million wearable sensors were shipped in 2014 to help us gather data about our lives. This book examines how people record, analyze, and reflect on this data, looking at the tools they use and the communities they become part of. Gina Neff and Dawn Nafus describe what happens when people turn their everyday experience—in particular, health and wellness-related experience—into data, and offer an introduction to the essential ideas and key challenges of using these technologies. They consider self-tracking as a social and cultural phenomenon, describing not only the use of data as a kind of mirror of the self but also how this enables people to connect to, and learn from, others. Neff and Nafus consider what's at stake: who wants our data and why; the practices of serious self-tracking enthusiasts; the design of commercial self-tracking technology; and how self-tracking can fill gaps in the healthcare system. Today, no one can lead an entirely untracked life. Neff and Nafus show us how to use data in a way that empowers and educates.
