The Death of Expertise Tom Nichols,2024 In the early 1990s, a small group of AIDS denialists, including a University of California professor named Peter Duesberg, argued against virtually the entire medical establishment's consensus that the human immunodeficiency virus (HIV) was the cause of Acquired Immune Deficiency Syndrome. Science thrives on such counterintuitive challenges, but there was no evidence for Duesberg's beliefs, which turned out to be baseless. Once researchers found HIV, doctors and public health officials were able to save countless lives through measures aimed at preventing its transmission--

Getting to Ellen Ellen Krug,2013 A compelling memoir about Ed Krug, who as a man, had everything that anyone could want: a soul mate's love, the adoration of two beautiful daughters, a house in the best neighborhood, and a successful trial lawyer's career. After years of self-denial, Ed began a gender journey of self-discovery, In the end, that journey meant accepting Ellen, even though doing so meant giving up much of what Ed had valued as a man. This is a truly compelling story that goes beyond some things lost and others gained. It has universal meaning for everyone--whether they are transgender or not.

Why We Shop Jim Pooler,2003-11-30 Shopping is one of the most challenging and rewarding human activities. Pooler offers a captivating exploration of the emotional and psychological dimensions of shopping. What drives shoppers in various situations? Why do we shop the way we do? Why do people go to malls, boutiques, and Web sites with their credit cards in hand, despite not knowing what it is they're looking for? This book answers such questions, taking an incisive look at how shopping and shoppers have changed in recent years. For those in retailing and marketing, this guide to the fickle consumer's mindset offers concrete and practical advice on modern shopping behavior, along with important insights into the shopping psyche. Comprehending why people shop as they do is a daunting challenge for today's retailer. For example, why do people shop for bargain groceries yet purchase the latest luxury-model SUV? Why do people feel justified in splurging for Christmas, birthdays, or anniversaries, but suffer guilt from over-spending at other times of the year? Is clothes-shopping all about price and practicality, or is it more about emotional reward and psychological needs? Is the excitement in the quest or the acquisition? Why is there such a thing as a morning-after urge to return among certain shoppers, while others refuse to return an item even if it's flawed or doesn't fit? Pooler probes to the heart of today's complex shopper, providing valuable insights for retailers, advertisers, marketers, and consumers.

From the first moment of her freshman year at Merryweather High, Melinda knows this is a big fat lie, part of the nonsense of high school. Learn to Earn Peter Lynch,John Rothchild,2012-11-27 Mutual-fund superstar Peter Lynch and author John Rothchild explain the basic principles of the stock market and business in an investing guide that will enlighten and entertain anyone who is high-school age or older. Many investors, including

some with substantial portfolios, have only the sketchiest idea of how the stock market works. The reason, say Lynch and Rothchild, is that the basics of investing—the fundamentals of our economic system and what they have to do with the stock market—aren’t taught in school. At a time when individuals have to make important decisions about saving for college and 401(k) retirement funds, this failure to provide a basic education in investing can have tragic consequences. For those who know what to look for, investment opportunities are everywhere. The average high-school student is familiar with Nike, Reebok, McDonald’s, the Gap, and the Body Shop. Nearly every teenager in America drinks Coke or Pepsi, but only a very few own shares in either company or even understand how to buy them. Every student studies American history, but few realize that our country was settled by European colonists financed by public companies in England and Holland—and the basic principles behind public companies haven’t changed in more than three hundred years. In *Learn to Earn*, Lynch and Rothchild explain in a style accessible to anyone who is high-school age or older how to read a stock table in the daily newspaper, how to understand a company annual report, and why everyone should pay attention to the stock market. They explain not only how to invest, but also how to think like an investor.

The Other End of the Leash Patricia McConnell, Ph.D.,2009-02-19 Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.
