Don Richard Riso, Russ Hudson

**Personality Types** Don Richard Riso, Russ Hudson, 1996-10-29 The definitive guide to using this ancient psychological system to gain self-knowledge and achieve personal growth—now expanded and revised. The Enneagram is an extraordinary framework for understanding more about ourselves. No matter from which point of view we approach it, we discover fresh conjunctions of new and old ideas. So writes Don Riso in this expanded edition of his classic interpretation of the Enneagram, the ancient psychological system used to understand the human personality. In addition to updating the descriptions of the nine personality types, *Personality Types, Revised* greatly expands the accompanying guidelines and, for the first time, uncovers the Core Dynamics, or Levels of Development, within each type. This skeletal system provides far more information about the inner tension and movements of the nine personalities than has previously been published. This increased specificity will allow therapists, social workers, personnel managers, students of the Enneagram, and general readers alike to use it with much greater precision as they unlock the secrets of self-understanding, and thus self-transformation. “No Enneagram teachers I’ve come across offer such a rich and dynamic picture of how each personality type expresses itself in the world, and the process by which we can move through progressive stages of psychological and spiritual growth.”—Tony Schwartz, author of *What Really Matters: Searching for Wisdom in America*

*The 16 Personality Types in a Nutshell* Jaroslaw Jankowski, 2016 Meet the self-sufficient and brilliant strategist, the constructive and responsive mentor and the warm and optimistic counsellor. Meet the artist, the logician, the enthusiast and the presenter... Discover what makes each personality type distinctive. Then try matching them to your nearest and dearest, your friends and acquaintances. Will you also manage to identify your own type? ID16 is a personality typology which draws on the theory developed by Carl Gustav Jung. Typologies formulated on the basis of Jung’s theory are widely used in teaching, training, coaching and human resource management, as well as in career and relationship counselling. They also form a basis for numerous programmes supporting personal development and improving interpersonal relationships. The majority of global businesses employ Jungian personality tests as a standard tool in their recruitment procedures and vocational development processes. **Type Talk** Otto Kroeger,Janet M. Thuesen,2013-01-16 Determine your personality using a scientifically validated method based on the work of C.G. Jung and gain insight into why others behave the way they do, and why you are the person you are. What's your type? Would you rather . . . . . celebrate with the whole crowd or just a few friends? . . . focus on the facts or get an overall impression? . . . go with what "seems logical" or what "feels fair"? . . . keep to a schedule or keep your options open? How you answer these questions is the very beginning of understanding who you are and how you relate to those around you, by using a new and exciting method called Typewatching. Otto Kroeger and Janet M. Thuesen have developed Typewatching from the Myers-Briggs Type Indicator, which was derived from the work of C. G. Jung. Now they have put together the first and only popular guide to the MBTI in *Type Talk*. Here is a one-of-a-kind guide that describes this scientifically validated approach to "name-calling," a method that has been used for more than forty years by individuals, families, corporations, and governments who want to communicate better. Typewatching as explained in *Type Talk* is easy to learn and natural to use. With even moderate practice it can help teachers teach and students learn, workers work and bosses boss. It can help lovers love, parents parent, and everyone accept themselves and others more easily. Best of all, Typewatching is fun. *Type Talk* examines the four pairs of preferences that are fundamental to every personality type: Extraversion/Introversion, Sensing/iNtuition, Thinking/Feeling, and Judging/Perceiving. Kroeger and Thuesen provide a self-evaluation that can be used to determine which of each of these preferences best describes you.

They delineate every combination of preferences—there are 16 different personality types, so you are sure to find yourself—and they go on to demonstrate how to analyze and evaluate other people as well. Once armed with this knowledge, you will learn how to thrive in a world of so many different types. Here is a celebration of the similarities and differences in people, an odyssey of discovery in which the final destination is success, satisfaction, and serenity.
