**Russian Oil Supply** John D. Grace,2005 Russian Oil Supply traces the development of the Russian oil industry from its inception in the 1870s through the present. The fundamental geology of the two main producing basins (Volga-Ural and West Siberia) is presented along with a review of key production technologies. The technical, economic, and policy aspects of achieving the 1987-88 peak production are described as well as the mechanics of the production collapse that followed and, since 1999, the recovery of Russian output. The performance of Russia's major oil companies, independents and joint ventures is analyzed and conclusions drawn on the future course of production and exports.

Laboratory Manual for Science – 8 A. K. Raj, Laboratory Manual for Science is a series of five books for classes 6 to 10. These are complimentary to the Science textbooks of the respective classes. The manuals cover a wide range of age-appropriate experiments that give hands-on experience to the students. The experiments help students verify scientific truths and principles, and at the same time, expose them to the basic tools and techniques used in scientific investigations. Our manuals aim not only to help students better comprehend the scientific concepts taught in their textbooks but also to ignite a scientific quest in their young inquisitive minds.
