Chinese Contemporary Art in the Global Auction Market Anita Archer,2022-04-04 Chinese Contemporary Art in the Global Auction Market charts the rapid emergence of a multi-million-dollar global market for Chinese Contemporary art by revealing the strategic activities of art world agents in promoting the work of 'avant-garde' Chinese artists to a Western audience.

The Auctioneer Simon de Pury,William Stadiem,2016-05-03 Simon de Pury, former Chairman of Sotheby's Europe, former owner of Sotheby's rival Phillips de Pury, and currently a London-based dealer, takes us inside a secretive business, whose staggering prices, famous collectors, and high crimes are front page news almost every day--

The \$12 Million Stuffed Shark Don Thompson,2012-02-21 Why would a smart New York investment banker pay \$12 million for the decaying, stuffed carcass of a shark? By what alchemy does Jackson Pollock's drip painting No. 5, 1948 sell for \$140 million? Intriguing and entertaining, *The \$12 Million Stuffed Shark* is a Freakonomics approach to the economics and psychology of the contemporary art world. Why were record prices achieved at auction for works by 131 contemporary artists in 2006 alone, with astonishing new heights reached in 2007? Don Thompson explores the money, lust, and self-aggrandizement of the art world in an attempt to determine what makes a particular work valuable while others are ignored. This book is the first to look at the economics and the marketing strategies that enable the modern art market to generate such astronomical prices. Drawing on interviews with past and present executives of auction houses and art dealerships, artists, and the buyers who move the market, Thompson launches the reader on a journey of discovery through the peculiar world of modern art. Surprising, passionate, gossipy, revelatory, *The \$12 Million Stuffed Shark* reveals a great deal that even experienced auction purchasers do not know.

Art for Sale Dirk Boll,2023-12-18 Record prices and substantial profits have been and still are being achieved on the art market. Yet anyone who wants to get involved needs to be informed: what distinguishes the English type of auction from one in the Netherlands? What differentiates a vintage from a period, modern, or estate print? Dirk Boll, managing director of Christie's in Zurich, explains this and other technical terms while providing us with insight into the rapidly changing art market: the increasingly symbiotic relationship between auctioneers and art dealers, the strategies used by the big auction houses, recognizing and creating trends, the profiles of the individual art fairs, promising new areas for collectors, and the future development of the art market are just some of the fascinating themes the expert knowledgeably and humorously deals with in concise chapters. A trained lawyer, Boll is as competent at shedding light on the legal parameters regulating the acquisition of art as he is in elucidating the difficulties surrounding looted art and restitution procedures. The A-Z of the International Art Market Tom Flynn,2016-11-03 It is estimated that there are over 300,000 companies involved in the world's art market, employing around 2.8 million people. But the art world carries a veneer of mystery and secrecy that many people find daunting, and the language used by market insiders can be alienating and confusing to those new to the art market. The A-Z of the International Art Market not only clarifies useful terms and definitions, but also represents a significant contribution to the fast-developing processes of transparency and democratisation in the global art business. Comprising art market terms and core concepts – both historical and contemporary – this book is a long-awaited reference source that offers a unique introduction to a dynamic business sector. The A-Z of the International Art Market provides an accessible and thorough insight into critical areas of market practice and custom that anyone involved in the art market will find useful and enlightening.

The Art of the Steal Christopher Mason,2005-05-03 The Art of the Steal tells the story of several larger-than-life figures - the billionaire tycoon Alfred Taubman; the most powerful woman in the art world, Dede Brooks; and the wily British executive Christopher Davidge - who conspired to cheat their clients out of millions of dollars. It offers an unprecedented look inside this secretive, glamorous, gold-plated industry, describing just how Sotheby's and Christie's grew from clubby, aristocratic businesses into slick international corporations. And it shows how the groundwork for the most recent illegal activities was laid decades before the perpetrators were caught by federal prosecutors.

The Sale of Misattributed Artworks and Antiques at Auction Anne Laure Bandle,2016-10-28 The glamour and mystery of the art auction, gathering interested buyers from across the globe, makes it one of the most fascinating marketplaces in existence. 'Sleepers', artworks or antiques that have been undervalued and mislabelled due to an expert's oversight and consequently undersold, appear regularly. This fascinating new book provides the first extensive study of the phenomenon of sleepers through an in-depth analysis of the contractual relationships, liability and remedies that arise in the context of auction sales.

The Economics of Contemporary Art Alessia Zorloni,2013-04-16 The book examines the contemporary art system with a broad and systematic approach, through the application of models of microeconomics and industrial organizations. By breaking down the traditional barriers between different academic disciplines such as art and economics, this book offers a unique opportunity to grasp the complexities of the contemporary art world and provides the tools to conduct a structural analysis of that market. The result is an in-depth analysis of the contemporary art market from an interdisciplinary perspective. While it is not a textbook in the strictest sense, the book offers a concise and effective overview of all actors in the art system, and provides supporting data and valuable information, both conceptual and practical. It is therefore a text that can be used by students wishing to better

understand the complex dynamics that govern the contemporary art market, but also by cultural managers, collectors, potential art investors or simply art lovers who need a quick reference.□

New York's New Edge David Halle, Elisabeth Tiso, 2014-12-09 The story of New York's west side no longer stars the Sharks and the Jets. Instead it's a story of urban transformation, cultural shifts, and an expanding contemporary art scene. The Chelsea Gallery District has become New York's most dominant neighborhood for contemporary art, and the streets of the west side are filled with gallery owners, art collectors, and tourists. Developments like the High Line, historical preservation projects like the Gansevoort Market, the Chelsea galleries, and plans for megaprojects like the Hudson Yards Development have redefined what is now being called the "Far West Side" of Manhattan. David Halle and Elisabeth Tiso offer a deep analysis of the transforming district in New York's New Edge, and the result is a new understanding of how we perceive and interpret culture and the city in New York's gallery district. From individual interviews with gallery owners to the behind-the-scenes politics of preservation initiatives and megaprojects, the book provides an in-depth account of the developments, obstacles, successes, and failures of the area and the factors that have contributed to them.

The Supermodel and the Brillo Box Don Thompson, 2014-05-27 Acquiring contemporary art is about passion and lust, but it is also about branding, about the back story that comes with the art, about the relationship of money and status, and, sometimes, about celebrity. The Supermodel and the Brillo Box follows Don Thompson's 2008 bestseller The \$12 Million Stuffed Shark and offers a further journey of discovery into what the Crash of 2008 did to the art market and the changing methods that the major auction houses and dealerships have implemented since then. It describes what happened to that market after the economic implosion following the collapse of Lehman Brothers and offers insights and art-world tales from dealers, auction houses, and former executives of each, from New York and London to Abu Dhabi and Beijing. It begins with the story of a wax, trophy-style, nude upper-body sculpture of supermodel Stephanie Seymour by Italian artist Maurizio Cattelan, which sold for \$2.4 million to New York über-collector and private dealer Jose Mugrabi, and recounts the story of a wooden Brillo box that sold for \$722,500. The Supermodel and the Brillo Box looks at the increasing dominance of Christie's, Sotheby's, and a few über

dealers; the hundreds of millions of new museums coming up in cities like Dubai, Abu Dhabi, and Beijing; the growing importance of the digital art world; and the shrinking role of the mainstream gallery.
