**TV China** Ying Zhu,Chris Berry,2009-01-28 If radio and film were the emblematic media of the Maoist era, television has rapidly established itself as the medium of the marketized China and in the diaspora. In less than two decades, television has become the dominant medium across the Chinese cultural world. TV China is the first anthology in English on this phenomenon. Covering the People's Republic, Hong Kong, Taiwan, and the Chinese diaspora, these 12 original essays introduce and analyze the Chinese television industry, its programming, the policies shaping it, and its audiences.

International Communication Strategies of Chinese Radio and TV Networks Duan Peng,2017-04-13 This book discusses the effect of communication strategies in the course of China's national image building from both a theoretical and a practical perspective. The research data are collected via researcher's in-depth observation as well as focus group analysis and case study of selected Chinese radio and TV networks. On the basis of the empirical study and drawing on theories of international communication and political communication, this book also introduces an analytical framework that can be used to evaluate the effect of communication strategies in practice. Especially, the framework is applied to systematically analyze the formation and application of Chinese Communist Party's communication strategy with an aim at improving the national image and increasing its global influence. This book is of interest to graduate students and researchers who are interested in the broadcast communication in China.

*Phoenix Island* John Dixon,2014-01-07 When a tough sixteen-year-old boxing champ sentenced to an isolated boot camp discovers it is actually a mercenary training facility turning throwaway children into scientifically enhanced killers, he risks everything to save his friends and stop a madman bent on global destruction.

**Phoenix Television** John E. Craft and Lisa Honebrink,2019 Immediately following World War II, television burst upon the American scene. Radio had been the popular way of receiving news and entertainment during the war years, but now, television could provide pictures to illustrate radio's programs. It was like having your own personal movie theater in your living room. Although isolated in the Sonoran Desert, Phoenix citizens were not to be denied the wonders of this new communication medium. KPHO-TV, Channel 5, signed on the air on December 4, 1949, with a selection of programs from all four television networks. Channels 12, 10, and 3 were soon to follow, and the lifestyles of the residents of Phoenix would never be the same. The flickering blue light from the Magnavox or RCA receivers danced on the curtains of the darkened living rooms all over town. Now Phoenixians could experience the televised dramas from New York City or view the films of Hollywood with just the flip of a switch--and maybe some careful adjustment of the rabbit ears.

**The Political Economies of Media** Dwayne Winseck,Dal Yong Jin,2012-05-08 The contributors show that digital media are disrupting entire media industries, but without erasing the past and insist that one media sector is not the same as the next. As the title signals even in the age of convergence and remix culture, different media continue to display their own distinctive political economies.

**Understanding Ethnic Media** Matthew D. Matsaganis, Vikki S. Katz, Sandra J. Ball-Rokeach, 2011 At present, the picture of the ethnic media is an incomplete one: While there is significant material on the portrayal of ethnic minorities in the mainstream media (and on how these representations affect ethnic perceptions), there is very little material/research on how the media produced by ethnic communities, for ethnic communities affect (1) the perceptions of self and of the ethnic community and (2) how the production and consumption of ethnic media affects the character of the larger media landscape. *Understanding Ethnic Media* approaches the ethnic media from the consumers' point of view AND the producers' vantage point, as changes that occur in the ethnic community affect the media, and vice versa. This accessible textbook strives to bridge the gap between the consumer and the production-centered research as it examines the relationships (a) between the ethnic media available in particular markets and (b) between the ethnic and mainstream media.

**Media and Communication in the Chinese Diaspora** Wanning Sun, John Sinclair, 2015-09-16 The rise of China has brought about a dramatic increase in the rate of migration from mainland China. At the same time, the Chinese government has embarked on a full-scale push for the internationalisation of Chinese media and culture. Media and communication have therefore become crucial factors in shaping the increasingly fraught politics of transnational Chinese communities. This book explores the changing nature of these communities, and reveals their dynamic and complex relationship to the media in a range of countries worldwide. Overall, the book highlights a number of ways in which China's going global policy interacts with other factors in significantly reshaping the content and contours of the diasporic Chinese media landscape. In doing so, this book constitutes a major rethinking of Chinese transnationalism in the twenty-first century.

**Chinese Media, Global Contexts** Lee Chin-Chuan, 2003-09-02 This book provides the most expert, up-to-date, and multidisciplinary analyses on how the contemporary media function in that is rapidly becoming the world's largest market. As the West, particularly the United States, tries to integrate China into the 'civilized world' through the extension of global capitalism, *Chinese Media, Global Contexts* examines how globalizing forces clash with Chinese nationalism to shape China's media discourses and ideology. Conversely, this book also asks if the media provide a site and forum for contestation between different social classes and ideologies in China.--Back cover.

**The Enforcers** Rob Wells,2019-11-18 In the 1980s, real estate developer and banker Charles H. Keating executed one of the largest savings and loans frauds in United States history. Keating had long used the courts to muzzle critical reporting of his business dealings, but aggressive reporting by a small trade paper called the National Thrift News helped bring down Keating and offered an inspiring example of business journalism that speaks truth to power. Rob Wells tells the story through the work of Stan Strachan, a veteran financial journalist who uncovered Keating's misdeeds and links to a group of US senators—the Keating Five—who bullied regulators on his behalf. Editorial decisions at the National Thrift News angered advertisers and readers, but the newsroom sold ownership on the idea of investigative reporting as a commercial opportunity. Examining the National Thrift News's approach, Wells calls for a new era of business reporting that can—and must—embrace its potential as a watchdog safeguarding the interests of the public.

**A MURDER OF CROWS** CHARLES E. CROCKETT,2012-07-18 **BACK COVER:** Detailing the far-right's attempts to alter the American political and economic landscape to satisfy its national ambitions, **A MURDER OF CROWS** identifies over 100 people and organizations who would seek to turn back America to a time of little governmental participation, lower tax rates for the wealthy, and a closely held corporate and personal control of society's functions and finances. It exposes the real desires and naked zeal of those who would place property rights over the rights and the needs of the average American citizen. The text is well documented and provides a scathing indictment of those on the right who would wish to alter America's future to serve only a very prosperous few.

**Beijing's Global Media Offensive** Joshua Kurlantzick,2022-12 A major analysis of how China is attempting to become a media and information superpower around the world, seeking to shape the politics, local media, and information environments of both East Asia and the World. Since China's ascendancy toward major-power status began in the 1990s, many observers have focused on its economic growth and expanding military. China's ability was limited in projecting power over information and media and the infrastructure through which information flows. That has begun to change. Beijing's state-backed media, which once seemed incapable having a significant effect globally, has been overhauled and expanded. At a time when many democracies' media outlets are consolidating due to financial pressures, China's biggest state media outlets, like the newswire Xinhua, are modernizing, professionalizing, and expanding in attempt to reach an international audience. Overseas, Beijing also attempts to impact local media, civil society, and politics by having Chinese firms or individuals with close links buy up local media outlets, by signing content-sharing deals with local media, by expanding China's social media giants, and by controlling the wireless and wired technology through which information now flows, among other efforts. In **Beijing's Global Media Offensive** - a major analysis of how China is attempting to build a media and information superpower around the world, and how this media power integrates with other forms of Chinese influence - Joshua Kurlantzick focuses on how all of this is playing out in both China's immediate neighborhood - Southeast Asia, Taiwan, Australia, and New Zealand - and also in the United States and many other parts of the world. He traces the ways in which China is trying to build an information and influence superpower,

but also critically examines the new conventional wisdom that Beijing has enjoyed great success with these efforts. While China has worked hard to build a global media and information superpower, it often has failed to reap gains from its efforts, and has undermined itself with overly assertive, alienating diplomacy. Still, Kurlantzick contends, China's media, information and political influence campaigns will continue to expand and adapt, helping Beijing exports its political model and protect the ruling Party, and potentially damaging press freedoms, human rights, and democracy abroad. An authoritative account of how this sophisticated and multi-pronged campaign is unfolding, Beijing's Global Media Offensive provides a new window into China's attempts to make itself an information superpower.

Kaye, 2016-12-01 Electronic Media: Then, Now, and Later provides a synopsis of the beginnings of electronic media in broadcasting and the subsequent advancements into digital media. The companion website is updated and offers materials for instructors (an IM, PowerPoint slides, and test bank)

*Transnational Television Worldwide* Jean K. Chalaby, 2004-11-26 This book is the first to offer a global perspective on the unique contemporary media phenomenon of transnational television channels. It is also the first to compare their impact in different regions of the globe. Revealing great richness and diversity across some of the world's main geocultural regions (Europe, the Middle East, Africa, South Asia, Greater China and Latin America), international contributors with in-depth industry knowledge examine the place of these channels in the process of globalization, their impact on the nation-state and on regional culture and politics. The book also considers audiences and geocultural TV markets, providing new ways of thinking about the emerging transnational media order.
