Put Reading First: the Research Building Blocks for Teaching Children to Read Bonnie B. Armbruster,2010-11

Teach Your Child to Read in 100 Easy Lessons Phyllis Haddox,Siegfried Engelmann,Elaine Bruner,1986-06-15 A step-by-step program that shows parents, simply and clearly, how to teach their child to read in just 20 minutes a day.

Homeschooling 101 Christine Field,Mark Field,2007-04-01 Where to begin and how to continue. . . Homeschooling 101 will help potential and current homeschooling parents caught between a proverbial rock (the expectations of the world when it comes to education) and a hard place (honoring God through the raising and teaching of their children). Veteran homeschool couple Mark and Christine Field write from experience about why homeschooling is best for children and how to make the process a complete success at every step. Chapters include discussions on the uniqueness of each child, practical advice on teaching children of different ages at the same time, the centrality of the Bible in the education process, and approaches to teaching various subjects, and much more.

Literacy 101 David Booth,2016-06-20 In this expansive survey, David Booth, one of our foremost authorities on teaching literacy, answers real questions from teachers like you about turning research and theory into effective best practice. Teachers will find the answers they need and can use on almost any

topic from phonics and word walls for beginning readers to guided reading, literature circles, and writing journals and workshops for more confident readers; from using traditional texts to comics, songs and the Internet to cover the complete gamut of the new literacies; from using testing as a teaching tool to creating a classroom community that is both diverse and welcoming. But Literacy 101 is more than just a guide – it's also the compelling story of one teacher's journey through literacy. David writes frankly about what has worked and not worked for him over the years, and how what looks good on paper may need to be adapted for a real classroom.

Phonics Through Poetry Babs Bell Hajdusiewicz, 1998-09 Carefully prepared lessons use the rhythm and rhyme of poetry to teach phonics. This book's 115 read-aloud poems - some from well-known children's authors like Norma Farber, Maurice Sendak, John Ciardi, and Jack Prelutsky, others written specially for this book - immerse children in particular language sounds again and again, in word after word, within an exciting context. Each poem comes with teaching apparatus comprising word lists using the targeted sound, a focusing talk to cement and extend students' connection to the poem, and an idea for a hands-on activity. Photocopy masters supply letter cards for sounds the book targets. Multiple indexes (by the poem's first line, by title, by sound, and so on) aid ease of use. Grades preK-1. Illustrated. Good Year Books.
