Topics explored include: how Web 2.0 can be conceptualized and theorized; the role of English on the worldwide web; how use of social media such as Facebook and texting shape communication with family and friends; electronic discourse and assessment in educational and other settings; multimodality and the participatory spectacle in Web 2.0; asynchronicity and turn-taking; ways that we engage with technology including reading on-screen and on paper; and how all of these processes interplay with meaning-making.
