Digital Performance Steve Dixon,2015-01-30 The historical roots, key practitioners, and artistic, theoretical, and technological trends in the incorporation of new media into the performing arts. The past decade has seen an extraordinarily intense period of experimentation with computer technology within the performing arts. Digital media has been increasingly incorporated into live theater and dance, and new forms of interactive performance have emerged in participatory installations, on CD-ROM, and on the Web. In *Digital Performance*, Steve Dixon traces the evolution of these practices, presents detailed accounts of key practitioners and performances, and analyzes the theoretical, artistic, and technological contexts of this form of new media art. Dixon finds precursors to today's digital performances in past forms of theatrical technology that range from the deus ex machina of classical Greek drama to Wagner's Gesamtkunstwerk (concept of the total artwork), and draws parallels between contemporary work and the theories and practices of Constructivism, Dada, Surrealism, Expressionism, Futurism, and multimedia pioneers of the twentieth century. For a theoretical perspective on digital performance, Dixon draws on the work of Philip Auslander, Walter Benjamin, Roland Barthes, Jean Baudrillard, and others. To document and analyze contemporary digital performance practice, Dixon considers changes in the representation of the body, space, and time. He considers virtual bodies, avatars, and digital doubles, as well as performances by artists including Stelarc, Robert Lepage, Merce Cunningham, Laurie Anderson, Blast Theory, and Eduardo Kac. He investigates new media's novel approaches to creating theatrical spectacle, including virtual reality and robot performance work, telematic performances in which remote locations are linked in real time, Webcams, and online drama communities, and considers the extratemporal illusion created by some technological theater works. Finally, he defines categories of interactivity, from navigational to participatory and collaborative. Dixon challenges dominant theoretical approaches to digital performance—including what he calls postmodernism's denial of the new—and offers a series of boldly original arguments in their place.

Understanding Cybersecurity Law in Data Sovereignty and Digital Governance Melissa Lukings,Arash Habibi Lashkari,2022-10-14 This book provides an overview of the topics of data, sovereignty, and governance with respect to data and online activities through a legal lens and from a cybersecurity perspective. This first chapter explores the concepts of data, ownerships, and privacy with respect to digital media and content, before defining the intersection of sovereignty in law with application to data and digital media content. The authors delve into the issue of digital governance, as well as theories and systems of governance on a state level, national level, and corporate/organizational level. Chapter three jumps into the complex area of jurisdictional conflict of laws and the related issues regarding digital activities in international law, both public and private. Additionally, the book discusses the many technical complexities which underlay the evolution and creation of new law and governance strategies and structures. This includes socio-political, legal, and industrial technical complexities which can apply in these areas. The fifth chapter is a comparative examination of the legal strategies currently being explored by a variety of nations. The book concludes with a discussion about emerging topics which either influence, or are influenced by, data sovereignty and digital governance, such as indigenous data sovereignty, digital human rights and self-determination, artificial intelligence, and global digital social responsibility. Cumulatively, this book provides the full spectrum of information, from foundational principles underlining the described topics, through to the larger, more complex, evolving issues which we can foresee ahead of us.

Demanding Images Karen Strassler,2020-03-20 The end of authoritarian rule in 1998 ushered in an exhilarating but unsettled period of democratization in Indonesia. A more open political climate converged with a rapidly changing media landscape, yielding a vibrant and volatile public sphere within which Indonesians grappled with the possibilities and limits of democracy amid entrenched corruption, state violence, and rising forms of intolerance. In *Demanding Images* Karen Strassler theorizes image-events as political processes in which publicly circulating images become the material ground of struggles over the nation's past, present, and future. Considering photographs, posters, contemporary art, graffiti, selfies, memes, and other visual media, she argues that people increasingly engage with politics through acts of making, circulating, manipulating, and scrutinizing images. *Demanding Images* is both a closely observed account of Indonesia's turbulent democratic transition and a globally salient analysis of the work of images in the era of digital media and neoliberal democracy. Strassler reveals politics today to be an unruly enterprise profoundly shaped by the affective and evidentiary force of images.

Sit Down to Rise Up Shelly Tygielski,2021-10-26 An empowering book on propelling profound social change by going inward, from a mindfulness teacher and activist who has turned personal practice into movements. The practice of self-care is most often touted for its profound mind, body, and spirit benefits. Shelly Tygielski shows that self-care can also be a powerful tool for spurring transformative collective action. In a winning combination of memoir, manifesto, and how-to, Shelly shares her evolution from a Jerusalem-born child of traditional Sephardic Jewish parents to a middle-class American suburban youth who questioned her faith to a young executive in corporate America. As she used radical self-care practices to manage a serious chronic health issue, she had an epiphany: finding true health and peace is not a solo endeavor but one that lives in

connection with others. Tygielski considers herself an unlikely meditator, activist, and teacher. But as such, she is uniquely qualified to speak to all today who wonder, “What can I do?” or, “Will my actions even make a difference?” Tygielski’s work began as “me” work and transformed into “we” work. In *Sit Down to Rise Up*, she shows that this is possible for all of us.

Leadership from the Mission Control Room to the Boardroom: A Guide to Unleashing Team Performance Paul Sean Hill,2017-06-20 Failure is always an option, and so is choosing to lead your team into an environment that helps them avoid catastrophe and pull off miracles. For more than fifty years, NASA’s Mission Control has done just that. Take the ultimate insider’s look at the leadership values and culture that made that track record possible. Paul Hill paints a vivid picture, candidly portraying the critical cultural connections in human spaceflight triumphs and failures. By demonstrating how his Mission Control team learned to steward this culture into their management roles, Paul provides a guide for any organization to boost their own performance by leveraging the core ideas and values that have delivered “impossible” wins for decades. Whether failure means cost and schedule overruns, quality escapes, loss of market share, bankruptcy, or putting people’s lives at risk, how we lead can determine whether even small mistakes snowball out of control and destroy an enterprise. Discover how to take Leadership from the Mission Control Room to the Boardroom, and enable this leadership environment in your team. What can your team learn from top tier leaders at NASA Mission Control? Maybe more than you think. In *Leadership from the Mission Control Room to the Boardroom*, former NASA flight director Paul Hill tells the true story of the game-changing transformation of Mission Control’s senior leadership team. Ride along on a journey of evolution as these executives rediscover the core purpose and values that had never left their organization. Hill’s candor and intensity makes this a fascinating read for every leader! — KEN BLANCHARD, COAUTHOR OF THE NEW ONE MINUTE MANAGER® AND LEADING AT A HIGHER LEVEL There is no higher-stakes environment than NASA’s Mission Control. This incredible team’s leadership journey — and development of precise decision-making in the face of unbelievable pressure — are inspiring. Filled with fascinating insights into spaceflight and leadership alike, every leader will find parallels to their own organization. Paul’s incredible book is a must-have for anyone leading a high-performance team and an invaluable addition to any business library. — MARSHALL GOLDSMITH – THE THINKERS 50 #1 LEADERSHIP THINKER IN THE

WORLD This is an arresting work by a former NASA Flight Director with whom I was privileged to work during the Return-to-Flight of the Space Shuttle Program in 2005. Paul Hill takes the reader through NASA's legendary 'Mission Control' in a way not found in any other work with which I am familiar. From its origins in aircraft flight test, to the early days of the space program with Project Mercury, and on to the iconic time of Apollo, and from there to the Space Shuttle program, Paul Hill offers a view from the inside track to both laymen and space professionals. From there, he takes you to the business world outside of NASA, and shows how the principles and values of the Mission Operations Directorate apply in a far larger arena. No leader or manager can fail to benefit from the lessons captured here. — MICHAEL D. GRIFFIN, NASA ADMINISTRATOR, 2005-09 AND SCHAFFER CORPORATION CEO Paul Hill has written a stunning 'instructional manual' for business executives and leaders who want to learn from the best team on the planet: The men and women of NASA's Mission Control. For the first time, a leader of the Mission Operations Directorate of NASA shares the hard-won lessons of this world-famous organization and translates them into key principles and examples designed to hone a superior leadership team grounded in integrity and bedrock organizational values. Steeped in the lessons of history, rich with achievement and heart-rending loss, laser-focused on application and results, and above all a great narrative, this book, like its author, is one-of-a kind. — MARY LYNNE DITTMAR, EXECUTIVE DIRECTOR OF THE COALITION FOR DEEP SPACE EXPLORATION AND FORMER MEMBER, HUMAN SPACEFLIGHT COMMITTEE, NATIONAL ACADEMIES OF SCIENCES, ENGINEERING AND MEDICINE This engaging book tells the story of how NASA's renowned Mission Control evolved into an extraordinary team that directed many of the world's greatest technical triumphs. Equally important is Paul Hill's cautionary tale that sustaining excellence may be more difficult than attaining it. He shares how Mission Control learned the importance of articulating, modeling and nurturing its core values of technical truth, integrity and courage to maintain exceptional performance under adverse circumstances. Leaders from every organization will benefit from these vital lessons. — WALTER E. NATEMEYER, CHAIRMAN AND CEO, NORTH AMERICAN TRAINING AND DEVELOPMENT

CALL Theory Applications for Online TESOL Education Kelch, Kenneth B.,Byun, Peter,Safavi, Setareh,Cervantes, Seth,2021-02-19 With the increased necessity of using online teaching to ensure students continue to learn, it is imperative that language teachers implement computer-assisted language learning (CALL) techniques into their teaching strategies. TESOL teachers especially must continue to remain up to date on the latest research outlining best practices for the online teaching of English language learners. CALL Theory Applications for Online TESOL Education is a crucial reference work that focuses on online education and CALL in the context of teaching English to speakers of other languages. The book presents research that illustrates the current best practices in online CALL applications in TESOL including works on emerging applications such as mobile language learning, games, and service-learning. It includes chapters that focus on technology-enhanced learning in a variety of configurations, from fully online contexts to face-to-face blended learning contexts that

have some degree of a virtual component. While highlighting topics that include e-learning, second language acquisition, and virtual learning environments, this book is ideal for TESOL educators and CALL practitioners who are interested in the ways in which language and culture are impacted by online education. Moreover, K-12 teachers and teacher educators working with linguistically and culturally diverse learners in their classes and communities, as well as administrators, academicians, researchers, and students will benefit from the research contained in this book.

Global Trends 2040 National Intelligence Council, 2021-03 The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come. -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.
