Dilla Time Dan Charnas, 2022-02-01 WINNER OF THE PEN/JACQUELINE BOGRAD WELD AWARD FOR BIOGRAPHY A NEW YORK TIMES BEST SELLER This book is a must for everyone interested in illuminating the idea of unexplainable genius." —QUESTLOVE Equal parts biography, musicology, and cultural history, *Dilla Time* chronicles the life and legacy of J Dilla, a musical genius who transformed the sound of popular music for the twenty-first century. He wasn't known to mainstream audiences, even though he worked with renowned acts like D'Angelo and Erykah Badu and influenced the music of superstars like Michael Jackson and Janet Jackson. He died at the age of thirty-two, and in his lifetime he never had a pop hit. Yet since his death, J Dilla has become a demigod: revered by jazz musicians and rap icons from Robert Glasper to Kendrick Lamar; memorialized in symphonies and taught at universities. And at the core of this adulation is innovation: a new kind of musical time-feel that he created on a drum machine, but one that changed the way "traditional" musicians play. In *Dilla Time*, Dan Charnas chronicles the life of James DeWitt Yancey, from his gifted childhood in Detroit, to his rise as a Grammy-nominated hip-hop producer, to the rare blood disease that caused his premature death; and follows the people who kept him and his ideas alive. He also rewinds the histories of American rhythms: from the birth of soul in Dilla's own "Motown," to funk, techno, and disco. Here, music is a story of Black culture in America and of what happens when human and machine times are synthesized into something new. *Dilla Time* is a different kind of book about music, a visual experience with graphics that build those concepts step by step for fans and novices alike, teaching us to "see" and feel rhythm in a unique and enjoyable way. Dilla's beats, startling some people with their seeming "sloppiness," were actually the work of a perfectionist almost spiritually devoted to his music. This is the story of the man and his machines, his family, friends, partners, and

celebrity collaborators. Culled from more than 150 interviews about one of the most important and influential musical figures of the past hundred years, Dilla Time is a book as delightfully detail-oriented and unique as J Dilla's music itself.

Think Again Adam Grant, 2023-12-26 #1 New York Times Bestseller “THIS. This is the right book for right now. Yes, learning requires focus. But, unlearning and relearning requires much more—it requires choosing courage over comfort. In Think Again, Adam Grant weaves together research and storytelling to help us build the intellectual and emotional muscle we need to stay curious enough about the world to actually change it. I’ve never felt so hopeful about what I don’t know.” —Brené Brown, Ph.D., #1 New York Times bestselling author of Dare to Lead The #1 New York Times bestselling author of Hidden Potential, Originals, and Give and Take examines the critical art of rethinking: learning to question your opinions and open other people's minds, which can position you for excellence at work and wisdom in life Intelligence is usually seen as the ability to think and learn, but in a rapidly changing world, there's another set of cognitive skills that might matter more: the ability to rethink and unlearn. In our daily lives, too many of us favor the comfort of conviction over

the discomfort of doubt. We listen to opinions that make us feel good, instead of ideas that make us think hard. We see disagreement as a threat to our egos, rather than an opportunity to learn. We surround ourselves with people who agree with our conclusions, when we should be gravitating toward those who challenge our thought process. The result is that our beliefs get brittle long before our bones. We think too much like preachers defending our sacred beliefs, prosecutors proving the other side wrong, and politicians campaigning for approval--and too little like scientists searching for truth. Intelligence is no cure, and it can even be a curse: being good at thinking can make us worse at rethinking. The brighter we are, the blinder to our own limitations we can become. Organizational psychologist Adam Grant is an expert on opening other people's minds--and our own. As Wharton's top-rated professor and the bestselling author of *Originals* and *Give and Take*, he makes it one of his guiding principles to argue like he's right but listen like he's wrong. With bold ideas and rigorous evidence, he investigates how we can embrace the joy of being wrong, bring nuance to charged conversations, and build schools, workplaces, and communities of lifelong learners. You'll learn how an international debate champion wins arguments, a Black musician persuades white supremacists to abandon hate, a vaccine whisperer convinces concerned parents to immunize their children, and Adam has coaxed Yankees fans to root for the Red Sox. *Think Again* reveals that we don't have to believe everything we think or internalize everything we feel. It's an invitation to let go of views that are no longer serving us well and prize mental flexibility over foolish consistency. If knowledge is power, knowing what we don't know is wisdom.

#tweetsmart J. S. McDougall, 2012-02-14 OK. I've got my Twitter account...now what can I do with it? Sound familiar? #tweetsmart provides the answer with 25 creative projects to help your business, cause, or organization grow. But this isn't just another social media marketing book—it's the

anti-marketing how-to community-engagement book. Twitter is not a marketing channel (and should never be used as such) but it is a community of interested, engaged, and influential people. Meeting and getting to know these people can help you build your own community. In this useful guide, you'll find projects to help you approach your Twitter audience in ways that are strategic, measurable, and fun. The Photo Ark Joel Sartore, 2017 This book of photography represents National Geographic's Photo

Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals -- especially those that are endangered. His message: to know these animals is to save them. Sartore intends to photograph every animal in captivity in the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits: from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the prose of veteran wildlife writer Douglas Chadwick, this book presents an argument for saving all the species of our planet.

Twitter Guide: For Seniors Jacob Gleam, 2015-05-21 Twitter is one of the many social media platforms that people use to communicate ideas, jokes and other types of information. The information is displayed in what are known as tweets which usually allow the twitter users a 140 character limit to share anything. Twitter is used globally and can be used for business, personal use and for group communications. The site is a fun way to interact with others and it differs from other platforms in that the user gets to read the content in a short period and decide whether he or she would like to open any links found on the tweet to read it further.

Unseen Dana Canedy, Darcy Eveleigh, Damien Cave, Rachel L. Swarns, 2017-10-17 Hundreds of stunning images from black history have long been buried in The New York Times archives. None of them were published by The Times--until now. UNSEEN uncovers these never-before published photographs and tells the stories behind them. It all started with Times photo editor Darcy Eveleigh discovering dozens of these photographs. She and three colleagues, Dana Canedy, Damien Cave and Rachel L. Swarns, began exploring the history behind them, and subsequently chronicling them in a series entitled Unpublished Black History, that ran in print and online editions of The Times in February 2016. It garnered 1.7 million views on The Times website and thousands of comments from readers. This book includes those photographs and many more, among them: a 27-year-old Jesse Jackson leading an anti-discrimination rally of in Chicago, Rosa Parks arriving at a Montgomery Courthouse in Alabama a candid behind-the-scenes shot of Aretha Franklin backstage at the Apollo Theater, Ralph Ellison on the streets of his Manhattan neighborhood, the firebombed home of Malcolm X, Myrlie Evans and her children at the funeral of her slain husband , Medgar, a wheelchair-bound Roy Campanella at the razing of Ebbets Field. Were the photos--or the people in them--not deemed newsworthy enough? Did the images not arrive in time for publication? Were they pushed aside by words at an institution long known as the Gray Lady? Eveleigh, Canedy, Cave, and Swarns explore all

these questions and more in this one-of-a-kind book. UNSEEN dives deep into The Times photo archives--known as the Morgue--to showcase this extraordinary collection of photographs and the stories behind them.

A New Day Brad Meltzer, 2021-03-02 This big-hearted story of kindness—reminiscent of *The Day the Crayons Quit*—is written by the bestselling author of *Ordinary People Change the World* and illustrated by the Caldecott Medal-winning creator of *Beekle*. Sunday quit, just like that. She said she was tired of being a day. And so the other days of the week had no choice but to advertise: WANTED: A NEW DAY. Must be relaxing, tranquil, and replenishing. Serious inquires only. Soon lots of hopefuls arrived with their suggestions, such as Funday, Bunday, Acrobaturday, SuperheroDay, and even MonstersWhoResembleJellyfishDay! Things quickly got out of hand . . . until one more candidate showed up: a little girl with a thank-you gift for Sunday. The girl suggested simply a nice day--a day to be kind. And her gratitude made a calendar's worth of difference to Sunday, who decided she didn't need to quit after all. When we appreciate each other a little bit more, all the days of the week can be brand-new days where everything is possible.
