Photography and Korea Jeehey Kim, 2023-06-12 The first history of Korean photography in English. *Photography and Korea* is the first history of Korean photography for a Western readership. Beginning in the late nineteenth century, when Korean travelers brought photographic technology home from China, *Photography and Korea* presents multiple visions of the country, Korean diasporas, important Korean artists, and local photographers. The book also addresses studio and institutional practices during the Japanese colonial period, how photography connects with Korean political and cultural history, and the divergence of practices after the division of Korea. Featuring numerous striking images, this book is essential reading for all interested in the history of Korean photography.

My Photography, My Voice Hong-Hee Kim, 2008 *My Photography, My Voice* is poignant, insightful, and at times brazenly stark. Unlike other photography guidebooks or photo journals, this book imparts the author's unique wisdom on photographing the world by asking the 'right' questions while learning and respecting the medium as much as the subject.

Atta Kim Atta Kim, Christopher Phillips, International Center of Photography, 2006 This publication surveys the remarkable photographic work of the Korean artist Atta Kim. Notable for their cinematic scale, dramatic composition, and meticulous technical quality, his photographs count among the most high-impact works to be found anywhere. But their visual seductiveness is ultimately a kind of lure, which the artist employs to draw viewers into unfamiliar realms of speculative thought. The present book provides a comprehensive overview of Atta Kim's photographs since the mid-1980s, with special emphasis on his current ON-AIR Project. In the ON-AIR photographs, the artist employs extremely long exposures, sometimes lasting as long as twenty-four hours, to create works that explore fundamental questions of time and perception. Through highly unconventional images of such varied subjects as erotic coupling, the militarized landscape along the Korean DMZ, and the seemingly deserted midday precincts of Times Square, he suggests that it is possible for us to imagine duration in ways that are radically different from our everyday experience. In a wide-ranging interview that appears in this volume, Atta Kim explains how such photographic works have arisen from

his long-term engagement with philosophical, spiritual, and technological questions.--BOOK JACKET.

Kim Kim Harlow,Bettina Rheims,1994 Harlow was unable to finish her story. Her last lines are about a friend of hers who fell to AIDS. And it was that illness which cut short this work, her work. She entrusted those close to her to finish, fully aware that her days were numbered. We put together her notes, tape-recorded and written down. Not a word was crossed out in her chapters, written in a single, incisive outpouring.

The Art of Kim Anderson Kim Anderson,1998-12-12 A first kiss. A first rose. Puppy love and Let's pretend. Innocence, fantasy, mischief, and the pleasures of the imagination. These are the quintessential themes of childhood and the stuff of Kim Anderson's universally loved, universally moving photographs. Original essays by Susan Cheerer, Francine Prose, Perri Klass and other writers set the tone for each chapter. A cherished addition to any library.

Germaine Krull Kim Sichel,1999 An in depth look at a master of twentieth-century photography.

Photography in Clinical Medicine Paola Pasquali,2020-12-09 This book explains how medical photography is part of the workflow in many specialties: it is needed for registries, to preserve

information, for follow up, second opinion and teaching, among others. The book gathers information on this field, providing valuable practical tips for those that have never used photography for medical uses as well as those who use it regularly. Covering specialities ranging from dermatology, plastic surgery, dentistry, ophthalmology and endoscopy to forensic medicine, specimen photography and veterinary medicine, it highlights standardization for each procedure and relevance to ethical, patients' perception of medical photography, cybersecurity and legal aspects. The book also presents practical sections explaining how to organize a photographic file, coding, reimbursement, compliance, use of social media and preservation as well as in depth concepts on sharp focus on blurred vision. This volume will appeal to all clinicians and practitioners interested in acquiring a high level of technical skill in medical photography.

Water Does Not Soak in Rain Atta Kim, 2009 Text by Iris Inhee Moon, Atta Kim, Jonathan Mill, Richard Vine.

EXISTING IN COSTUME Chan-Hyo Bae, Kim Hong-hee, Bill Kounwenhoven, 2018-11-15 The book covers five photography series which Chan-Hyo Bae has worked on so far, Self-Portrait, Fairy Tales, Punishment, Witch Hunting and the new series

Jumping into the Oil Paintings. Each series have been divided into individual categories but the book's editing shows that all series are above the same photographic context. As the artist had been fiercely living as a stranger in the U.K. but was unable to be absorbed and experience alienation and anger as an Asian living in Western culture, his artistic challenge to the meta discourse of Western culture became the key word of this series of work. Meanwhile, Jumping into the Oil Paintings is an extension of Existing in Costume but also a very different attempt. In terms of the formality of the work, Existing in Costume is a process that visualizes the artist's feelings of prejudice and alienation through elaborating exquisite plan and production, while Jumping into the Oil Paintings do not simply damage but deconstruct the subject's essence by gilding on the printed photography or by copying the paintings images and transfer it to animal skins. His new series could be seen as a way more aggressive challenge to the system of Western thought and through this, we might carefully gauged the direction of his future works. This photography book which contains 52 works from five series include articles of Kim Hong-hee, the art critic and the previous director of Seoul Museum of Art and also Bill Kuenhoven's article, who has executive capacity in international

photography scene since he had been worked as an editor of several major photography magazines for the past 20 years including Hotshoe International. Thus, those articles will support an in-depth understanding of the artist's works, has a meaning as a publication aiming at overseas photography experts and readers.
