*Photographic Paper* ,1929

**Expired Paper** ,2017 Divided into sections that represent the breadth of Alison Rossiter's (born 1953) process and vision, 'Expired Paper' offers a comprehensive look at the artist's body of cameraless photo-art?Latent, Landscapes, Pools, Pours, Dips, Blurs, Fours and Collages. Art critic Leah Ollman has been contemplating Rossiter's work for years, and her accompanying text serves as an ideal complement to the images: 'All of the works pay homage to the rich idiosyncrasies of photographic papers across history, and restore a sanctity to the photograph as object. Made without cameras, lenses or film, the works are nothing but process and materiality.' The book also includes a selection of early 20th-century photographic paper packages (which the artist has collected for over 10 years) in a separate booklet.

**Photography with Tilt and Shift Lenses** Keith Cooper,2020-11-23 Tilt and shift lenses offer tremendous creative possibilities for users of digital SLR and mirrorless cameras. This practical book explains the techniques that will help you take better photos - photos that don't distort or lose focus. Assessing the benefits and pitfalls of a range of lenses, adapters, software and editing techniques, it guides you through the practicalities of working with these lenses and gives you the skills to use them to best effect. With stunning examples throughout, this book gives an overview of the different lenses available, and tips on how adapters can give tilt/shift options when using old medium-format lenses. It gives advice on how simple lens shift can change the entire look of your photos, and techniques for using lens tilt for focus control and close-up working. Stunning examples show the use of tilt and shift lenses across a range of available focal lengths, both tripod-mounted and handheld.
