My First Piano Adventure: Lesson Book A with CD ,2007-01-01 (Faber Piano Adventures). Written for ages 5 and 6, My First Piano Adventure captures the child's playful spirit. Fun-filled songs, rhythm games and technique activities develop beginning keyboard skills. Three distinguishing features of the Lesson Book A make it unique and effective for the young 5-6 year old beginner. 1. A strong focus on technique embedded in the book through playful technique games, chants, and carefully-composed pieces that gently lead the child into pianistic motions. 2. An outstanding CD for the young student to listen, sing, tap, and play along with at the piano. The orchestrated songs on the CD feature children singing the lyrics, which has great appeal to the 5-6 year old beginner. The CD becomes a ready-made practice partner that guides the student and parent for all the pieces and activities in the books. 3. The fanciful art features five multi-cultural children who are also learning to play. These friends at the piano introduce basic rhythms, white key names, and a variety of white and black-key songs that span classical, folk, and blues. Young students will listen, sing, create, and play more musically with Nancy and Randall Faber's My First Piano Adventure, Lesson Book A. The Lesson Book introduces directional pre-reading, elementary music theory and technique with engaging songs, games, and creative discovery at the keyboard. Young students will enjoy the multi-cultural friends at the piano who introduce white-key names, basic rhythms, and a variety of songs which span classical, folk, and blues. Ear-training and eye-training are also part of the curriculum. The Fabers' instructional theory ACE - Analysis, Creativity, and Expression, guides the pedagogy of My First Piano Adventure. Analysis leads to understanding, creativity leads to self-discovery, and expression develops personal artistry. The CD for this book offers a unique listening experience with outstanding orchestrations and vocals. The recordings demonstrate a key principle of the course: when children listen, sing, tap, and move to their piano music, they play more musically. [View Helpful Introductory Videos Here](#)

Play It Again Alan Rusbridger, 2013-09-17 As editor of the Guardian, one of the world's foremost newspapers, Alan Rusbridger abides by the relentless twenty-four-hour news cycle. But increasingly in midlife, he feels the gravitational pull of music—especially the piano. He sets himself a formidable challenge: to fluently learn Chopin's magnificent Ballade No. 1 in G minor, arguably one of the most difficult Romantic compositions in the repertory. With pyrotechnic passages that require feats of memory, dexterity, and power, the piece is one that causes alarm even in battle-hardened concert pianists. He gives himself a year. Under ideal circumstances, this would have been a daunting task. But the particular year Rusbridger chooses turns out to be one of frenetic intensity. As he writes in his introduction, Perhaps if I'd known then what else would soon be happening in my day job, I might have had second thoughts. For it would transpire that, at the same time, I would be steering the Guardian through one of the most dramatic years in its history. It was a year that began with WikiLeaks' massive dump of state secrets and ended with the Guardian's revelations about widespread phone hacking at News of the World. In between, there were the Japanese tsunami, the Arab Spring, the English riots . . . and the death of Osama Bin Laden, writes Rusbridger. The test would be to nibble out twenty minutes per day to do something totally unrelated to the above. Rusbridger's description of mastering the Ballade is hugely engaging, yet his subject is clearly larger than any one piece of classical music. *Play It Again* deals with focus, discipline, and desire but is, above all, about the sanctity of one's inner life in a world dominated by deadlines and distractions. What will you do with your twenty minutes?
