[International Political Risk Management](#) Theodore H. Moran,Gerald T. West,World Bank,2005 Contributors to this volume consider the state of the political risk insurance industry in the wake of September 11, 2001, the Argentine economic crisis, and other upheavals. The book begins with the supply-side perspective of insurers and then turns to the concerns of investors and lenders, in particular those involved in large infrastructure projects in emerging markets. It concludes with in-depth assessments of new challenges to definitions and coverage of currency transfer, expropriation, breach of contract, and political force majeure. The diverse and detailed arguments collected here come to a consensus: recent changes, contractions, and even losses are fueling the search for creative solutions and will ultimately prove beneficial for participants in the industry.
