Analyzing Horizontal Distances Between WSR-88D Thunderstorm Centroids and Cloud-to-Ground Lightning Strikes Steve L. Renner, Air Force Institute of Technology (U.S.), 1998-03-01 On April 29, 1996, lightning struck the airfield at Hurlburt Field, FL, killing one Airmen and injuring ten others. This cloud to ground lightning strike hit eight minutes after a lightning advisory was canceled. At the time of the strike, thunderstorms were observed 7 to 10 miles north and south of the airfield. The incident raised questions about Air Force Weather Agency's lightning criteria. Soon after the incident, a Lightning Safety Review Panel was assembled to determine the adequacy of lightning advisories. One of the questions posed to the panel was could an incident like Hurlburt happen again? The review panel could not answer that question due to the lack of documented research on how far lightning can travel horizontally before striking the ground. This thesis used the WSR-88D Algorithm Testing and Display System (WATADS) and the default parameters of the WATADS's Storm Cell Identification and Tracking (SCIT) Algorithm to identify thunderstorm centroids. Lightning strike data containing nearly 50,000 cloud to ground strikes was obtained through the National Climatic Data Center (NCDC). Horizontal distances were then computed between these storm centroids and cloud to ground lightning strikes. This research discovered that average distances between thunderstorm centroids and lightning strikes vary with season and location. In addition, nearly 75% of all lightning strikes occurred within 10 nautical miles of thunderstorm centroids.

Pacific Destiny and Bear Flag Rising Dale L. Walker, 2017-10-31 Historian Dale L. Walker chronicles the early days of the American Pacific Northwest in two engrossing accounts, now available in one volume: *Pacific Destiny and Bear Flag Rising*. *Pacific Destiny: The Three-Century Journey to the Oregon Country* *Pacific Destiny* chronicles the discovery, exploration, and settlement of America's Pacific Northwest. It is a story of cut-throat competition for control in an expanding America, first between Spain and England, then England and the United States. A story of explorers and tycoons, most notably John Jacob Astor, whose effort to establish a fur trading empire on the Columbia River ended with the massacre of his crew by the Vancouver Island Native Americans. *Bear Flag Rising: The Conquest of California, 1846* *Bear Flag Rising* traces the history of California from the Native Americans who first inhabited the land

through the warfare that would finally leave the province in the hands of European settlers. The lives of the Californians in tranquil days before the advent of American trappers and the steady decline of the province under Mexico's neglectful rule are brought to life in this epic chronicle. Battles and skirmishes, such as the bitter fight at San Pascual are meticulously recreated in all their vicious glory. Through exacting research and masterful prose, *Bear Flag Rising* reveals the full story of how Mexico lost California and how this Pacific paradise went on to become the greatest jewel in the crown of the American Empire. This edition of the book is the deluxe, tall rack mass market paperback. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Pyrenees Kev Reynolds, 2010-09-09 A resource book covering the finest walks, treks and climbs in the High Pyrenees for 400km between France and Spain, from the Cirque de Lescun, on the edge of the Basque country in the west, to the Carlit massif and the Cerdagne to the east of Andorra. The book is divided into five regional chapters: the Western Valleys; Cirques and Canyons; the Central Pyrenees; Enchanted Mountains; and Andorra and the Eastern High Pyrenees. Intended as a resource book for those planning a range of mountain activities in the Pyrenees, the guide describes each area valley by valley,

and provides information on access and accommodation, as well as recommended maps and guidebooks. Unlike a conventional walking book, detailed route descriptions are not included; the guide does, however, direct the reader to the finest walks, treks and climbs in the area and provide an outline of specially selected routes. An extensive introduction gives all the practical advice and information needed for planning a trip. It offers a background to the mountains and their exploration, and provides a snapshot of the range with sections that help the reader focus on specific areas of activity, and suggests where best to exercise that activity.

Bear Flag Rising Dale L. Walker,2000-05-01 Dale L. Walker, historian and author of *Legends and Lies: Great Mysteries of the American West*, takes on the conquest of California in this vivid portrait of America's manifest destiny. *Bear Flag Rising* traces the history of California from the Indians who inhabited the land before the first Europeans saw it through the warfare that would finally leave the province in American hands. The lives of the Californios in tranquil days before the advent of American trappers and the steady decline of the province under Mexico's neglectful rule are brought to life in this epic chronicle. Battles and skirmishes, such as the bitter fight on the San Gabriel River during the march to recapture Los Angeles, are meticulously re-created in all their vicious glory. Above all, *Bear Flag Rising* is rich with the personalities of the conquest--from John Charles Fremont, the ambitious, enigmatic explorer,

to Commodore Robert Field Stockton, a wealthy, imperious, and ruthless naval officer, and Stephen Watts Kearny, who made a 2,000-mile overland march from Fort Leavenworth, Kansas, annexing New Mexico on the way, and arrived in California to face Mexican lancers in battle. *Bear Flag Rising* reveals, through exacting research and masterful prose, the full story of how Mexico lost California and how this Pacific paradise went on to become the greatest jewel in the crown of the American Empire. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Golden Age of the Great Passenger Airships Harold Dick, Douglas Robinson, 1992-12-17 Drawing on the extensive photographs, notes, diaries, reports, recorded data, and manuals he collected during his five years at the Zeppelin Company in Germany, from 1934 through 1938, Harold G. Dick tells the story of the two great passenger Zeppelins. Against the background of German secretiveness, especially during the Nazi period, Dick's accumulation of material and pictures is extraordinary. His original photographs and detailed observations on the handling and flying of the two big rigids constitute the essential data on this phase of aviation history.
