A War of Colors Nadine A. Sinno,2024-04-02 Demonstrates the role of Beirut's postwar graffiti and street art in transforming the cityscape and animating resistance. Over the last two decades in

Beirut, graffiti makers have engaged in a fierce “war of colors,” seeking to disrupt and transform the city’s physical and social spaces. In *A War of Colors*, Nadine Sinno examines how graffiti and street art have been used in postwar Beirut to comment on the rapidly changing social dynamics of the country and region. Analyzing how graffiti makers can reclaim and transform cityscapes that were damaged or monopolized by militias during the war, Sinno explores graffiti’s other roles, including forging civic engagement, commemorating cultural icons, protesting political corruption and environmental violence, and animating resistance. In addition, she argues that graffiti making can offer voices to those who are often marginalized, especially women and LGBTQ people. Copiously illustrated with images of graffiti and street art, *A War of Colors* is a visually captivating and thought-provoking journey through Beirut, where local and global discourses intersect on both scarred and polished walls in the city.

Pimp My Rice Nisha Katona, 2016-10-11 The chef behind the popular *Mowgli Street Food* cookbook shares over 100 global rice recipes to spice up your kitchen Across continents, rice is the dramatic centerpiece of the table and at the heart of life. In *Pimp My Rice*, food writer and chef Nisha Katona shares recipes from

her home kitchen and around the globe, from Pimped Rice Piri Piri to Beefed-Up Bibimbap and even Black Rice & Coconut Sorbet. Showcasing a rainbow of types and explaining how to cook them perfectly every time, Nisha takes the fear out of the world's greatest cereal killer. Nisha Katona is a rice evangelist. Why? It does not need peeling, it does not need soaking, it likes to be left to cook without a watchful gaze. It has an eternally long life, waiting long in dark cupboards, bidden to warm musky life when fridges are empty and potatoes are sullenly sprouting. Far from being an understudy, rice is the most virile, muscular weapons of mass construction in the busy working kitchen. Nisha, who runs a fantastically popular Curry Clinic on Twitter, is on a mission to demystify rice and to show the enormous breadth of rice recipes that can be created simply and quickly. As a second generation Indian, she shows how to marry different cuisines together, to create vibrant, exciting dishes. In other words, this is a book of pimped-up rice recipes.

I Believed Michael Jackson in Adrian the Thief of Hearts

Waalee Fajri, 2013-08-22 Thief is recently released from federal prison, after the decision of a long-awaited appeal of bank robbery charges. He stumbles upon a DVD of the media-criminal mafia

planning to have the superstar falsely indicted on child molestation charges to benefit their declining investment in the magazine, television, and newspaper industry or arrange his death. FBI Agent Spoon wants him imprisoned forever, having investigated and arrested him on numerous acts of mayhem, including robbery, jewelry heists, murder-for-hire plots, and other commissions of crime. The Mob wants him dead or a one million dollar offer to return the tape. Michael Jackson, with the assistance of The Nation of Islam's Minister, wants the tape to exonerate the superstar. But all Adrian ever wanted was fame and fortune and to return home to resume a failed relationship with Reagan and her son Ke\$in, and to live happily ever after. With the help of his Memphis friend (Pimp) and his illustrious call girl, will he dodge death, prison, or accept the money and sacrifice the world's most worshipped idol, Michael Jackson? About the Author Waalee D. Fajri is a native of Kansas City, Missouri, and changed his name from Adrian Williams, having declared his faith to Islam. He has survived troubling times, both domestic and social, ending in prison several times. This book was written in 2005, months before Michael Jackson's trial of the child molestation allegations. The author hopes to assist all men on the complicated journey of finding peace

and closure to the world prohibiting us from success.

The Color Black Beeta Baghoolizadeh, 2024-02-23 In *The Color Black*, Beeta Baghoolizadeh traces the twin processes of enslavement and erasure of Black people in Iran during the nineteenth and twentieth centuries. She illustrates how geopolitical changes and technological advancements in the nineteenth century made enslaved East Africans uniquely visible in their servitude in wealthy and elite Iranian households. During this time, Blackness, Africanness, and enslavement became intertwined—and interchangeable—in Iranian imaginations. After the end of slavery in 1929, the implementation of abolition involved an active process of erasure on a national scale, such that a collective amnesia regarding slavery and racism persists today. The erasure of enslavement resulted in the erasure of Black Iranians as well. Baghoolizadeh draws on photographs, architecture, theater, circus acts, newspapers, films, and more to document how the politics of visibility framed discussions around enslavement and abolition during the nineteenth and twentieth centuries. In this way, Baghoolizadeh makes visible the people and histories that were erased from Iran and its diaspora.

Unapologetically Outspoken Solomon W.F. Comissiong, 2017-04-21 Unapologetically Outspoken: Hip Hop, Social Justice and Liberation confronts social issues that are often ignored by the US corporate media, US educational institutions, as well as by the US government itself. This book is a collection of essays that challenge mainstream perspectives on everything, from institutional racism to imperialism to the vastly flawed United States electoral system. This book provides perspectives omitted by

virtually every mainstream corporate media outlet throughout the USA. If the US corporate media system were balanced or democratic, it would provide the vast array of progressive and radical perspectives that readers will find within Unapologetically Outspoken: Hip Hop, Social Justice and Liberation.

Men in Color Josep M. Armengol,2011-01-18 Comprising seven different chapters, the collection Men in Color attempts to analyze, and revisit, the representation of ethnic masculinities, both white and non-white, in and through contemporary U.S. literature and cinema. If most of the existing studies on masculinity and race have centered on one specific model of racialized masculinities, Men in Color attempts to provide an introductory perspective on different racialized masculinities simultaneously, including African American, Asian American, Chicano, Arab American, and also white masculinity, which is analyzed as another ethnic and gendered construct, rather than as a paradigm of normalcy and “universality.” By exploring several ethnic masculinities in relation to each other, the present volume aims to highlight both the differences and the similarities between different patterns of masculinity, showing how, even as gender is inflected by race,

certain aspects or features of masculinity remain unchanged across the ethnic board. Ultimately, the volume as a whole illustrates both the changing nature of masculinities as well as the recurrence of certain stereotypes, such as the hypersexualization and/or the feminization of ethnic males, which recur in and across several ethnicities. The constant tension and intersection between gender and race is the subject of this book, which hopes to contribute some notes and reflections on ethnic masculinities to the much more complex and larger discussion about gender and racial identities in our increasingly multicultural and globalized 21st-century world.

African American Culture Omari L. Dyson, Judson L. Jeffries

Ph.D.,Kevin L. Brooks,2020-07-23 Covering everything from sports to art, religion, music, and entrepreneurship, this book documents the vast array of African American cultural expressions and discusses their impact on the culture of the United States.

According to the latest census data, less than 13 percent of the U.S. population identifies as African American; African Americans are still very much a minority group. Yet African American cultural expression and strong influences from African American culture are common across mainstream American culture—in music, the arts, and entertainment; in education and religion; in sports; and in politics and business. *African American Culture: An Encyclopedia of People, Traditions, and Customs* covers virtually every aspect of African American cultural expression, addressing subject matter that ranges from how African culture was preserved during slavery hundreds of years ago to the richness and complexity of African American culture in the post-Obama era. The most comprehensive reference work on African American culture to date, the multivolume set covers such topics as black contributions to literature and the arts, music and entertainment, religion, and professional sports. It also provides coverage of less-commonly addressed subjects, such as African American fashion practices

and beauty culture, the development of jazz music across different eras, and African American business.

Pimp Iceberg Slim, 2011-05-10 “[In Pimp], Iceberg Slim breaks down some of the coldest, capitalist concepts I’ve ever heard in my life.” —Dave Chappelle, from his Netflix special *The Bird*

Revelation Pimp sent shockwaves throughout the literary world when it published in 1969. Iceberg Slim’s autobiographical novel offered readers a never-before-seen account of the sex trade, and an unforgettable look at the mores of Chicago’s street life during the 1940s, 50s, and 60s. In the preface, Slim says it best, “In this book, I will take you, the reader, with me into the secret inner world of the pimp.” An immersive experience unlike anything before it, *Pimp* would go on to sell millions of copies, with translations throughout the world. And it would have a profound impact upon generations of writers, entertainers, and filmmakers, making it the classic hustler’s tale that never seems to go out of style.
