Twelve Years a Slave Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Nice Is Just a Place in France Betches,2013-03-12 LOOK, MAYBE YOU'RE A NICE GIRL, but we're guessing you're more like us or you probably wouldn't have picked up this book. Not that we have a problem with girls who are nice people. But being nice is just not the way to get what you want. And this book is about getting what you want. Not in like a finding happiness, giving back to the world, being grateful for what you have sort of way. But in a ruling your world, being the most desired, powerful badass in the room way, so you can come out on top of any situation: guys, career, friends, enemies, whatever. How does a betch make that happen? Here are some highlights: DON'T BE EASY. DON'T BE POOR. DON'T BE UGLY. We didn't come up with these life lessons. We're just the ones who wrote it all down. This is not self-help. Self-help is for fat people and divorcées. This is how to deal with your problems when you have no problems. You're welcome.

Red Hot Lies Christopher C. Horner,2008-11-11 Liars--Al Gore, the United Nations, the New York Times. The global warming lobby, relentless in its push for bigger government, more spending, and more regulation, will use any means necessary to scare you out of your wits--as well as your tax dollars and your liberties--with threats of rising oceans, deadly droughts, and unspeakable future consequences of climate change. In pursuing their anti-energy, anti-capitalist, and pro-government agenda, the global warming alarmists--and unscrupulous scientists who see this scare as their gravy train to federal grants and foundation money--resort to dirty tricks, smear campaigns, and outright lies, abandoning scientific standards, journalistic integrity, and the old-fashioned notions of free speech and open debate. In Red Hot Lies, bestselling author Christopher Horner--himself the target of Greenpeace dirty tricks and alarmist smears--exposes the dark underbelly of the environmental movement. Power-hungry politicians blacklist scientists who reject global warming alarmism. U.S. senators threaten companies that fund climate change dissenters. Mainstream media outlets openly reject the notion of balance. The occasional unguarded scientist candidly admits the need to twist the facts to paint an uglier picture in order to keep the faucet of government money flowing. In the name of saving the planet, anything goes. But why the nasty tactics? Why the cover ups, lies, and intimidation? Because Al Gore and his ilk want to use big government at the local, state, federal, and global level to run your life, and they can brook no opposition. But the actual facts, as Red Hot Lies makes clear, aren't nearly as scary as their fiction.

Sentipensante (sensing/thinking) Pedagogy Laura I. Rendón,2014 * An inspirational and holistic approach to teaching by a renowned Latina scholar * Defines seven steps to unlocking the potential of teachers and their students * Deeply informed by the author's educational journey as a minority woman from a background of rural poverty Laura Rend n is a scholar of national stature, known for her research on students of color and first-generation college students, and on the factors that promote and impede student success. The motivation for the quest that Laura Rend n shares in this book was the realization that she, along with many educators, had lost sight of the deeper, relationship-centered essence of education, and lost touch with the fine balance between educating for academics and educating for life. Her purpose is to reconnect readers with the original impulse that led them to become educators; and to help them rediscover, with her, their passion for teaching and learning in the service of others and for the well being of our society. She offers a transformative vision of education that emphasizes the harmonic, complementary relationship between the sentir of intuition and the inner life and the pensar of intellectualism and the pursuit of scholarship; between teaching and learning; formal knowledge and wisdom; and between Western and non-Western ways of knowing. In the process she develops a pedagogy that encompasses wholeness, multiculturalism, and contemplative practice, that helps students transcend limiting views about themselves; fosters high expectations, and helps students to become social change agents. She invites the reader to share her journey in developing sentipensante pedagogy, and to challenge seven entrenched agreements about education that act against wholeness and the appreciation of truth in all forms. She offers examples of her own teaching and of the classroom practices of faculty she encountered along the way; as well as guidance on the challenges, rewards and responsibilities that anyone embarking on creating a new vision of teaching and learning should attend to. Though based on the author's life work in higher education, her insights and approach apply equally to all teaching and learning contexts.

So when her stepcousins Eleanor and Eddy tell her that she can't fly, Georgie doesn't get discouraged -- she just tries harder She feels a peculiar lightness when she leaps from the top of the staircase, and is even more certain of her seemingly impossible ability when she jumps from the porch and soars to the rooftop before landing safely on the ground. Festival Cultures Maria Nita, Jeremy H. Kidwell, 2021-11-30 This book brings together interdisciplinary research from the fields of Anthropology, Sociology, Archaeology, Art, History and Religious Studies, showing the necessity of a transdisciplinary and diachronic approach to examine the last half-century of modern arts and performance festivals. The volume focuses on new theoretical and methodological approaches for the examination of festivals and festival cultures, both the Burning Man festival in Nevada's Black Rock Desert and burner culture in Europe. The editors argue that festival cultures are becoming values-inflected global forms of travel, dwelling, festivity, communication, and social organisation that are transforming contemporary cultures and have significant political capital.

Digital Objects, Digital Subjects David Chandler, Christian Fuchs, 2019-01-29 This volume explores activism, research and critique in the age of digital subjects and objects and Big Data capitalism after a digital turn said to have radically transformed our political futures. Optimists assert that the 'digital' promises: new forms of community and ways of knowing and sensing, innovation, participatory culture, networked activism, and distributed democracy. Pessimists argue that digital technologies have extended domination via new forms of control, networked authoritarianism and exploitation, dehumanization and the surveillance society. Leading international scholars present varied interdisciplinary assessments of such claims – in theory and via dialogue – and of the digital's impact on society and the potentials, pitfalls, limits and ideologies, of digital activism. They reflect on whether computational social science, digital humanities and ubiquitous datafication lead to digital positivism that threatens critical research or lead to new horizons in theory and society. The Jazz Age Arnold Shaw, 1989 F. Scott Fitzgerald named it, Louis Armstrong launched it, Paul Whiteman and Fletcher Henderson orchestrated it, and now Arnold Shaw chronicles this fabulous era in *The Jazz Age*. Spicing his account with lively anecdotes and inside stories, he describes the astonishing outpouring of significant musical innovations that emerged during the Roaring Twenties—including blues, jazz, band music, torch ballads, operettas and musicals—and sets them against the background of the Prohibition world of the Flapper.

The Portable Machiavelli Niccolo Machiavelli, 1979-01-25 In the four and a half centuries since Machiavelli's death, no single and unanimously accepted interpretation of his ideas has succeeded in imposing itself upon the lively debate over the meaning of his works. Yet there has never been any doubt about the fundamental importance of Machiavelli's contribution to Western political theory. *The Portable Machiavelli* brings together the complete texts of *The Prince*, *Belfagor*, and *Castruccio Castracani*, newly translated by Peter Bondanella and Mark Musa especially for this volume. In addition, the editors include an abridged version of *The Discourses*; a play, *The Mandrake Root*, in its entirety; seven private letters; and selections from *The Art of War* and *The History of Florence*.

The Memoirs of Sir Ronald Storrs Sir Ronald Storrs, 2008-11 SIR RONALD STORRS - PREFACE THIS has not been an easy book to write. My books and papers were destroyed by fire with the rest of my property in 1931, so that of material, consciously prepared or preserved as such, I have none. I had, however, the habit ever since leaving England in 1904 of writing weekly to my mother, and of enclosing briefly minuted items I thought might entertain her. All these documents she kept with my letters, including a few diaries of special missions or journeys during the War. In the longest of these, describing Baghdad in 1917, she inked over my pencil version with the result, as in a palimpsest, that some of the words she could not read then I cannot decipher now. These surviving records I have wherever possible quoted in original with, I hope, a gain in immediacy and actuality by recording not only historic facts, sometimes already known, but also my feelings at the time with stories and details, trifling in themselves yet constituting atmosphere the hardest of all things to recapture after many years. There are no corrections but many omissions, especially of personal remarks intended only for home consumption. The retention of many faults of youthful slang and flippancy proceeds not so much from any illusion as to their intrinsic demerits as from a preference for the varied patina of the past over the shiny smoothness of a Vernis Martin surface. The loss of a slowly collected library bearing on the chief interests of a man's life is a handicap, less only than the loss of serious documents. Not total replacement, not even the Socialist ideal of the British Museum Library access to everything, possession of nothing can recall the annotations and cross-references of many years. In a book full of Oriental names it is impossible to avoid the vexed question of transliteration. That is a subject upon which, as indicated, I have strong ideas and even stronger feelings. In 1920 Sir Herbert Samuel made me Chairman of a small Committee appointed for the purpose of transliterating Palestinian Arabic. We worked long and hard, and in due course submitted to His Excellency the neat little viii . Preface brochure which at this moment meets my resentful gaze. By the time it had reached London the Colonial Office had decided to adopt the system of the Royal Geographical Society. Lawrence was pleasant about his spelling members of our Committee cannot be. My object now is to present the strange sounds and symbols of the East with a minimum of fatigue to the reader. The system is that of English consonants with Italian vowels, and I add accents and quantities. There are one or two irregularities. The name of the founder of Islam is accurately rendered to convey the pronunciation of Muhammad even for personages such as Prince Mahomed Ali, in whose reigning house is a tradition of pronunciation *alia Turca*. By the time the name has reached Cyprus it has become Mehmet. Nevertheless, with a positive advantage of differentiation, I write the Sharif and King Husain ibn Ali of Arabia correctly according to system but the Prince and Sultan Hussein of Egypt, with the French spelling that comes close to his own Turkish utterance. By holding, though illogically, to accepted spellings of some famous words, I have at least avoided the exasperation of Quran and Makkah and of that intolerable clenching of the glottis, the letter, ain...
