This knowledge is for those who want to understand the intricacies of human life. Astrology believes that everything is controlled by celestial bodies otherwise predictions are completely impossible. This human body is part of existence and the movement of celestial bodies affects us. It is a science as well as art. Time is a great teacher, but it also throws dust on what is not prevalent or what we leave behind. Every now and then we need to hone our skills to stay sharp. Similarly, the knowledge which gets disappears now needs to be uncovered and sharpened. At present, there is a need for a new way of interpretation that is suitable for the changing world and new environment, there is a need for relevant examples which are suitable for the present generation. This book explains astrological principles with a new set of examples in the changing environment so that the present generation can understand the hidden meaning behind the ancient texts.
