Making Every Pitch Count Ken Beardslee, 2004-04 With a mere two hundred words, Henry Wadsworth Longfellow, the gifted American poet, changed the lives of countless numbers of young people by composing his inspiring poem, THE PSALM OF LIFE. Ken Beardslee, in this his sixth book, believes he can change the lives of thousands of young baseball pitchers with his latest effort, MAKING EVERY PITCH COUNT. It is a book of limited pages, easily understood, and in the long run quality always triumphs over quantity. With the lively baseball, the much smaller strike zone, and the lowering of the mound, all present day pitchers are working with a very narrow window to success. With new approaches, and tested theories of his own, the author presents a program that will vastly improve any pitcher's performance. The author's record as an amateur and professional pitcher, and his deep experience as a big league scouting supervisor for the Pittsburgh Pirates, speaks for itself. At Vermontville High School in Michigan, he set seven state pitching records. In addition he holds the national record for strikeouts per batters faced during a high school season, and career. In professional baseball before being injured, he had a seventy five percent winning percentage in the New York Yankee organization. MAKING EVERY PITCH COUNT breaks new ground for pitchers of all ages.

Boston Education, which chronicled the chaotic, frenetic, and hilarious career, social, and romantic missteps of quirky, wisecracking, ballplaying, weightlifting, and beer-drinking young Boston CPA Rocky Collins; until, with the help of a good woman and promising new job, he finally gets his life under control. But now hes approaching middle age, frustrated with limiting age-related physical issues and feeling increasingly out of tune with the culture; and worst of all, the changing competitive landscape facing the company hes been successful with for twenty years has become an insurmountable problem. Hes working too hard and long with disappointing results, and worrying that, despite his rewarding family life and a solid circle of old friends, hes going to end up a failed, essentially numerical man. But his unrelenting drive and determination, intelligence and wit, along with the unwavering empathetic support of his equally hard-working wife, finally have him hooking up with a couple of charismatic, successful Boston venture capitalists, who not only appreciate his talent and work ethic, but also his imagination and combative Boston-Irish humor. He gets his career back on track by helping them turn around a couple of mid-size manufacturing companies, while also helping found a new independent baseball league with some very unique rules, equipment, and playing fields; designing The Penultimate Boston Sports Bar; and helping a black Boston area youth minister build a Life Training and Development Center.
