Fearless and Free Wendy Sachs, 2017-02-07 In Fearless and Free, author Wendy Sachs provides pithy, invaluable guidance to women stymied in the workplace. Women tend to be inherently cautious, to the point of overthinking their every move. This may help them stay safer than their male counterparts, but it also keeps them stuck in the action-first, fake-it-til-you-make-it ethos celebrated in the tech world shaking up the workforce today. What if women embraced the startup spirit? What if they had the confidence to take chances, even if they knew they may fail first? What if instead of agonizing over which step to take, they leapt forward quickly? These are the traits that helped Silicon Valley redefine our culture, and not surprisingly, these are the same lessons that can help all women succeed in all stages of their careers. With lessons learned from a wide range of women who faced down fears, roadblocks, and failures to reinvent themselves, Sachs’s invaluable resource teaches women how to: Boost their confidence Sell their story Capitalize on their skills and expand them Nurture their network Brand themselves--without bragging Reposition themselves for reentering the workforce By taking the disruptive methods that helped Silicon Valley send shockwaves across industries, Fearless and Free seeks to empower women in the workforce, showing them how to lean into their strengths, increase confidence, and make their impact known loud and clear.

Lifestyle TV Laurie Ouellette, 2016-01-29 From HGTV and the Food Network to Keeping Up With the Kardashians, television is preoccupied with the pursuit and exhibition of lifestyle. Lifestyle TV analyzes a burgeoning array of lifestyle formats on network and cable channels, from how-to and advice programs to hybrid reality entertainment built around the cultivation of the self as project, the ethics of everyday life, the mediation of style and taste, the regulation of health and the body, and the performance of identity and difference. Ouellette situates these formats historically, arguing that the lifestyling of television ultimately signals more than the television industry's turn to cost-cutting formats, niche markets, and specialized demographics. Rather, Ouellette argues that the surge of reality programming devoted to the achievement and display of lifestyle practices and choices must also be situated within broader socio-historical changes in capitalist democracies.

Social TV Cory Barker, 2022-06-27 Winner of the 2023 SCMS Media Industries Scholarly Interest Group Outstanding Book Award sponsored by the Center for Entertainment & Media Industries On March 15, 2011, Donald Trump changed television forever. The Comedy Central Roast of Trump was the first major live broadcast to place a hashtag in the corner of the screen to encourage real-time reactions on Twitter, generating more than 25,000 tweets and making the broadcast the most-watched Roast in Comedy Central history. The #trumproast initiative personified the media and tech industries’ utopian vision for a multi-screen and communal live TV experience. In Social TV: Multi-Screen Content and Ephemeral Culture, author Cory Barker reveals how the US television industry promised—but failed to deliver—a social media revolution in the 2010s to combat the imminent threat of on-demand streaming video. Barker examines the rise and fall of Social TV across press coverage, corporate documents, and an array of digital ephemera. He demonstrates that, despite the talk of disruption, the movement merely aimed to exploit social media to reinforce the value of live TV in the modern attention economy. Case studies from broadcast networks to tech start-ups uncover a persistent focus on community that aimed to monetize consumer behavior in a transitional industry period. To trace these unfulfilled promises and flopped ideas, Barker draws upon a unique mix of personal Social TV experiences and curated archives of material that were intentionally marginalized amid pivots to the next big thing. Yet in placing this now-forgotten material in recent historical context, Social TV shows how the era altered how the industry pursues audiences. Multi-screen campaigns have shifted away from a focus on live TV and toward all-day “content” streams. The legacy of Social TV, then, is the further embedding of media and promotional material onto every screen and into every moment of life.

Grammatical Relations T. Givón, 1997-11-27 This volume presents a functional perspective on grammatical relations (GRs) without neglecting their structural correlates. Ever since the 1970s, the discussion of GRs by functionally-oriented linguists has focused primarily on their functional aspects, such as reference, cognitive accessibility and discourse topicality. With some exceptions, functionalists have thus ceded the discussion of the structural correlates of GRs to various formal schools. Ever since Edward Keenan’s pioneering work on subject properties (1975, 1976), it has been apparent that subjecthood and objecthood can only be described properly by a basket of neither necessary nor sufficient properties — thus within a framework akin to Rosch’s theory of Prototype. Some GR properties are functional (reference, topicality, accessibility); others involve overt coding (word-order, case marking, verb agreement). Others yet are more abstract, involving control of grammatical processes (rule-governed behavior). Building on Keenan’s pioneering work, this volume concentrates on the structural aspects of GRs within a functionalist framework. Following a theoretical introduction, the papers in the volume deal primarily with recalcitrant typological issues: The dissociation between overt coding properties of GRs and their behavior-and-control properties; GRs in serial verb constructions; GRs in ergative languages; The impact of clause union and grammaticalization on GRs.

Reimagining Journalism in a Post-Truth World Ed Madison, Ben DeJarnette, 2018-02-08 Amidst alternative facts and post-truth politics, news journalism is more important and complex than ever. This book examines journalism's evolution within digital media's ecosystem where lies often spread faster than truth, and consumers expect conversations, not lectures. The 2016 U.S. presidential election delivered a stunning result, but the news media's breathless coverage of it was no surprise. News networks turned debates

into primetime entertainment, reporters spent more time covering poll results than public policy issues, and the cozy relationship between journalists and political insiders helped ensure intrigue and ratings, even as it eroded journalism's role as democracy's Fourth Estate. Against this sobering backdrop, a broadcast news veteran and a millennial newshound consider how journalism can regain the public's trust by learning from pioneers both within and beyond the profession. Connecting the dots between faux news, fake news, and real news, coauthors Madison and DeJarnette provide an unflinching analysis of where mainstream journalism went wrong—and what the next generation of reporters can do to make it right. The significance of Donald Trump's presidency is not lost on the authors, but *Reimagining Journalism in a Post-Truth World* is not a post-mortem of the 2016 presidential election, nor is it a how-to guide for reporting on Trump's White House. Instead, this accessible and engaging book offers a broader perspective on contemporary journalism, pairing lively anecdotes with insightful analysis of long-term trends and challenges. Drawing on their expertise in media innovation and entrepreneurship, the authors explore how comedians like John Oliver, Trevor Noah, and Samantha Bee are breaking (and reshaping) the rules of political journalism; how legacy media outlets like The Boston Globe, The Washington Post, and The New York Times are retooling for the digital age; and how newcomers like Vice, Harken, and De Correspondent are innovating new models for reporting and storytelling. Anyone seeking to make sense of modern journalism and its intersections with democracy will want to read this book.

Indie TV James Lyons,Yannis Tzioumakis,2023-03-27 This edited collection is the first book to offer a wide-ranging examination of the interface between American independent film and a converged television landscape that consists of terrestrial broadcasters, cable networks and streaming providers, in which independent film and television intersect in complex, multifaceted and creative ways. The book covers the long history of continuities and connections between the two sectors, as seen in the activities of PBS, HBO or Sundance. It considers the movement of filmmakers between indie film and TV such as Steven Soderbergh, Rian Johnson, the Duplass brothers, Joe Swanberg, Lynn Shelton and Gregg Araki; details the confluence of aesthetic and thematic elements seen in shows such as *Girls*, *Breaking Bad*, *Master of None*, or *Glow*; points to a shared interest in regional sensibilities evident in shows like *One Mississippi* or *Fargo*; and makes the case for documentaries and web series as significant entities in this domain. Collectively, the book builds a compelling picture of indie TV as a significant feature of US screen entertainment in the 21st Century. This interdisciplinary landmark volume will be a go-to reference for students and scholars of Television Studies, Film Studies and Media Studies.

Turkey's Pivot to Eurasia Emre Erşen,Seçkin Köstem,2019-05-21 This book discusses and analyses the dimensions of Turkey's strategic rapprochement with the Eurasian states and institutions since the deterioration of Ankara's relations with its traditional NATO allies. Do these developments signify a major strategic reorientation in Turkish foreign policy? Is Eurasia becoming an alternative geopolitical concept to Europe or the West? Or is this 'pivot to Eurasia' an instrument of the current Turkish government to obtain greater diplomatic leverage? Engaging with these key questions, the contributors explore the geographical, political, economic, military and social dynamics that influence this process, while addressing the questions that arise from the difficulties in reconciling Ankara's strategic priorities with those of other Eurasian countries like Russia, China, Iran and India. Chapters focus on the different aspects of Turkey's improving bilateral relations with the Eurasian states and institutions and consider the possibility of developing a convincing Eurasian alternative for Turkish foreign policy. The book will be useful for researchers in the fields of politics and IR more broadly, and particularly relevant for scholars and students researching Turkish foreign policy and the geopolitics of Eurasia.

Subtitling Norms for Television Jan Pedersen,2011 In most subtitling countries, those lines at the bottom of the screen are the most read medium of all, for which reason they deserve all the academic attention they can get. This monograph represents a large-scale attempt to provide such attention, by exploring the norms of subtitling for television. It does so by empirically investigating a large corpus of television subtitles from Scandinavia, one of the bastions of subtitling, along with other European data. The aim of the book is twofold: first, to provide an advanced and comprehensive model for investigating translation problems in the form of Extralinguistic Cultural References (ECRs). Second, to empirically explore current European television subtitling norms, and to look into future developments in this area. This book will be of interest to anyone interested in gaining access to state-of-the-art tools for translation analysis, or in learning more about the norms of subtitling, based on empirically reliable and current material.
