Fool the World Josh Frank, Caryn Ganz, 2007-04-01 It's the 1980s and the rock landscape is littered with massive hair, synthesizers, and monster riffs, but there is an alternative being born in the sleepy East of America—we just don't know it yet. Before the Internet, MTV, and iPods provided far-off music fans with information and communities—and before Nirvana-kids across the world grew up in relative isolation, dependent on mix tapes and

self-created art to slowly spread scenes and trends. It was under these conditions that four young musicians found one another in Boston, Massachusetts, and started a band called Pixies. During their initial seven-year career, Pixies would play some of Europe's most gigantic festivals, keep the press guessing, and cultivate a fervid international fan base hungry for more and more of their unique surf punk. The band worked fast, cranking out four albums at a breakneck pace, but ultimately pressures and personality clashes took their toll: Pixies broke up just as bands were singing their praises as the rock'n'roll innovators. For twelve years, a Pixies reunion seemed impossible, but a sudden announcement in 2004 proclaimed the unthinkable-Pixies were getting back together. Their extremely successful reunion tour finally gave the group something they'd always lacked in their homeland: proof that their bone-rattling music had left an indelible impact. Fool the World tells Pixies' story in the words of those who lived it, from the band members to studio owners, from A&R executives, producers, and visual artists who worked with them to admirers of their music, such as Bono, PJ Harvey, Beck, and Perry Farrell. With new cartoons by Trompe Le Monde illustrator Steven Appleby, Fool the World is a complete journey through the life, death, and rebirth of one of the most influential bands of all time.

Crazy Funny Lisa A. Guerrero, 2019-10-28 This book examines the ways in which contemporary works of black satire make black racial madness legible in ways that allow us to see the connections between suffering from racism and suffering from mental illness. Showing how an understanding of racism as a root cause of mental and emotional instability complicates the ways in which we think about racialized identity formation and the limits of socially accepted definitions of (in)sanity, it concentrates on the unique ability of the genre of black satire to make knowable not only general qualities of mental illness

that are so often feared or ignored, but also how structures of racism contribute a specific dimension to how we understand the different ways in which people of color, especially black people, experience and integrate mental instability into their own understandings of subjecthood. Drawing on theories from ethnic studies, popular culture studies, cultural studies, psychoanalysis, and trauma theory to offer critical textual analyses of five different instances of new millennial black satire in television, film, and literature – the television show Chappelle's Show, the Spike Lee film Bamboozled, the novel The White Boy Shuffle by Paul Beatty, the novels Erasure and I Am Not Sidney Poitier by Percival Everett, and the television show Key & Peele – Crazy Funny presents an account of the ways in which contemporary black satire rejects the boundaries between sanity and insanity as a way to animate the varied dimensions of being a racialized subject in a racist society.
