- Specifics related to collaborations with government, business, faith communities, and other types of partners
- The role of data in establishing and running a partnership
- Scaling up to maximize impact and remain sustainable
- The role of financing
- Implications for policy

Written in practical terms that will resonate with readers from any background and sector, The Practical Playbook II is the resource that today's helping professions need -- and a roadmap for the next generation of health-improving partnerships.

**PLC+** Douglas Fisher, Nancy Frey, John Almarode, Karen Flories, Dave Nagel, 2019-05-16 What makes a powerful and results-driven Professional Learning Community (PLC)? The answer is collaborative work that expands the emphasis on student learning and leverages individual teacher efficacy into collective teacher efficacy. PLC+: Better Decisions and Greater Impact by Design calls for strong and effective PLCs plus—and that plus is YOU. Until now, the PLC movement has been focused almost exclusively on students and what they were or were not learning. But keeping student learning at the forefront requires that we also recognize the vital role that you play in the equation

of teaching and learning. This means that PLCs must take on two additional challenges: maximizing your individual expertise, while harnessing the power of the collaborative expertise you can develop with your peers. PLC+ is grounded in four cross-cutting themes—a focus on equity of access and opportunity, high expectations for all students, a commitment to building individual self-efficacy and the collective efficacy of the professional learning community and effective team activation and facilitation to move from discussion to action. The PLC+ framework supports educators in considering five essential questions as they work together to improve student learning: Where are we going? Where are we now? How do we move learning forward? What did we learn today? Who benefited and who did not benefit? The PLC+ framework leads educators to question practices as well as outcomes. It broadens the focus on student learning to encompass educational equity and teaching efficacy, and, in doing so, it leads educators to plan and implement learning communities that maximize individual expertise while harnessing the power of collaborative efficacy.

**Community Integration Playbook** America's Warrior Partnership, 2023-01-31 EMPOWERING VETERANS ONE RELATIONSHIP AT A TIME America's Warrior Partnership (AWP) believes that meeting veteran needs must occur at the community level where veterans live. That is why AWP created Community Integration, an evidence-based, proven model that empowers veteran service organizations to amplify their initiatives and reach deeper into their communities to empower veterans, their families, and caregivers. The Community Integration approach starts by creating a trusted relationship with the veteran to understand their unique situation and where they want to grow. It then utilizes existing community resources to holistically meet warrior needs, enhance veterans' quality of life, and advance upstream suicide prevention efforts. America's Warrior

Partnership's Community Integration Playbook is an easy-to-read handbook that provides community leaders with the framework to implement a proactive, veteran-focused local program.

### **The Path to Successful Community School Policy**

**Adoption** Emily Lubin Woods, 2022-07-13 Drawing on rich case studies of Baltimore City and Boston, this volume identifies policy

factors and processes critical to the successful district-wide adoption of community schools. By applying the Multiple Streams Model (Kingdon) to comparative analysis of policy determination and the narratives of local stakeholders across a 16-year period, chapters illustrate the role of federal legislation, funding, and buy-in from coalitions, community leaders, and local advocates in ensuring policy adoption in Baltimore City. In contrast, Boston's more limited reforms are explained in light of local challenges and hindering dynamics. Ultimately, the volume offers key recommendations for stakeholders to drive successful policy uptake in urban school districts. Offering a new analysis of policy for community schools, this volume will be of interest to students, scholars, and researchers with an interest in school reform, as well as urban education.

### **Dialogues in Middle Level Education Research Volume 2**

David C. Virtue, 2023-04-28 This book echoes and enhances the generative, dialogic, knowledge-building process that took place at the AMLE 2021 conference, reflecting the way in which middle-level researchers work collaboratively and draw ideas and inspiration for their studies from prior research and accounts of practice, as well as their own experiences in the field. Each of the five sections features a recent study presented at the roundtable session at the 2021 AMLE conference, accompanied by two companion pieces offering different perspectives on the work. In the latter, the authors enrich and extend the original research by incorporating feedback from the conference session discussions, revisiting their findings and conclusions, considering alternative approaches to further research, and proposing new or clarified implications for practice. Addressing themes across theoretical frameworks and diversity of research design, and with topics ranging from music education to teacher agency and the productive struggle, the volume crucially presents and discusses recent innovations in the field with a view to prompting future research questions and deeper inquiry. As such, it will benefit

researchers, doctoral students, and academics in the fields of middle level education, educational research, and specifically research methods in education. Those interested in teaching and learning, and adolescent development more broadly will also benefit from this volume.

### **Building Connected Communities of Care Keith**

Kosel, Steve Miff, 2020-02-20 As a community, aligning efforts across a community to support the safety and well-being of vulnerable and underserved individuals is extraordinarily difficult. These individuals suffer disproportionately from health issues, job loss, a lack of stable housing, high utility costs, substance abuse, and homelessness. In addition to medical care, these individuals often critically need access to community social sector organizations that provide a distinct and complementary set of services, such as housing, food services, emergency utility assistance, and employment assistance. These services are just as vital as healthcare services to these individuals' long-term health and well-being, with data suggesting that 80-90% of health outcomes can be attributed to factors beyond direct medical intervention. This book proposes a novel approach to the coordination of medicine and social services through the use of people, process, and technology, with the goal being to streamline coordination between medical and Community-Based Organizations and to promote true cross-sector patient and client advocacy. The book is based on the experience of Dallas, TX, which was one of the first metropolitan regions to develop a comprehensive foundation for partnership between a community's clinical and social sectors using web-based information exchange. In the 5 years since the initial launch, the authors have been able to provide seamless connection, communication, and coordination between healthcare providers and a wide array of community-based social service organizations (a/k/a Community-Based Organizations or CBOs), criminal justice entities, and various other community organizations, including

non-collegiate educational systems. This practical how-to guide is the codification of transferrable lessons from successes and challenges faced when working with clinical, community, and government leaders. By reading this playbook, leaders interested in building (or expanding) connected clinical-community services will learn how to: 1) facilitate cross-sector care coordination; 2) enable community care partners to better provide targeted services to community residents; 3) reduce duplication of services across partnering organizations; and 4) help to bridge service gaps in the currently fragmented system. Implementation of services, as recommended in this book, will ultimately streamline assistance efforts, reduce repeat crises and emergency funding requests, help address disparities of care, and improve the health, safety, and well-being of the most vulnerable community residents.

### **The Community Manager's Playbook** Lauren

Perkins, 2015-01-05 Savvy companies recognize the value of a strong community. Think of Nike and its community of runners, Nike+, and you'll quickly understand that creating and fostering an online community around a product or brand is a powerful way to boost marketing efforts, gain valuable insight into consumers, increase revenue, improve consumer loyalty, and enhance customer service efforts. Companies now have the unprecedented opportunity to integrate their brand's messaging into the everyday lives of their target audiences. But while supporting the growth of online communities should be at the top of every company's priority list, all too often it falls by the wayside. That's why brand strategy expert and digital marketer Lauren Perkins wrote *The Community Manager's Playbook* (#CMplaybook on Twitter), a must-read guide for business and brand builders who need to strengthen their approach to online B2C community management and customer engagement. As Perkins explains, if companies want to create thriving online communities focused on their product or brand, they must do more than simply issue a few

tweets a day, create (and then abandon) a Facebook page, and blog every once in a while. Instead, organizations of all sizes must treat community management as a central component of their overall marketing strategy. When they do, they will be rewarded handsomely with greater brand awareness, increased customer use and retention, lower acquisition costs, and a tribe of consumers who can't wait to purchase their next product. Perkins not only teaches readers how to build an engaging community strategy from the ground up, but she also provides them with the tactical community management activities they need to acquire and retain customers, create compelling content, and track their results along the way. Distinctive in its comprehensive, step-by-step approach to creating online communities that are fully consistent with a company's existing brand voice, *The Community Manager's Playbook*: Explains how excellent community management provides a competitive advantage with a large impact on sales Provides an in-depth overview of brand and business alignment Teaches readers how to identify their community's online target audience and influence their needs and wants Details the appropriate online channels through which content should be distributed Champions the use of an agile approach through repeated testing to maximize the return on every company investment Discusses the many diverse metrics that can be used to measure community scope Today, there is no brand strategy without a community strategy. Companies that are not developing communities are losing control of their brands and missing opportunities to optimize their marketing investments. With *The Community Manager's Playbook* as their guide, however, marketing professionals and the companies and brands they represent will be equipped with the tools they need to manage their online marketing efforts, engage their core customers at every level, leverage community insights into the product development cycle, and ensure that their messaging is heard across all corners of the digital landscape.

**The Maternal, Digital Subjectivity, and the Aesthetics of Interruption** EL Putnam, 2022-04-21 Bringing together philosophies of the maternal with digital technology may appear to be an arbitrary pairing. However, reading them intertextually through select creative practices reveals how both encompass an aesthetics of interruption that becomes a novel means of understanding subjectivity. EL Putnam investigates how the digital performances of certain artists, creators, and technologists rupture existing representations of the maternal, taking advantage of the formal properties of digital media. What results are interruptions of visual and aural constructions through an immanent merging of the performing body with digital technologies. Putnam bases her analysis on close examinations of the way certain makers use the formal properties of digital imagery, such as the gap, the glitch, and the lag, as means of rendering images of the maternal uncanny in order to challenge mediation, constituting an aesthetics of interruption. The result is a radical critical strategy for engaging with digital technology and subsequent understandings of the subject that defy current modes of assimilation.

**Reopening K-12 Schools During the COVID-19 Pandemic** National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Board on Science Education, Standing Committee on Emerging Infectious Diseases and 21st Century Health Threats, Committee on Guidance for K-12 Education on Responding to COVID-19, 2020-10-08 The COVID-19 pandemic has presented unprecedented challenges to the nation's K-12 education system. The rush to slow the spread of the virus led to closures of schools across the country, with little time to ensure continuity of instruction or to create a framework for deciding when and how to reopen schools. States, districts, and schools are now grappling with the complex and high-stakes questions of whether to reopen

school buildings and how to operate them safely if they do reopen. These decisions need to be informed by the most up-to-date evidence about the SARS-CoV-2 virus that causes COVID-19; about the impacts of school closures on students and families; and about the complexities of operating school buildings as the pandemic persists. *Reopening K-12 Schools During the COVID-19 Pandemic: Prioritizing Health, Equity, and Communities* provides guidance on the reopening and operation of elementary and secondary schools for the 2020-2021 school year. The recommendations of this report are designed to help districts and schools successfully navigate the complex decisions around reopening school buildings, keeping them open, and operating them safely.

**The Gentrification of the Internet** Jessa Lingel, 2023-02-07  
How we lost control of the internet--and how to win it back. The internet has become a battleground. Although it was unlikely to live up to the hype and hopes of the 1990s, only the most skeptical cynics could have predicted the World Wide Web as we

know it today: commercial, isolating, and full of, even fueled by, bias. This was not inevitable. The Gentrification of the Internet argues that much like our cities, the internet has become gentrified, dominated by the interests of business and capital rather than the interests of the people who use it. Jessa Lingel uses the politics and debates of gentrification to diagnose the massive, systemic problems blighting our contemporary internet: erosions of privacy and individual ownership, small businesses wiped out by wealthy corporations, the ubiquitous paywall. But there are still steps we can take to reclaim the heady possibilities of the early internet. Lingel outlines actions that internet activists and everyday users can take to defend and secure more protections for the individual and to carve out more spaces of freedom for the people--not businesses--online.

**Corporate Responsibility and Sustainable Development** Lez Rayman-Bacchus, Philip R Walsh, 2021-07-04 This book explores the overlapping interests of corporate responsibility and sustainable development, specifically focusing on the dynamics of social change, sustainability governance and evaluation, and creating social value. Corporate Responsibility and Sustainable Development: An Integrative Perspective draws on ideas and research relevant to both concepts, highlighting the interdependent nature of corporate strategy and policymaker ambition. The authors seek to capture that any evaluation of responsibility for sustainable development demands multiple lenses. They propose an integrative understanding to tackling global challenges around sustainable development and focus on

four themes: contextualisation; perspectives on social change; sustainability governance and evaluation; and creating social value. Overall, the book takes an evaluative approach, using these themes as lenses for engaging with global challenges, which encourages reflection and informed action. Written by two highly experienced authors, this book integrates short case studies and chapter questions throughout the text, in order to reinforce learning and help readers reconcile ideas presented with real world issues. It will be an essential resource for tutors and advanced undergraduate and postgraduate students of business, governance and corporate governance, corporate social responsibility (CSR), sustainability and sustainable development, stakeholder theory, business ethics, and politics.
