**The Full Moons: Topical Letters In Esoteric Astrology** Malvin Artley, 2014-06-12 The Full Moons is an exploration of the Sun the Moon, the Truth and their interrelation, and it is the culmination of over ten years of letters the author has written on esoteric astrology. A compendium of topics in esoteric astrology, it explores the emerging universal spirituality, gradually unfolding through the current decades as seen from the perspective of topical world events, even though the principles investigated therein are timeless. The twelve astrological signs each give a unique insight

into various aspects of spirituality, and each one has its own story to tell on the great evolutionary path of the soul. Because the soul is so dear to us, even though the subject matter of the book is esoteric in its presentation, there is something in its pages for everyone, whether or not you have an astrological background. Ultimately, this book can be used as reference material for the times of the full moon each month and for specified times in between. The book is extensively indexed for ease of reference and it contains abundant reference material in the appendices, along with a glossary of esoteric terminology.

**Beyond Secular Faith** Matyas Szalay, 2023-01-19 Attempts to reach an understanding of how to live a Christian life in the contemporary context have never been more necessary. This is the aim of the International Symposium: Beyond Secular Faith, an annual conference held in Granada, Spain. This volume represents the fruits of over seven years of scholarship. The title Beyond Secular Faith suggests we are interested in (re)discovering and reflectively elaborating ways to overcome the limits imposed by the dominant contemporary culture. We are convinced that only a faith liberated from the conceptual restrictions and reductions (put forward by secular philosophy and theology) and centered radically on Christ can flourish in the dimension that is proper to faith; that is, in all spheres of human life. Featuring contributions from internationally recognized philosophers and theologians such as Tracey Rowland, Jarosław Jagiello, Rocco Buttiglione, Alison Milbank, Massimo Borghesi, John Milbank, and others, we will explore a diversity of questions from this common perspective: the light of revelation illuminates how Christians should live in the modern world, leading to a new beginning.

It was written during the last phase of the war when it was clear that the war was turning into an event that would fundamentally affect the further course of history.

*Image, Art and Virtuality* Roberto Diodato,2021-03-01 This book investigates the ontological state of relations in a unique way. Starting with the notion of system, it shows that the system can be understood as a relational structure, and that relations can be assessed within themselves, with no need to transform relations in elements. "Relations" are understood in contrast to "relational property": without a relation there is no identity, therefore no existence. What allows us to do that without hypostatizing the relation, and without immediately taking it simply as a causal relation, can be better grasped, possibly, in reference to a few entities that make best display of their systemic nature, for example images, works of art, and virtual bodies. This book shows how virtual bodies are ontological hybrids representing a type of entity that has never appeared in the world before. This entity becomes a phenomenon in interactivity and evades the dichotomy between "external" and "internal"; it is neither a cognitive product of the consciousness, nor an image of the mind. The user is well aware of experiencing another reality, also in the sense of a paradoxical reduplication of perceptual synthesis. The virtual body-environment is therefore simultaneously external and internal, with virtual bodies-environments to be seen as artificial windows to an intermediary world. In this intermediary world, the space itself is the result of interactivity; the world takes place in the sense or feeling of immersion experienced by the user; and the body, perceived as "other", takes upon itself

the sense of its reality, of its effectiveness, as an imaginary and pathic incision, as a production of desire and emotion, to the point that the feeling of reality conveyed by a virtual environment will rely significantly on how this environment produces emotions in the users.

**Anything Can Be Healed** Martin Brofman, 2019-06-11 A new edition of the classic practical manual for utilizing the chakra system as a body/mind interface for effective energetic healing • Explores the physical body as a mirror of our consciousness, with symptoms reflecting inner stresses in our emotional being, our mind, and/or our higher self • Offers an in-depth explanation of different aspects of each chakra, alongside a chakra meditation and practical energy exercises • Includes color reference charts of the chakras and their associated vibrations, systems, layers of the aura, senses, and areas of consciousness Drawing on his own profound healing experience as a young man, Martin Brofman developed a system of healing that effectively and seamlessly blends Western psychology and Eastern philosophies: the Body Mirror System. He explains how the chakra system connects to both mind and body to form a body/mind interface, allowing us to read the physical body as a mirror of the consciousness within, track the route from symptom to cause, and then work on releasing the causes on all levels. Brofman shows how specific tensions or symptoms on the physical level reflect corresponding tensions in one's consciousness about specific issues in life--the inner cause to the outer symptom. The author explains how healing the symptom needs to involve not only releasing the tension on the physical level, but also letting go of the stressful way of interacting with the environment. Thus, the process of healing always implies a process of transformation. Within the concepts of his Body Mirror System, Brofman explores the chakras and their role in the body, including their associated vibrations, parts of the body, senses, layers of the aura, and areas of

consciousness. He explains how to clear and connect the chakras, how to connect to the cosmos through the chakras, and how engaging with thought forms, time travel, and past lives can assist in healing sessions. Discussing the healing of others as well as self-healing, Brofman describes how to heal with chakras, thought forms, white light, and love, and how to perform distance healing. He provides practical energy exercises and chakra meditations, allowing the reader to imminently experience the healing energy in their bodies and prepare for a healing session. He also includes color reference guides, such as a chakra healing chart. Deeply examining the multilayered elements of the healing process, including transformation, this classic healing guide serves as a practical introduction to energy healing as well as a healer's tutorial and reference book.

The Nine Freedoms George King, 2014-03-29 The Nine Freedoms is not just another book—it is a Mission of Truth given to mortal man so that he may climb the nine steps to—Living Immortality. It is the first Metaphysical text book which clearly outlines the exact path through Evolution which man must take in order to become God-man. This book will give all who read it the major steps towards attainment of the wonderful state of Cosmic Consciousness, then later explain how to pass through the most elevated state possible to man upon Earth, that of—Ascension. Yet, The Nine Freedoms does not stop here! It goes even further than the Bible, the Baghavad-Gita, or the Buddhist conception of Nirvana. For within these pages, the sacred wisdom, kept from man since his inception upon Earth, is now given, revealing the way in which he will eventually attain the glorious state of—Interplanetary Existence. The book consists of a mystical text of profound philosophical and occult significance and a searching commentary on the most important parts of this text. The soul of this book is the Text, which was delivered as 9 consecutive Transmissions by a prominent Master of unquestionable Cosmic Status. The body of this book is made up of the commentary written as a series of carefully thought

out essays which reveal the profound Truths contained within the words of the unique Text. As the body of man is a physical reflection of his soul, so are the commentaries a reflection and readily understandable simplification of the all-embracing jewels of Wisdom which form the Mystical Text. As the pages of The Nine Freedoms are turned, the reader becomes aware that he is being taken on the longest, the most dramatic, most important journey of all—the voyage across the nine seas of his Evolution. Here, for the first time in history, the passage through the classrooms of Earth to glorious worlds of lasting achievement beyond—is laid out in intimate detail. The same profound effect which was experienced by those serious, Metaphysical student already exposed to a series of lectures on The Nine Freedoms, will be enjoyed by every reader, especially as no one will read this book by chance. The individual Karmic pattern of every student of this text book has determined that he shall be given the Divine opportunity of an Initiation into Truths never before revealed to mankind.

**The Inner Cause** Martin Brofman, 2018-05-08 Explores the body as a map of consciousness, where physical symptoms reflect stresses on our minds, emotions, and Higher Self • Offers a comprehensive guide to 800 physical symptoms with the description of their inner cause and the message they are sending to our consciousness • Explains how learning a symptom's message empowers the individual affected to take charge and effect change on the inner level • Addresses the individual as well as the helping professions, healers and therapists, to help them understand more fully the dynamics of the body-mind interface The body is intimately connected to the mind and the

Spirit. Each physical symptom reflects a deeper part of our Spirit and consciousness, the part the Western traditions know as the “unconscious” or “subconscious.” When we make a decision that leaves us with stress, it affects our consciousness, and therefore our energy field or aura. When the tension increases in intensity, it reaches the physical level where it creates a symptom. This means that if we make a different decision, or change our mind about something, we can let go of this stress, and the symptom. The symptom itself is not the problem, just a message that, once understood, has fulfilled its purpose and can be released. Integrating Martin Brofman’s more than 30 years of research and healing practice, *The Inner Cause* comprises an A to Z compendium of 800 symptoms and a psychology of their inner causes, the messages they are trying to send to our consciousness. Woven into the descriptions of symptoms, the author also discusses personality profiles associated with certain symptoms, derived from his understanding of the chakras, the body-mind interface, and the connections he discovered when developing his Body Mirror System of Healing. He explains that when you explore the inner cause to a symptom, you recognize that you have created this symptom through the stressed way you chose to respond to the conditions in your life. By learning a symptom’s message, you become empowered to take charge and effect change on the inner level. For each symptom discussed, the author explores the message of the symptom, which chakras are involved, how you may be affected, and which issues you might need to look at to resolve the tension or stress—although a specific solution will always depend on the individual’s personal situation. With its correlation of symptoms and psychological states of being, *The Inner Cause* provides invaluable insight into how we can effectively support our own healing process physically, emotionally, and spiritually.

*The Healing Power of Angels* Ambika Wauters, 2012-01-01 *The Healing Power of Angels* is a major

and highly original addition to an increasingly popular publishing genre. The book will help readers heal themselves of every kind of stress and dysfunction by tapping into the healing powers of angels. Uniquely, the author presents angels in terms of an inner realm with a distinct spiritual hierarchy: nine levels of angels residing in the three levels of heaven. While based on traditional theology, this system offers a thoroughly effective way for the human mind to grasp the benevolent powers that angels can make available to all of us. The book explains how angelic forces work in the human energy system, especially the chakras, to benefit our personal development and spiritual evolution, and is aimed at everyone who is fascinated and moved by the notion of angels, or is interested in making new discoveries in the realm of the spirit. The Healing Power of Angels is immensely helpful to all healers and all those interested in understanding energy fields. The meditations, affirmations and prayers that punctuate the text provide a practical dimension for interactive work. There are also profound reflections that will change the way we think about ourselves and thus move us much closer to spiritual understanding.
