Transforming Preschool Storytime Betsy Diamant-Cohen, Melanie A. Hetrick, 2013 According to recent research, the best way to make new connections in a child's brain is by building on something already known. A child who loves a book will listen to it repeatedly, maintaining interest. Using a selected book in a number of consecutive preschool storytimes, but presenting it differently each time, can help children learn new skill sets. This book presents a new approach to storytime, one that employs repetition with variety to create an experience which helps children connect and engage with the story on a higher level. Diamant-Cohen, recently awarded the 2013 ASCLA Leadership and Professional Achievement Award, and Hetrick offer a year's worth of activities specifically designed to address multiple intelligences through a repetition-based process. Incorporating recent theories on developmental learning, this book includes Scripts for 8 different books, with enough activities to repeat each one for six weeks, along with lists of optional alternative books Planning aids such as outlines of storytime sessions, a fill-in-the-blanks planning sheet, questions for evaluation, and tips for enhanced storytimes using props and crafts Detailed but straightforward explanations of theory and research that will help readers communicate effectively with parents, caregivers, and other stakeholders From setup to execution, here's everything you need to create and implement a successful, elevated storytime.

Juki Girls, Good Girls Caitrin Lynch, 2007 When a government program brought garment factories to rural Sri Lanka, women workers found themselves caught between the pressures of a globalizing economy and societal expectations that villages are sanctuaries of tradition. These women learned quickly to resist the characterization of Juki girls—female garment workers already established in the urban sector—as vulgar and deracinated, instead asserting that they were good girls who could embody the nation's highest ideals of femininity. Caitrin Lynch shows how contemporary Sri Lankan women navigate a complex web of political, cultural, and socioeconomic forces. Drawing on extensive ethnographic research conducted inside export-oriented garment factories and a close examination of national policies intended to ease the way for globalization, Lynch details precisely how gender, nationalism, and globalization influence everyday life in Sri Lanka. This book includes autobiographical essays by garment workers about their efforts to attain the benefits of being seen as good while simultaneously expanding the definition of what sort of behavior constitutes appropriate conduct. These village garment workers struggled to reconcile the role thrust upon them as symbols of national progress with the negative public perception of factory workers. Lynch provides the context needed to appreciate the paradoxes that globalization creates while painting a

sympathetic portrait of the individuals whose life stories appear in this book.

Sketching Light Joe McNally, 2011-12-06 Following up on the great success of *The Moment It Clicks* and *The Hot Shoe Diaries: Big Light from Small Flashes*, legendary magazine photographer Joe McNally takes us on another memorable ride with *Sketching Light*, another trip into the land of light--but this time running the gamut from small flash to big flash, and everywhere in between. Of course, Joe includes coverage of Nikon Speedlights, but he also covers big flash, as well as in-between lights as the Elinchrom Quadra. The exploration of new technology, as well as the explanation of older technology. No matter what equipment Joe uses and discusses, the most important element of Joe's instruction is that it is straightforward, complete, and honest. No secrets are held back, and the principles he talks about apply generally to the shaping and quality of light, not just to an individual model or brand of flash. He tells readers what works and what doesn't via his let's-see-what-happens approach, he shows how he sets up his shots with plentiful sketches and behind-the-scenes production shots, and he does it all with the intelligence, clarity, and wisdom that can only come from shooting in the field for 30 years for the likes of National Geographic, Time, Life, and Sports Illustrated--not to mention the wit and humor of a clearly warped (if gifted) mind.

The Innovation Stack Jim McKelvey, 2020-03-10 From the cofounder of Square, an inspiring and entertaining account of what it means to be a true entrepreneur and what it takes to build a resilient, world-changing company In 2009, a St. Louis glassblowing artist and recovering computer scientist named Jim McKelvey lost a sale because he couldn't accept American Express cards. Frustrated by the high costs and difficulty of accepting credit card payments, McKelvey joined his friend Jack Dorsey (the cofounder of

Twitter) to launch Square, a startup that would enable small merchants to accept credit card payments on their mobile phones. With no expertise or experience in the world of payments, they approached the problem of credit cards with a new perspective, questioning the industry's assumptions, experimenting and innovating their way through early challenges, and achieving widespread adoption from merchants small and large. But just as Square was taking off, Amazon launched a similar product, marketed it aggressively, and undercut Square on price. For most ordinary startups, this would have spelled the end. Instead, less than a year later, Amazon was in retreat and soon discontinued its service. How did Square beat the most dangerous company on the planet? Was it just luck? These questions motivated McKelvey to study what Square had done differently from all the other companies Amazon had killed. He eventually found the key: a strategy he calls the Innovation Stack. McKelvey's fascinating and humorous stories of Square's early days are blended with historical examples of other world-changing companies built on the Innovation Stack to reveal a pattern of ground-breaking, competition-proof entrepreneurship that is rare but repeatable. The Innovation Stack is a thrilling business narrative that's much bigger than the story of Square. It is an irreverent first-person look inside the world of entrepreneurship, and a call to action for all of us to find the entrepreneur within ourselves and identify and fix unsolved problems--one crazy idea at a time.

In this edition, user experience professional Theresa Neil walks product managers, designers, and developers through design patterns in 11 categories: Navigation: get patterns for primary and secondary navigation Forms: break industry-wide habits of bad form design Tables: display only the most important information Search, sort, and filter: make these functions easy to use Tools: create the illusion of direct interaction Charts: learn best practices for basic chart design Tutorials & Invitations: invite users to get started and discover features Social: help users connect and become part of the group Feedback & Accordance: provide users with timely feedback Help: integrate help pages into a smaller form factor Anti-Patterns: what not to do when designing a mobile app

Draplin Design Co. Aaron James Draplin, 2016-05-17 A funny, colorful, fascinating tour through the work and life of one of today's most influential graphic designers. Esquire. Ford Motors. Burton Snowboards. The Obama Administration. While all of these brands are vastly different, they share at least one thing in common: a teeny little bit of Aaron James Draplin. Draplin is one of the new school of influential graphic designers who combine the power of design, social media, entrepreneurship, and DIY aesthetic to create a successful business and way of life. Pretty Much Everything is a mid-career survey of

work, case studies, inspiration, road stories, lists, maps, how-tos, and advice. It includes examples of his work—posters, record covers, logos—and presents the process behind his design with projects like Field Notes and the “Things We Love” State Posters. Draplin also offers valuable advice and hilarious commentary that illustrates how much more goes into design than just what appears on the page. With Draplin’s humor and pointed observations on the contemporary design scene, *Pretty Much Everything* is the complete package.

Bank 2.0 Brett King, 2010 The financial crisis is just beginning for retail institutions. Ninety to ninety-five per cent of bank transactions are executed electronically today. The Internet, ATMs, call centres and smartphones have become mainstream for customers. But banks still classify these as alternative channels and maintain an organisation structure where Branch dominates thinking. Continued technology innovations, Web 2.0, social networking, app phones and mobility are also stretching traditional banking models to the limit. *BANK 2.0* reveals why customer behaviour is so rapidly changing, how branches will evolve, why cheques are disappearing, and why your mobile phone will replace your wallet all within the next 10 years.

Sab and Autobiography Gertrudis Avellaneda, 2010-06-04 “The first English translation of the major work of a privileged, unconventional, and somewhat neglected Cuban author.” —Choice Eleven years before Uncle Tom’s Cabin fanned the fires of abolition in North America, an aristocratic Cuban woman told an impassioned story of the fatal love of a mulatto slave for his white owner’s daughter. So controversial was Sab’s theme of miscegenation and its parallel between the powerlessness and enslavement of blacks and

the economic and matrimonial subservience of women that the book was not published in Cuba until 1914, seventy-three years after its original 1841 publication in Spain. Also included in the volume is Avellaneda's Autobiography (1839), whose portrait of an intelligent, flamboyant woman struggling against the restrictions of her era amplifies the novel's exploration of the patriarchal oppression of minorities and women. "A worthy addition to scholarship in Latin American studies, useful in comparative literature and social history courses covering such writers as Harriet Beecher Stowe, Jorge Isaacs, Alejo Carpentier, or Ramon del Valle-Inclán." —Choice

The Age of the Bachelor Howard P. Chudacoff, 2020-12-08 In this engaging new book, Howard Chudacoff describes a special and fascinating world: the urban bachelor life that took shape in the late nineteenth century, when a significant population of single men migrated to American cities. Rejecting the restraints and dependence of the nineteenth-century family, bachelors found sustenance and camaraderie in the boarding houses, saloons, pool halls, cafes, clubs, and other institutions that arose in response to their increasing numbers. Richly illustrated, anecdotal, and including a unique analysis of The National Police Gazette (the most outrageous and popular men's publication of the late nineteenth and the early twentieth century), this book is the first to describe a complex subculture that continues to affect the larger meanings of manhood and manliness in American society. The figure of the bachelor--with its emphasis on pleasure, self-indulgence, and public entertainment--was easily converted by the burgeoning consumer culture at the turn of the century into an ambiguously appealing image of masculinity. Finding an easy reception in an atmosphere of insecurity about manhood, that image has outdistanced the

circumstances in which it began to flourish and far outlasted the bachelor culture that produced it. Thus, the idea of the bachelor has retained its somewhat negative but alluring connotations throughout the rest of the twentieth century. Chudacoff's concluding chapter discusses the contemporary singles scene now developing as the number of single people in urban centers is again increasing. By seeing bachelorhood as a stage in life for many and a permanent status for some, Chudacoff recalls a lifestyle that had a profound impact on society, evoking fear, disdain, repugnance, and at the same time a sense of romance, excitement, and freedom. The book contributes to gender history, family history, urban history, and the study of consumer culture and will appeal to anyone curious about American history and anxious to acquire a new view of a sometimes forgotten but still influential aspect of our national past.

Ballpark Paul Goldberger, 2019-05-14 An exhilarating, splendidly illustrated, entirely new look at the history of baseball: told through the stories of the vibrant and ever-changing ballparks where the game was and is staged, by the Pulitzer Prize-winning architectural critic. From the earliest corrals of the mid-1800s (Union Grounds in Brooklyn was a saloon in the open air), to the much mourned parks of the early 1900s (Detroit's Tiger Stadium, Cincinnati's Palace of the Fans), to the stadiums we fill today, Paul Goldberger makes clear the inextricable bond between the American city and America's favorite pastime. In the changing locations and architecture of our ballparks, Goldberger reveals the manifestations of a changing society: the earliest ballparks evoked the Victorian age in their accommodations--bleachers for the riffraff, grandstands for the middle-class; the concrete donuts of the 1950s and '60s made plain television's grip on the public's attention; and more recent ballparks, like Baltimore's Camden Yards, signal a new way forward

for stadium design and for baseball's role in urban development. Throughout, Goldberger shows us the way in which baseball's history is concurrent with our cultural history: the rise of urban parks and public transportation; the development of new building materials and engineering and design skills. And how the site details and the requirements of the game--the diamond, the outfields, the walls, the grandstands--shaped our most beloved ballparks. A fascinating, exuberant ode to the Edens at the heart of our cities--where dreams are as limitless as the outfields.
