Park Range Atmospheric Water Resources Program E. Bollay Associates,1967 With many biographical-critical entries and nearly 100 topical articles all written by experts in the field, The Continuum Encyclopedia of Children's Literature is the most complete and up-to-date single-volume reference source on the subject. The work covers 150 years of children's literature in many cultures: The United States, Great Britain, Canada, continental Europe, Australia, New Zealand, Africa, and Asia. Biographical-critical entries include authors as well as illustrators. A distinguished board of advisers, made up of scholars, editors, librarians, authors, and artists, has helped make this encyclopedia even more user-friendly.

Cloud Seeding Operations in the Bishop Creek, California Watershed Ferguson Hall,Thomas J. Henderson,Stuart A. Cundiff,1953 Cloud seeding operations using dry ice dispensed from aircraft have been carried out by the California Electric Power Co. in the High Sierra near Bishop, Calif., since February 1948. Limited visual observations suggest that snow showers can be produced from non-precipitating orographic clouds by seeding, the snow reaching the ground at the higher elevations. Comparison of the annual runoff from the seeded watershed with that from adjacent areas for the 3 years 1948, 1949, and 1950 showed a positive departure in the 1948-49 season significant at the 1 percent level. Significant departures did not appear during the other two years, but the average for the 3 years was significant at the 5 percent level. From the same analysis it might be estimated that the average annual flow during the 3-year period was augmented by 9 percent, with 90 percent confidence limits being zero and 18 percent. On the other hand the unusual circulation prevailing during the 1948-49 winter may have been responsible, at least in part, for the departure in flow during the season. Snow pack comparison did not indicate a significant increase in the Bishop area, but it is shown that such a result is not incompatible with the possibility that additional precipitation was produced which was not reflected in the snow surveys.

Cloudy With a Chance of Meatballs Judi Barrett,1982-04-01 An imaginative story of amazing food weather that inspired the hit movie, Cloudy with a Chance of Meatballs is a favorite of grown-ups and children everywhere. The tiny town of Chewandswallow was very much like any other tiny town—except for its weather which came three times a day, at breakfast, lunch, and dinner. But it never rained rain and it never snowed snow and it never blew just wind. It rained things like soup and juice. It snowed things like mashed potatoes. And sometimes the wind blew in storms of hamburgers. Life for the townspeople was delicious until the weather took a turn for the worse. The food got larger and larger and so did the portions. Chewandswallow was plagued by damaging floods and storms of huge food. The town was a mess and the people feared for their lives. Something had to be done, and in a hurry.
