This guide also includes tips on winning and how to avoid being tricked by loaded or “crooked” dice. Famous dice players, such as the Roman emperors Augustus and Caligula, lost money playing dice and quickly stole other people’s to continue their gaming sprees. In the early nineteenth century, fortunes could be won and lost at the roll of a die and it was not only money which was gambled away, but estates and even marriages. Full of fascinating facts and useful tips, this is a must-read book for everyone interested in family fun, games, gambling, or social history. Did you know? • Dice derives from the Latin datum, meaning “ought to be played” • The black marks showing the numbers are called pips • Dice were first played in India around 3000 bc • Dice were originally made from bones, including knuckle and ankle bones • Traditionally cubed, dice also come in other geometric shapes, including the zocchihedron, the 100-sided die, and the deltoidal icositetrahedron, where each side is shaped like a kite
