Exit A Dictator E. Phillips Oppenheim,2022-08-01 DigiCat Publishing presents to you this special edition of Exit A Dictator by E. Phillips Oppenheim. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.

Operator #5 Curtis Steele,2004-05-01 Operator #5, a secret service ace, appeared in more than 48 novels in a classic pulp magazine bearing his name. From April 1934 to November 1939, Jimmy Christopher fought villains from inside the United States and invaders from without. With World War II looming on the horizon, the Operator #5 books became a reflection of the times -- none more so than when a fascist dictator appears to take over the U.S. government! One of the bloodiest pulps ever produced, full of thrill-a-minute action and peril, Blood Reign of the Dictator is a classic entry in the series.

Fidel Castro Clive Foss,2016-12-09 Biography of Fidel Castro

An Apprentice Dictator in the White House Abner Clerveaux,2016-08-08 A young, handsome, charismatic Southern governor is elected president of the United States in a landslide. He was so popular that world leaders were scrambling to attend his inauguration. Among the attendees were the pope, the queen of England, and other royalties. He had, however, an Achilles heel he was a philanderer. In the white house he spent more time chasing women than doing the job he was elected to do. It will not take long for his misdeeds to leak out to the media and the opposition party that controlled Congress. Convinced that impeachment was the only way to remove that popular president, the opposition hired a zealous special prosecutor to investigate the president. While he was being investigated, the noose was getting tighter around his neck. Pressured by his wife to save his power, he decided to do the unthinkable. He ordered the Attorney General to arrest the special prosecutor He suspended the Constitution. He dissolved Congress. He retired the five members of the Supreme Court who 70 years old and older. He declared martial law and put troops in the street of Washington District. He ordered the media to impose self censorship. How will the nation react to this wannabe dictator? What will be the reaction of the world community How long will he last? Read on.

America's Dictator: FDR the Red Paul David Cook,2011-06-17 A new post-FDR generation of Americans have been taught in our liberal leftist educational system that the 32nd President was an outstanding war strategist and that Stalin 's Eastern European invasion was inevitable. Nothing could be further from the truth for the historical reality was that FDR was in reality a dangerous egotistical autocratic bumbler who winged it politically, with little global vision, resulting in multiple catastrophic international disasters that would negatively affect the world for generations to come. The FDR I am going to show you is nothing like what you have been programmed to believe. He was not only a compulsive liar and a hypocrite but also very vindictive, often sadistic to the point of displaying a malicious destructive pattern of behavior that bordered on madness. He was often filled with raging hatred against any opponent who dared to question his supremeness or bruise his delicate manic ego. For decades, the American public has been told a packet of lies repeatedly and in time those falsehoods have not only become accepted history we shoveled to our youth as fact until they read this book by design or chance.

Dictatorships Hal Marcovitz,2011-01-01 This title examines dictatorships in world history from early Rome to more modern dictatorships in France, Russia, Germany, Italy, Japan, China, North Korea, Cuba, Swaziland, and Serbia. How dictatorships work, the political systems in which they thrive, and the methods dictators use to gain and maintain control are discussed. Also covered are methods to depose dictators, and life for citizens both during and after dictatorship. Important dictators are covered, including both those of ancient civilizations such as Lucius Cornelius Sulla, and Julius Caesar, as well as more modern dictators such as Napoleon Bonaparte, Joseph Stalin, Adolf Hitler, Benito Mussolini, Fulgencio Batista, Hideki Tojo, and Mao Zedong, Kim Jung-il, Muammar al-Qaddafi, Mohammad Reza Pahlavi, Saddam Hussein, King Mswati III, Haile Selassie, Pol Pot, and Omar al-Bashir. Critics of dictatorships such as Alexander Solzhenitsyn are also introduced. Exploring World Governments is a series in Essential Library, an imprint of ABDO Publishing Company.

Dictator's Handbook Randall Wood,Carmin DeLuca,2012-06 Ever wonder if the world's tyrants are all using the same instruction manual? They are: here it is. From getting to power to dividing your enemies, suppressing revolution, stealing elections, and making your fortune, this 320 page volume shows you how the pros have been doing it for centuries. Fully factual, with a complete bibliography and footnotes, the Dictator's Handbook gives you a road map to tyranny, step by step. Beautifully illustrated by a professional artist, the text is funny and deadly serious. This is truly a practical manual for the aspiring tyrant.

Dictatorship Paul Dowswell,2005 The history of dictatorship seems to prove the accuracy of the well-known saying: 'Power tends to corrupt - and absolute power corrupts absolutely.' Many questions are answered in this fascinating account of perhaps the most controversial type of government the world has known. Ages 13+.

The Dictator Justin McCarthy,1893

The Dictator Justin McCarthy,1893

Dictators Frank Dikötter,2020-07-09 A New Statesman, Financial Times and Economist Book of the Year 'Brilliant' NEW STATESMAN, BOOKS OF THE YEAR 'Enlightening and a good read' SPECTATOR 'Moving and perceptive' NEW STATESMAN Mussolini, Hitler, Stalin, Mao Zedong, Kim Il-sung, Ceausescu, Mengistu of Ethiopia and Duvalier of Haiti. No dictator can rule through fear and violence alone. Naked power can be grabbed and held temporarily, but it never suffices in the long term. A tyrant who can compel his own people to acclaim him will last longer. The paradox of the modern dictator is that he must create the illusion of popular support. Throughout the twentieth century, hundreds of millions of people were condemned to enthusiasm, obliged to hail their leaders even as they were herded down the road to serfdom. In Dictators, Frank Dikötter returns to eight of the most chillingly effective personality cults of the twentieth century. From carefully choreographed parades to the deliberate cultivation of a shroud of mystery through iron censorship, these dictators ceaselessly worked on their own image and encouraged the population at large to glorify them. At a time when democracy is in retreat, are we seeing a revival of the same techniques among some of today's world leaders? This timely study, told with great narrative verve, examines how a cult takes hold, grows, and sustains itself. It places the cult of personality where it belongs, at the very heart of tyranny.

Dictatorship Ron Fridell,2008 Discusses dictatorships as a political system, and details the history of dictatorships throughout the world -- Provided by publisher.

The Dictators Jules Archer,2017-01-10 History has shown that dictators often share similarities in the ways they come to power, hold power, and topple from power. The Dictators is a fascinating presentation of eighteen of this century's most powerful dictators, representing fourteen countries. Their lives, political and social theories, and their achievements—good and bad—are carefully examined. Learn how men such as Lenin, Hitler, and Franco influenced their people and changed the world, and discover why a country will accept and support the rule of a dictator. The ideological and practical conflicts between dictatorships and democracies are carefully laid out within the pages of this book. The lives of dictators are important because they have, to a large extent, shaped much of the world we live in, and will continue to do so for generations to come. We all know about Hitler, Stalin, Castro, and Mao Tse-tung. But we also have new names, such as Kim Jong Il and Kim Jong Un, and Muammar Gaddafi and Robert Mugabe. It remains imperative that we understand as much about these men as we can—the peace of the world depends on it.

The First American Dictator John Mulder,2011-11 A multi-billionaire Senator has believed for years that the United States is slowly disintegrating, due to politicians caring more about getting re-elected than about their country. Wisconsin Senator Stevens feels that political correctness has run amok and that people have swallowed the lie that government can solve all problems. American stature worldwide has shrunk to the extent that the country is no longer considered a military threat or a reliable partner. The very existence of the once mighty and respected country is being threatened. The senator uses his vast wealth and powerful friends to get others sympathetic to his ideals elected into office. Due to the tremendous upheaval caused by the threat of Muslim extremism, Senator Stevens uses the threat to become president. When the Muslims actually do start a reign of terror, he cancels all elections and becomes The First American Dictator.

20 Dictators Currently Supported by the U.S. David Swanson,2020 The U.S. government has a habit of supporting brutal (and comically outrageous) dictators. This book offers 20 current examples, together with some background on historical patterns, some explanation for why this happens, and a proposal to put an end to it. As documented here, the U.S. government arms, trains, and funds all variety of oppressive governments, not just dictatorships. The choice to focus on dictatorships in this book was not made merely to shorten the list. Rather, that choice was made because the U.S. government so often claims to be opposing dictators through the promotion of democracy. Frequently, the atrocious conduct of a dictator is a central selling point for a new war or coup or program of sanctions. Yet neither Saddam Hussein's horrific (though fictional) removal of babies from incubators nor Manuel Noriega's cavorting in red underwear with prostitutes while snorting cocaine and praying to voodoo gods (as the New York Times solemnly informed us on December 26, 1989) rivals the moral horror or the glorious goofiness of the 20 tyrants described in this book. No one will be able to read this and believe that a primary purpose of U.S. foreign policy is to oppose dictatorships or to promote democracy. If it is important to you to try to believe that, you've probably already stopped reading.

The Dictator's Learning Curve William J. Dobson,2013-03-12 In this riveting anatomy of authoritarianism, acclaimed journalist William Dobson takes us inside the battle between dictators and those who would challenge their rule. Recent history has seen an incredible moment in the war between dictators and democracy—with waves of protests sweeping Syria and Yemen, and despots falling in Egypt, Tunisia, and Libya. But the Arab Spring is only the latest front in a global battle between freedom and repression, a battle that, until recently, dictators have been winning hands-down. The problem is that today's authoritarians are not like the frozen-in-time, ready-to-crack regimes of Burma and North Korea. They are ever-morphing, technologically savvy, and internationally connected, and have replaced more brutal forms of intimidation with subtle coercion. The Dictator's Learning Curve explains this historic moment and provides crucial insight into the fight for democracy.

My Favourite Dictators Chris Mikul,2020-07-21 “I’m personally against seeing my pictures and statues in the streets, but it’s what the people want.” — Saparmurat Niyazov, dictator of Turkmenistan Dictators may be among the worst people in history, but that doesn’t mean we shouldn’t laugh at them. In My Favourite Dictators, Chris Mikul tells the stories of eleven of the twentieth century’s most colourful and reviled human beings, including Benito Mussolini, Mao Zedong, Muammar Gaddafi, Idi Amin, Saddam Hussein and Kim Jong-il. In each case, he examines the political backgrounds to their rise to power and eventual downfall, but the focus here is on the personalities, peculiarities and private lives of these very strange men. You’ll be amazed and appalled by their effortless cruelties, voracious sexual appetites, absurd personality cults, ostentatious uniforms, promotion of dreadful art and pretensions to being great writers – not to mention their terrible taste in interior decoration.

Psi Dawn: (Literary Pocket Edition) J. Patrick Conlon,2015-12-04 Over 300 years from now, our solar system is in trouble. The earth has polarized into two powers; the United States and China. The US is governed by the most corrupt government in history. China is ruled by a ruthless dictator. The problem isn't the governments, it's an unignited sun headed for our sun. Vice-President Wellington leaves the government and creates an organization that will save the solar system. Among its members are three women, led by Wendy Winston, who develop PSI abilities. Learn to link their minds, and link to electrical power to deflect the unignited sun. J. Patrick Conlon was born an Army Air Corps/US Air Force dependent who served twenty four years in the US Army. He retired a second time after twelve years as a gifted student teacher. He is an Amateur Radio Operator and makes much of his own clothing. Mr. Conlon currently works with Volunteers at the local VA Health Care Clinic. After retiring from the VA he plans on his fourth career being a writer.

Benevolent Dictator Jim O'Donnell,2012-06 Commander Luke Shafer was suddenly confronted with the blind obedience question he had so often wrestled with throughout his military career. Now he had his answer...and to hell with the consequences. Americans have always had a natural tendency to unite in times of crisis; only this time, when they learn about the treasonous acts of the president, their unanimous response reflects total distrust of both major political parties. It's 2019-the nation watches as live coverage shows a nuclear-armed missile, targeting New York City. The intruder is intercepted and destroyed with only minutes to spare-thanks to Navy Commander Luke Shafer, acting in blatant disobedience of a presidential order. Shafer is first vilified for insubordination, but becomes a national hero after the trial of the century reveals the truth of his unhesitating defiance of a corrupt president. Thanks to his sudden rise to the spotlight, Luke becomes a presidential nominee and uses his newfound clout to fight against what he believes to be the source of much corruption-career politicians. But the question is whether his military leadership will translate to the political forum. Can Shafer forge peace from turmoil among the world's major powers and religions and repair the relationship between the government and its defiant populace? 'What could be perceived as a literary call to action during a time when Americans have lost their faith in their elected leaders and their taste for debating what the next viable step is on the global political stage, this first novel cum op-ed piece is worth a look-see.' -Publishers Weekly

Yeah, reviewing a books **Pocket Dictator** could go to your near associates listings. This is just one of the solutions for you to be successful. As understood, ability does not suggest that you have extraordinary points.

Comprehending as well as harmony even more than supplementary will offer each success. next to, the proclamation as with ease as perception of this Pocket Dictator can be taken as skillfully as picked to act.
