Resounding Transcendence Jeffers Engelhardt, Philip V. Bohlman, 2016 The chapters in 'Resounding Transcendence' are unified by a common concern for the ways sacred music effects cultural, political, and religious transitions in the contemporary world. Together, the contributors describe the ways musical transition sounds belief and action together in forms of transcendence immanent in religious practice and ritual, particularly in the texts and contexts of sacred music.

What's the Import? Kerry McSweeney, 2007 Two conspicuous features of the radical transformation of literary studies over the past three decades have been the dominance of theory-based interpretative discourse and cultural studies contextualizations. Both have greatly energized literary studies - but they have done so at a cost.

Nora Ephron Kristin Marguerite Doidge, 2022-06-07 Nora Ephron was one of the most popular, accomplished, and beloved writers in American journalism and film. Nora Ephron: A Biography is the first comprehensive portrait of the Manhattan-born girl who forged a path of her own, earning accolades and adoration from critics and fans alike. Author Kristin Marguerite Doidge explores the tremendous successes and disappointing failures Ephron sustained in her career as a popular essayist turned screenwriter turned film director. She redefined the modern rom-com genre with bestselling books such as *Heartburn* and hit movies including *When Harry Met Sally*, *Sleepless in Seattle*, and *Julie & Julia*. Doidge also examines the private life Ephron tried to keep in balance with her insatiable ambition. Based on rare archival research and numerous interviews with some of Ephron's closest friends, collaborators, and award-winning colleagues including actors Tom Hanks and Caroline Aaron, comedian Martin Short, composer George Fenton, and lifelong friends from Wellesley to New York to Hollywood—as well as interviews Ephron herself gave throughout her career—award-winning journalist and cultural critic Doidge has written a captivating story of the life of a creative writer whose passion for the perfect one-liner and ferocious drive to succeed revolutionized journalism, comedy, and film. The first in-depth biography to explore the complex themes that ran through Ephron's work and to examine why so many of them still grab our attention today.

The Unheard Prayer Joseph Sterrett, 2012-07-26 Repeatedly Shakespeare dramatizes one who prays when no one is listening, interested, or even there. This study reads the scenario parallel to early modern anxieties surrounding prayer itself, suggesting a vision of religious syncretism Shakespeare imagines for his world.

Financial Rules for New College Grads Michael C. Taylor, 2018-04-12 An indispensable guide for any recent graduate that provides simple, easy-to-follow rules for making smart personal finance choices during the first decade of one's career. Having graduated from college with a degree, even the luckiest newly minted professionals—those who are able to quickly find a full-time job and support themselves—are often burdened with thousands of dollars in student loan debt. Many of these young professionals grow up hearing that they should not invest until their debt is paid off. Others fall too readily for investment scams or the siren call of instant entrepreneurship. Still others don't invest at all. From financial

expert Michael C. Taylor comes a proposed means by which to not only pull oneself out of debt but to start building wealth from the first day on the job: adoption of modesty, skepticism, and optimism. The Financial Rules for New College Graduates explains that by embodying modesty, the opposite of status-seeking ostentation; skepticism, the ability to recognize scams, false promises, and the hyperbole and short-sightedness of financial media; and optimism, the belief that financial security can be yours with little to no risk, anyone can attain financial security. The early chapters address the role of interest rates, compound interest, and discounted cashflows, while the remaining chapters explore each of the most consequential personal finance choices that recent graduates will make in the first ten years of their career.

Fashioning James Bond Llewella Chapman,2021-09-23 *Fashioning James Bond* is the first book to study the costumes and fashions of the James Bond movie franchise, from Sean Connery in 1962's *Dr No* to Daniel Craig in *Spectre* (2015). Llewella Chapman draws on original archival research, close analysis of the costumes and fashion brands featured in the Bond films, interviews with families of tailors and shirt-makers who assisted in creating the 'look' of James Bond, and considers marketing strategies for the films and tie-in merchandise that promoted the idea of an aspirational 'James Bond lifestyle'. Addressing each Bond film in turn, Chapman questions why costumes are an important tool for analysing and evaluating film, both in terms of the development of gender and identity in the James Bond film franchise in relation to character, and how it evokes the desire in audiences to become part of a specific lifestyle construct through the wearing of fashions as seen on screen. She researches the agency of the costume department, director, producer and actor in creating the look and characterisation of James Bond, the villains, the Bond girls and the henchmen who inhabit the world of 007. Alongside this, she analyses trends and their impact on the Bond films, how the different costume designers have individually and creatively approached costuming them, and how the costumes were designed and developed from novel to script and screen. In doing so, this book contributes to the emerging critical literature surrounding the combined areas of film, fashion, gender and James Bond.

Science and Socio-Religious Revolution in India Pankaj Jain,2016-12-19 Scholars have long noticed a discrepancy in the way non-Western and Western peoples conceptualize the scientific and religious worlds. Non-Western traditions and communities, such as of India, are better positioned to provide an alternative to the Western dualistic thinking of

separating science and religion. The Himalayan Environmental Studies and Conservation Organization (HESCO) was founded by Dr. Anil Joshi in the 1970s as a new movement looking at the economic and development needs of rural villages in the Indian Himalayas, and encouraging them to use local resources in order to open up new avenues to self-reliance. This book argues that the concept of dharma, the law that supports the regulatory order of the universe in Indian culture, can be applied as an overarching term for HESCO's socio-economic work. This book presents the social-environmental work in contemporary India by Dr. Anil Joshi in the Himalayas and by Baba Seechewal in Punjab, combining the ideas of traditional and scientific ecological knowledge systems. Based on these two examples, the book presents the holistic model transcending the dichotomies of nature vs. culture and science vs. religion, especially as practiced and utilized in the non-Western society such as India. Using the example of HESCO, the book highlights that the very categories of religion and science are problematic when applied to non-Western traditions, but that Western technologies can be radically transformed through integration with regional legacies to enable the flourishing of a multiplicity of knowledge-traditions and the societies that depend upon them. It will be of interest to students and scholars of South Asian Studies, Religion, Environmental Studies, Himalayan Studies, and Development Studies.

On The Origins of Self-Service Franck Cochoy, 2015-07-24 Most marketing scholars implicitly consider independent merchants as conservative and passive actors, and study the modernization of retailing via department stores, chains and supermarkets. In this innovative study, Franck Cochoy challenges this perspective and takes a close look at the transformation of commerce through the lens of Progressive Grocer, an American trade magazine launched in 1922. Aimed at modernizing small independent grocery stores, Progressive Grocer sowed the seeds for modern self-service which spread in small retail outlets, sometimes well before the advent of the large retail spaces which are traditionally viewed as the origin of the self-service economy. The author illustrates how this publication had a highly influential role on what the trade considered to be best practice and shaped what was considered to be cutting edge. By displacing the consumer and their agency from the centre of analytic attention, this innovative book highlights the complex impact of social, technical and retailing environment factors that structure and delimit consumer freedom in the marketplace. This detailed critical analysis of the origins of self-service will be of interest to a wide variety of scholars not only in marketing and consumer research, but also in business history, sociology and cultural studies.
