Paul Rouzer

Willow, Wine, Mirror, Moon ,2015-06-20 This collection of 106 poems by 44 female Tang-era poets is the most comprehensive of its kind. Poets are organized based on their status in Tang dynasty society: women of the court, women of the household, courtesans and entertainers, and women of religion. While each poet's concerns vary with their social status, common thematic threads include heartbreak and the mysteries of the natural world. Thumbnail biographies of each poet and notes regarding individual poems complete this important collection. Jeanne Larsen has published poetry, three novels set in China, and a book of poetry translation, *Brocade River Poems: Selected Works of the Tang Dynasty Courtesan Xue Tao*. She teaches in the creative writing program at Hollins University in Roanoke, Virginia.

Selected 300 Poems of Chinese Tang Dynasty Bai Li,Fu Du,Haoran Meng,Juyi Bai,2016-08-07 Tang Dynasty (AD618-907) is one of most powerful and prosperous dynasties in Chinese history, it is also a great era of cultural development, the prosperity of poems is the most distinctive feature of Tang Dynasty, it is closely associated with the government officials admission examination of the Dynasty as the skill of writing poems is a necessary subject of such examination, so the big poets, such as Li Bai, Du Fu and Bai Juyi, etc, are also government officials, their works reflect their thoughts and feeling on official careers and real life. Due to the economic prosperity, the ordinary people also have spare time and interest in writing poems, their works are more close to real life and more natural. The poems of Tang Dynasty showcase all respects of social life of the Dynasty. By reading these poems, you will have a better understanding of the character and spirit of the Chinese.

Four Seasons of T'ang Poetry John C.H. Wu,1989-12-15 This substantial collection of Tang Dynasty poetry includes extensive commentary and notes—offering insight into this rich literary heritage. Stretching out my hand I feel the pulse of the stars, wrote Li Po, one of the most famous of the T'ang dynasty poets. This superlative study of the Golden Age of Chinese poetry, based on nearly 50,000 poems written by more than 2,000 poets, captures not only the pulse of that period but also the spirit and soul. Of this Tang blossoming, Dr. Wu says that for nearly thirteen centuries after Christ, poetry in Europe, with the exception of Juvenal, kept a death-like silence. It hibernated so long that when it woke up again in the person of Dante, the last poetic voice it could remember was that Virgil. It seems though Mother Earth purposely rocked Europe to sleep for some time that she might teach Asia to sing. These poetic interpretations, including comparisons with many Western poets such as Shakespeare and T.S. Eliot, represent a remarkable scholarly achievement.

Brocade River Poems Xue Tao,2016-06-10 Xue Tao (A.D. 768-831) was well known as a poet in an age when all men of learning were poets--and almost all women were illiterate. As an entertainer and official government hostess, she met, and impressed, many of the most talented and powerful figures of her day. As a maker of beautiful paper and a Taoist churchwoman, she maintained a life of independence and aesthetic sensibility. As a writer, she created a body of work that is by turns deeply moving, amusing, and thought-provoking. Drawing knowledgeably on a rich literary tradition, she created images that here live again for the contemporary reader of English. This bilingual edition contains about two-thirds of Xue Tao's extant poems. The translations are based on accurate readings of the originals and extensive research in both Chinese and Japanese materials. The notes at the end of the book explain allusions and place the poems in the context of medieval Chinese culture and its great literary heritage, while the opening essay introduces Xue Tao's work and describes her unusual life history.

T'ang Dynasty Poems John Knoepfle,Shouyi Wang,1985

Manifest in Words, Written on Paper Christopher M.B. Nugent,2020-10-26 This study aims to engage the textual realities of medieval literature by shedding light on the material lives of poems during the Tang, from their initial oral or written instantiation through their often lengthy and twisted paths of circulation. Tang poems exist today in stable written forms assumed to reflect their creators' original intent. Yet Tang poetic culture

was based on hand-copied manuscripts and oral performance. We have almost no access to this poetry as it was experienced by contemporaries. This is no trivial matter, the author argues. If we do not understand how Tang people composed, experienced, and transmitted this poetry, we miss something fundamental about the roles of memory and copying in the circulation of poetry as well as readers' dynamic participation in the creation of texts. We learn something different about poems when we examine them, not as literary works transcending any particular physical form, but as objects with distinct physical attributes, visual and sonic. The attitudes of the Tang audience toward the stability of texts matter as well. Understanding Tang poetry requires acknowledging that Tang literary culture accepted the conscious revision of these works by authors, readers, and transmitters. 2012 Joseph Levenson Book Prize, Pre-1900 Category, China and Inner Asia Council of the Association for Asian Studies

Three Hundred Tang Poems Peter Harris, 2009-03-31 A new translation of a beloved anthology of poems from the golden age of Chinese culture—a treasury of wit, beauty, and wisdom from many of China’s greatest poets. These roughly three hundred poems from the Tang Dynasty (618-907)—an age in which poetry and the arts flourished—were gathered in the eighteenth century into what became one of the best-known books in the world, and which is still cherished in Chinese homes everywhere. Many of China’s most famous poets—Du Fu, Li Bai, Bai Juyi, and Wang Wei—are represented by timeless poems about love, war, the delights of drinking and dancing, and the beauties of nature. There are poems about travel, about grief, about the frustrations of bureaucracy, and about the pleasures and sadness of old age. Full of wisdom and humanity that reach across the barriers of language, space, and time, these poems take us to the heart of Chinese poetry, and into the very heart and soul of a nation.

involved. This volume also comes with a brief account of rhyme schemes and tonal patterns, which had matured in Tang poems. Every poem in this book is annotated with the rhyme class and tonal pattern employed, and the readers could gain insight into how these 300 classical poems were composed. With all these features, this book can serve as an introduction to the fundamentals of classical Chinese poetry, including abundant examples showing how rhyming and tonal patterns were used in the best known classical Chinese poems.

Complete Poems of Li Shangyin Mark Obama Ndesandjo, 2020-07-06 This is the first translation into English of all of Li Shangyin's poems (Tang Dynasty 813-858 AD). Li Shangyin is one of the most fascinating of poets and this book includes historical background on the poet as well as introductory and explanatory notes by the translator. For over 1200 years, scholars have attempted to understand, let alone translate Li Shangyin's poems. At least four different schools of thought have developed. Firstly, his poems are reflections on political patrons and a failed career. Secondly, they are thinly veiled political satires of the Court and political factions. Thirdly, they are stories of actual affairs with Court ladies and Taoist priestesses. Finally, they are admirable vehicles of mystery and beauty. My interpretations include elements of all the above, but are also a synthesis of sentiments - the poet's (as I see him) and my own, of which music is a core part. This is particularly appropriate with Li Shangyin. His poetry is a labyrinth of passionate images, almost musical in sound and sequencing. They are at once ebullient, sad, loving, hateful, spiteful, sneering, and religious - a cornucopia of musical words that sing across the ages.

The Poetry and Prose of Wang Wei Paul Rouzer, 2020-07-06 Wang Wei has traditionally been considered one of the greatest of Tang dynasty poets, together with Li Bo and Du Fu. This is the first complete translation into English of all of his poems, and also the first substantial translation of a selection of his prose writings. For the first time, readers encountering his work in English translation will get a comprehensive understanding of Wang Wei's range as a poet and prose writer. In spite of the importance of Wang Wei's poetry in the history of Chinese literature, no one has attempted a complete translation of all of his surviving poems; moreover, even though he was known for his skill in composing prose pieces in the recognized genres of his day (especially as a writer of commissioned compositions), very little of his prose has been translated. This translation will enable students with limited or no knowledge of Chinese to get a full sense of Wang Wei's compositional range. Moreover, since Wang Wei was known for being a devout Buddhist, having the complete poetry available in reliable translation as well as all of the prose that is connected to the Buddhist faith will be useful to students of Chinese religion.

The Poetry of Li Yu Yü Li, Clifford Leslie Pannam, 2000 Li Yu was the last ruler of the tenth century Chinese kingdom known as the Southern Tang. The author comments: This book contains my translations of, and musings about, the surviving poetry of the ruler of an area of China during the confused period between the collapse of the Tang dynasty in 907 and the re-unification of the country under the Song in 960. What I have set out to do is to provide for an English-speaking reader with a general interest in the subject matter but who does not read Chinese some general impression of what, to a Chinese reader, is conveyed by the words or characters of the poems. [Li Yu's] poetry is widely read, much loved and the subject of lengthy scholarly analysis. Most Chinese school children will know two or three of these poems by heart. However, his work is not at all well known outside Chinese communities. This is surprising because he is a very accessible poet in the sense that his poetry is largely free of the complex, and frequently obscure, historical and literary references which bedevil the understanding of a good deal of classical Chinese poetry. He wrote directly from the heart about his emotions in simple and direct but lyrical language. There is a haunting melancholy in his verse.

The Shattered Lute Bradford Miller, 2011-04-01 ...is a collection of 200 poems written in China during the Tang dynasty [618-907 CE]. From the

introductory chapter: The Tang dynasty was the golden age of Chinese poetry and one of the high points of Chinese history. Never before or since has poetry held the literary stage in China the way it did during the Tang. Similarly, at no time before the 21st century was China as prominent in world civilization as she was during the 7th and 8th centuries CE. Never was the Chinese polity more powerful relative to its neighbors nor was Chinese society and culture more attractive to foreigners while remaining, at the same time, open to outside influences and products. Chinese poetry did not begin during the Tang, but the poetry of that era set the terms under which poetry would be written in China down to the 20th century. Something remarkable happened during these centuries: technique matured, bureaucrats morphed into poets, and what had been a concoction of song and ritual crystallized into literature once and for all.
