Poker Chip Magic Al Schneider,2013-10-03 Poker Chip Magic, is about pretty magic. Introducing some poker chips into an act can add extra color. They go well with cards and utilize some standard coin moves but look a bit different. The three routines presented use colorful chips in productions, transpositions and many color changes. The four chapters present three routines with poker chips. The first chapter is how to make your own chips with a computer and photographic paper. In one of the tricks, two playing cards are twirled about the fingers. With each twirl, a poker chip appears between the cards. The next trick is like a sponge bowl routine but done with poker chips and two cards. The two cards are crossed on the table and the poker chips disappear one at a time to appear under the cards. In the final trick, three chips are carried in a handkerchief. The handkerchief is opened and spread on a table to reveal the chips. The poker chips change color one at a time. Then they change color again. Then they change color again. This would make a great walk around trick for it resets itself and it can be performed while standing beside a table. Fold up the handkerchief and you are ready for the next table. This trick requires skill and intense practice. Palm Trees and Poker Chips Douglas Beatty,2016-06-30 Chance Daly began his gambling career pitching pennies,

playing cards, and shooting dice. Barely out of his teens, he created a church-sponsored, charity-blessed bingo and card room emporium-and ultimately an Internet gaming site. He sold those operations for a cool \$10 million and invested everything in stocks and bonds. That was the good news. The bad news was all that happened just before the stock market fell off the proverbial cliff in 2008. He lost it all, but he was determined to make it back to the top. So when Chance learns that a hurricane-ravaged hotel, casino, and golf resort in the Caribbean is available, he is on it like white on rice. But the process of due diligence required for such a purchase takes him and his associates down some very interesting paths-and into some dark places. Along the way, they run into casino cheating, money laundering, kidnapping, a host of true life characters who have their own extraordinary stories, and a murder. But who did it, when, and why are all questions that still need to be answered. Filled with gambling, romance, and humor, *Palm Trees and Poker Chips* is the stunning semiautobiographical sequel to author Douglas Beatty's *It's Always a Game*.

Online Poker - Winning Strategies Revealed Alex Master,2019-03-19 It's becoming almost as big as baseball, football, hockey, and other sporting events. Television has increased its popularity. With the Internet, it's coming into our homes at a lightning fast rate. The rage that's sweeping the nation – poker! Although the game has been around for years played in family recreation rooms, smoky bars, casinos, and even retirement homes, these days, poker has become the game of choice for hundreds of thousands of people. Family game night used to mean

getting out the Monopoly board and battling over Park Place and Broadway. Now, family game night is more likely to be characterized by breaking out the poker chips and battling each other for the best hands. More and more people are talking about their bad beats, their great hands, and their prowess for play. Popular on college campuses, fraternal clubs, and even retirement homes, poker has become our new game of chance, and our new game of choice. What has led to the rise of this game? Most likely, it has been television and the media. On any given evening, the average person can flip on the TV set and find a poker game being aired. The World Series of Poker, Celebrity Poker Showdown, and Ultimate Poker Showdown are rising in the ratings as we tune in to see professionals battle it out and compare our play to theirs. Nearly every home these days has at least one computer. The Internet has become our lifeline, in ways, for information, contact with the outside world, and – yes – our portal to the world of poker beyond our kitchen table. Now ordinary people can log on and play poker with people other than our parents, kids, and friends. Many professional players sponsor online website where they are required to play allowing Average Joe to match his poker skills with the likes of Howard Lederer and Chris Ferguson. Perhaps the biggest rise in poker popularity – specifically online poker – stems from one man's \$40 online buy-in leading to the Cinderella story of the industry. Chris Moneymaker qualified for The World Series of Poker main event through a small buy-in satellite event at Poker Stars. At the Series, he outlasted a field of 839 entrants – the largest in World Series of Poker history at the time. He pitted heads against some of the most well-known poker professionals in the world – and won! Moneymaker's first-place finish netted him \$2.5 million dollars, which wasn't bad considering it was his first live tournament. Many people looked at Moneymaker's win as monumental. After all, he was just an average guy. He could be anyone's next door neighbor or co-worker, and he went up against the pros and won. Chris Moneymaker opened the door for everyday people to dream about being the next professional poker player. In fact, the 2004 World Series featured triple the number of players over the 2003 turnout. At least four players in the WSOP final table won their entry through an online card room. Like Moneymaker, 2004 winner Greg "Fossil man" Raymer also won his entry at the Poker Stars online card room. There are a myriad of tips and tricks for playing the game of poker. Everyone seems to have an opinion on the best way to play the game. True, poker is a game of chance, and many would argue that there really is no secret to winning the game. However, there is a best way to play. As Kenny Rogers sang in "The Gambler", you've got to know when to hold 'em and know when to fold 'em. Know when to walk away, and know when to run. There are many variations on the game of poker, but the one most popular today has got to be Texas Hold 'Em. It's a relatively simple game, but like all poker, it can change with the deal of every card. In this book, we'll explore different ways to play the game online to maximize on your buy-in. We'll touch on tournaments as well. Online poker can be fun and even profitable when you play smart and follow the advice of those in the know. Whether you're playing for fun or for money, the game can easily become an obsession, so we've also given you information about getting help with a gambling problem. We won't make you a professional – that's up to you! But we will try to give you some food for thought when the cards are dealt and it's time to bet. So, let's talk poker! The Poker Player Game Strategies for Beginners Art Stovall,2015-10-10 The contents of this book serve as anecdote to the widely held views that the gambler is always the best chip manager. Employing the rules of the poker player game and strategies in this book will enable the novice player to become a chip manager that rivals even the professional who plays the poker game as a sport. The player that uses an aggressive betting attack strategy designed a: to counter the gambler's inappropriate aggression and b: to change the sequence of a gambler's strategy executions, which should cause gamblers to throw their starting cards in the dead card stack. Strategies in this book, when applied successfully, allows a player the privilege of taking a principal position that provides the advantage of the last betting action. These pre and post flop continuation betting strategies reduce gambling opponents value range assessment for a positive chip-gathering effort. Though there are more than one gambler in a game; these rules of engagement are presented for beginning players to improve their potential or profits. The difference between the gamblers and players' are that gamblers take unnecessary risk without regard for value range assessments for positive chip-gathering efforts.
