Alan Nathan Hoffman, Natalia Gold

Restaurant Brands International Alan Nathan Hoffman, Natalia Gold, 2017 In 2010, 3G Capital merged Burger King and Tim Hortons to create Restaurant Brands International (RBI). In 2014, RBI acquired Popeyes Louisiana Kitchen. Although RBI's three restaurant chains had strong brand name recognition with extensive franchise networks, none were market leaders in the red ocean of quick service restaurants (QSR). Burger King lagged McDonald's in the burger segment; Tim Hortons came fourth in the coffee and snack segment; and Popeyes ranked third in the chicken segment. RBI was focused on expanding its international reach, developing efficient franchise partnerships and producing cost efficiencies among its subsidiaries. But in developed economies, the mature QSR market was threatened by saturation, the trend toward healthier foods and lower unemployment rates. Further, in developing economies, such as China and India, RBI was threatened by tax regulations protecting its franchises and brand names, as well as offerings centered on North American tastes. Finally, RBI was saddled with high long-term debt. Among so many uncertainties, how could RBI grow its market position?

Dare to Serve Cheryl Bachelder,2015-03-16 “A new perspective on servant leadership—challenging us to bring both courage and humility to the table—for the sake of the people and the enterprise.” —John C. Maxwell, New York Times- bestselling author In this updated edition of Dare to Serve, former Popeyes CEO Cheryl Bachelder shows that leading by serving is a rigorous and tough-minded approach that yields the best results. When she was named CEO of Popeyes in 2007, the stock price had slipped from \$34 in 2002 to \$13. The brand was stagnant, the team was discouraged, and the franchisees were just plain angry. Nine years later, restaurant sales were up 45 percent, restaurant profits had doubled, and the stock price was over \$61. Servant leadership is sometimes derided as soft or ineffective, but this book confirms that challenging people to reach a daring destination, while

treating them with dignity, creates the conditions for superior performance. The second edition of this bestselling book includes Bachelder's post-Popeyes observations and new examples of how you can switch your leadership from self to serve. Ever engaging and inspirational, Bachelder takes you firsthand through the transformation of Popeyes and shows how anyone, at any level can become a Dare-to-Serve leader. "Extraordinary! Dare to Serve describes the kind of leadership so desperately needed in the 21st century. A powerful blend of courage and humility, Cheryl Bachelder's engaging story offers a clear path for leaders to follow, and what makes her message so compelling is the tremendous results she's produced. I highly recommend this book."

The Filth Grant Morrison,Chris Weston,2004 From the twisted imaginations of Grant Morrison and Chris Weston comes weirdness of the deepest level.

Beyond the Hallowed Sky Ken MacLeod,2023-03-21 Mathematician Lakshmi Nayak receives a letter from her future self about faster-than-light travel. The equations work, and the letter itself seems to prove the possibility will someday be realized. But her paper on the topic is fiercely criticized, and she's warned away by a sinister Alliance agent. After defecting to the Union, she gets an unexpected offer: "I can build your ship." Shipbuilder John Grant learns of a secret project, which unknown to the world has been traveling to the stars for decades: Black Horizon. Biologist Emma Hazeldene works for Black Horizon on an alien world, Apis, whose life has clearly come from Earth, investigating rock formations that are thought to be an alien, crystal-like intelligence. But refugees exiled to a hard life in the wilds of Apis already know more than the scientists have ever suspected. Everything

changes when the rocks wake up, with dire results. As secrets emerge and rival powers seize advantage, three worlds are shaken to their foundations—and all involved have to fight for their lives, and their futures. Science fiction legend Ken MacLeod begins a new space opera trilogy by imagining humankind on the precipice of discovery—the invention of faster-than-light travel unlocks a universe of new possibilities, and new dangers.
