Historic Bottle and Jar Closures Nathan E Bender,2016-07 This book presents a much-needed review of commercial closures for bottles and jars used in America prior to World War II. Archaeological attention to commercial closures has been rather limited. This is surprising given that data derived from bottles and jars pertain to a wide range of studies, including chronological control, trade, site functions, and methods of manufacture. Closures are an integral part of these studies, becoming particularly important after a spectacular variety of metal and glass caps in the late nineteenth and early twentieth centuries. This volume-provides a comprehensive review, including detailed closure definitions, as well as glass finishes;-discusses the history of the development and impact of the hermetic seal in commercial closures;-will appeal to students, professionals, and collectors studying this common historic artifact class.

Capsters Sherri Haab,Courtney Johnson,Klutz Press,2005-08 Everything you need to transform boring bottle caps into awesome art is included with this book. Finished projects make terrific backpack dangles or fridge magnets. Whatever you choose, this craft really makes your artwork POP!

Beer Crafts Shawn Gascoyne-Bowman,2013-05-14 While author and crafter extraordinaire Shawn Bowman would like to think she came up with the idea on her own, inspiration really came from her eight-year-old daughter, who spent a summer obsessed with making jewelry out of her parents' discarded bottle caps. Finding the note on her desk, "My crafting involves you to

open a beer,” the author had what can only be called an epiphany: “ALL crafting should involve me opening a beer.” She raised her daughter’s allowance, and set down to writing this book. But first, she opened a beer. Beer Crafts shows you how to repurpose not just the caps but also labels, bottles, and even cans into useful, hip, and quirky items — from attention-getting (if not downright sexy) garter belts to the classic crochet beer can hat, to beer bottle tags, to refrigerator magnets, and more. The projects are super fun, easy to make (even for a first-time crafter), and most of the supplies are things you probably already have on hand or chilling in the fridge. Beer Crafts has jewelry and accessories for guys and gals. From cowboy hats made from beer case boxes and masculine bottle label belt buckles and wallets to flowery bottle top flip-flops and cute-as-a-button beer cap headbands, there’s a little something for everyone — even beer can jackets for the family dog! Beer bottles themselves get dressed up with insulating crochet cozies and fancy charm necklaces, ending all arguments over whose drink is whose, when they’re all clearly marked “mine”! There are even funky home decor projects, including candle holders, patio lanterns, bird feeders, and a memo board. And with plenty of beer quotes and trivia, Beer Crafts is recommended bar reading for those who don’t craft. Tie one on — then braid it, glue it, and embellish it — with Beer Crafts.

Bottle Cap Boys Rita Williams-Garcia, 2015 Tap dancing on sidewalks, especially in the city’s French Quarter, is a New Orleans tradition as familiar to some as Jazz, Creole and Cajun food and Mardi Gras. For generations, Black youngsters have danced for tourists on the streets of New Orleans some because they enjoy it, but many others to earn money for their families. Instead of dancing in store bought tap shoes, young boys and girls stamp and grind bottle caps into the soles of their sneakers until the bottle caps stay firmly in place at the toe. And they don’t miss a beat! Clickity-clack, Clack.....tipity-tap, tap tap.....tipity-

tap, tap In Bottle Cap Boys Dancing on Royal Street, award-winning author Rita Williams-Garcia introduces two bottle cap dancers, brothers Randy and Rudy. Through rich and upbeat rhyme, Williams-Garcia gives voice to the dancing and the youngsters who keep this unique New Orleans tradition alive. Damian Ward's exuberant illustrations are perfect complements to Williams Garcia's perfectly pitched poetry.

Soda Politics Marion Nestle,2015-09-07 Sodas are astonishing products. Little more than flavored sugar-water, these drinks cost practically nothing to produce or buy, yet have turned their makers--principally Coca-Cola and PepsiCo--into a multibillion-dollar industry with global recognition, distribution, and political power. Billed as refreshing, tasty, crisp, and the real thing, sodas also happen to be so well established to contribute to poor dental hygiene, higher calorie intake, obesity, and type-2 diabetes that the first line of defense against any of these conditions is to simply stop drinking them. Habitually drinking large volumes of soda not only harms individual health, but also burdens societies with runaway healthcare costs. So how did products containing absurdly inexpensive ingredients become multibillion dollar industries and international brand icons, while also having a devastating impact on public health? In *Soda Politics*, the 2016 James Beard Award for Writing & Literature Winner, Dr. Marion Nestle answers this question by detailing all of the ways that the soft drink industry works overtime to make drinking soda as common and accepted as drinking water, for adults and children. Dr. Nestle, a renowned food and nutrition

policy expert and public health advocate, shows how sodas are principally miracles of advertising; Coca-Cola and PepsiCo spend billions of dollars each year to promote their sale to children, minorities, and low-income populations, in developing as well as industrialized nations. And once they have stimulated that demand, they leave no stone unturned to protect profits. That includes lobbying to prevent any measures that would discourage soda sales, strategically donating money to health organizations and researchers who can make the science about sodas appear confusing, and engaging in Corporate Social Responsibility (CSR) activities to create goodwill and silence critics. Soda Politics follows the money trail wherever it leads, revealing how hard Big Soda works to sell as much of their products as possible to an increasingly obese world. But Soda Politics does more than just diagnose a problem--it encourages readers to help find solutions. From Berkeley to Mexico City and beyond, advocates are successfully countering the relentless marketing, promotion, and political protection of sugary drinks. And their actions are having an impact--for all of the hardball and softball tactics the soft drink industry employs to maintain the status quo, soda consumption has been flat or falling for years. Health advocacy campaigns are now the single greatest threat to soda companies' profits. Soda Politics provides readers with the tools they need to keep up pressure on Big Soda in order to build healthier and more sustainable food systems.
