Pop-Up Books Nancy Larson Bluemel,Rhonda Harris Taylor,2012-02-02 A convincing explanation of why interactive or movable books should be included in the library collection that documents their value as motivational instructional tools—in all areas of the school curriculum, across many grade levels. Pop-up books possess universal appeal. Everyone from preschoolers to adults loves to see and tactilely experience the beautiful three-dimensional work of Robert Sabuda, David A. Carter, and other pop-up book creators. Sabuda himself was inspired to become a pop-up book artist after experiencing the 1972 classic pop-up *The Adventures of Super Pickle*. The effect of these movable books on young minds is uniquely powerful. Besides riveting children's attention,

pop-up books can also help build motor skills, teach cause and effect, and develop spatial understanding of objects. Based on their direct experience and many presentations to teachers and librarians, the authors have provided template lesson plans with curriculum and standards links for using the best pop-up books currently available in the instructional program of the school. The book also includes profiles of the most notable authors, a history of the format, definitions of terms such as flap book and paper engineer, and information on how to create movable books. Librarians will find the section regarding collection development with the format—how and where to acquire them, proper storage methods—and the annotated listing of the authors' 50 favorite pop-ups extremely helpful.

Pavilions, Pop Ups and Parasols ,2015-06-02 Around the world, a new architectural form is emerging. In public places a progressive architecture is being commissioned to promote open-ended, undetermined, lightly programmed or un-programmed interactions between people. This new phenomenon of architectural form – Pavilions, Pop-Ups and Parasols – is presaged by rapidly changing social relationships flowing from social media such as Facebook, Twitter and Instagram. The nexus between real and virtual meeting is effectively being reinvented by innovative and creative architectural practices. People meet in new and responsive ways, architects meet their clients in new forums, knowledge is ‘met’ and achieved in new and interactive frameworks. It contrasts bluntly with the commercially structured interactions of shopping malls and the increasingly deliberate interactions available in cultural institutions. These experiences imbue a new type of client; casually engaged, flocking, hacking, crowd funding and self-helping. Contributors include: Rob Bevan, Pia Ednie-Brown, Roan Ching-Yueh, Dan Hill, Martyn Hook, Minsuk Cho, Andrea Kahn, Felicity Scott, Akira Suzuki Contributing architects include: Alisa Andrasek/Biothing, Peter Cook/CRAB studio, CJ Lim/Studio 8, Tom Holbrook/5th Studio, Matthias Hollwich/HWKN, Mamou-Mani Architects, Benedetta Tagliabue/EMBT

Scott Kelby's Digital Photography Boxed Set, Parts 1, 2, 3, and 4 Scott Kelby, 2012-04-26 With over 800 of the most closely guarded photographic “tricks of the trade,” this boxed set—consisting of all four parts of Scott Kelby’s best-selling series, *The Digital Photography Book*—is the ultimate resource for any one who wants to shoot dramatically better-looking, sharper, more colorful, more professional-looking photos every time. Scott Kelby, the man who changed the “digital darkroom” forever with his groundbreaking, best-selling *The Photoshop Book for Digital Photographers*, now tackles the most important side of digital photography—how to take professional-quality shots using the same tricks today’s top digital pros use (and it’s easier than you think). These aren’t books of theory, full of confusing jargon and detailed concepts. These are books on which button to push, which setting to use, and when to use it. Each page covers a single concept on how to make your photography better. Every time you turn the page, you’ll learn another pro setting, tool, or trick to transform your work from snapshots into gallery prints. If you’re tired of shots that look “okay,” and if you’re tired of looking in photography magazines and thinking, “Why don’t my shots look like that?” then these are the books for you.

Pop up and Go Carl Leckey, MBE, 2012-06-19 Carl Leckey is the youngest of three children. He grew up in wartime Britain and loved the excitement of having Italian

prisoners of war in the area. His time as a kid was spent collecting shrapnel and clambering around the shipwrecks on the shore of the Mersey. One of his favourite places was his grandfather's allotment where old World War One comrades would meet in the garden shed to share a drink and a smoke. Carl served on the Mersey tugs for 15 years with a break for two years' National Service from the age of 19 to 21. On returning to the tugs he rose to the rank of Mate, before being made redundant at the age of 30 in 1968 when the company was taken over. He then worked as a Leading Lock Keeper for British Waterways in Cheshire for 28 years until ill health brought premature retirement. He was a Union Steward Convenor, and Worker Representative on the Company Pension Fund Management Committee. In 1985 he was awarded a Winston Churchill Travelling Fellowship to study Ports and Harbour Services on the Mississippi and Yangtze Rivers in the USA and China. In 1995 he was awarded an MBE for services to British Waterways. After completing a writer's course with the Open College of Art Carl began writing novels on a variety of subjects publishing in New Zealand, United Kingdom and United States of America. Until failing health due mainly to arthritis Carl and his wife Rose travelled the world extensively visiting friends and family in a number of countries. Pop up and Go is the second book the author has written for children. The story was inspired by a news item the author heard while travelling through the USA. Most of Carl's books are also available as an E book. See his other books and reviews by visiting Carl's website. www.carlleckey.co.uk

The Pop-Up Anthology 2014 Janice Windle (editor), 2015-05-03 170 poems by 68 of the writers who have read their work at the POP UP POETRY events (later renamed the 1000 MONKEYS events) at the Bar Des Arts Wine Bar in Guildford. You'll find rants and sonnets, haiku and prose poems, free verse, found poems, rhyming slam poems and love-songs, all co-existing amicably in these

pages, just as they do on our platform. The line between page poems and performance poems is ignored here, and the mix includes poems by frequently published poets and writers, as well as rappers, stand-up poets, ranters and song-writers, all of them in love with words. This book adds another dimension to the art of the spoken word, just as performance adds a different dimension to the written page.

POP-UP HOTEL REVOLUTION, the architectural innovation about to come in the hotel industry Joseph Di Pasquale, Chiara Butta, Paola Zatti, 2015 WHICH IS MOVING: PEOPLE OR ARCHITECTURE? In an era where nomadism is the keyword that relates people to the rest of the world, architecture is seeking for a concrete response to the recent needs, result of the rise of mobility and worldwide travels. The proposal of new modular structures for the hospitality market defines the tendency to think movable, modular, flexible.
