**Sea Characters** Hal Graham, 2018-09-19 NOT your average book about sea animals, but a \*magical\* learning book! Deep sea animals in this book will come alive in breathtaking 3D animation to charm and teach your child about dolphins, sea turtles, the big blue whales, and more! These animals may look just normal on the physical book, but they leap out of the page when you scan them with the free Holo Popups app (see directions below). Knowledge has never been more fun! It may be the stunning visual and the cool technology that first hook the kids, but the best

part about Sea Characters is that it fosters real learning -- which is our biggest intent behind this book series. We added vivid voiceovers, subtitles, and sound effects so that the children are motivated and empowered to learn vocabulary and spelling on their own. Holo Popups are the modern pop-up books: they aim to inspire curiosity, imagination, and creativity, and to instill in your child a love for reading and learning. Don't be surprised if your child starts to school you on sea animal facts: Did you know that the blue whale is already 25 feet long at birth? Any art fans? The artwork in this book series is inspired by Mary Blair, a children's art pioneer who was a concept artist for early Disney movies. The artwork features popping colors and enchanting characters that your kids will adore. The cuties in this book include: dolphin, blue crab, jellyfish, killer whale, seahorse, sea turtle, octopus, hammerhead, and blue whale! We made the book to be versatile: you can sit back and enjoy the AR experience with your child, or turn off the voiceover and read to them. Feel the satisfaction of holding a beautiful physical book in your hands and the magic of watching it come to life right in front of you and your child. Directions for Enjoying Our AR Children's Book: 1. Download the Holo Popups app on your device (available on the App Store or Google Play). 2. Open the app and turn on your sound. 3. Open the book and point the spinning cursor over the illustration. 4. A sea animal lands on your page and puts on a magic show!

*Continental Intraplate Earthquakes* Seth Stein, Stéphane Mazzotti, 2007 This volume brings together a sampling of research addressing issues of continental intraplate earthquakes, including a core of papers from special sessions held at the spring 2004 Joint Assembly of the American and Canadian Geophysical Unions in Montreal. Papers address the broad related topics of the science, hazard, and policy issues of large continental intraplate earthquakes in a worldwide context. One group of papers addresses aspects of the primary scientific issue--where are these earthquakes and what causes them? Answering this question is crucial to determining whether they will continue there or migrate elsewhere. A second group of papers addresses the challenge of assessing the hazard posed by intraplate earthquakes. Although it may be a very long time before the scientific issues are resolved, the progress being made is helping attempts to estimate the probability, size, and shaking of future earthquakes, and the uncertainty of the results. A third group of papers explores the question of how society should mitigate the possible effects of future large continental intraplate earthquakes. Communities around the world face the challenge of deciding how to address this rare, but real, hazard, given the wide range of other societal needs. Continental intraplate earthquakes will remain a challenge to seismologists, earthquake engineers, policy makers, and the public for years to come, but significant progress toward understanding and addressing this challenge is now being made.--Publisher's website.

*Pavilions, Pop Ups and Parasols* , 2015-06-02 Around the world, a new architectural form is emerging. In public places a progressive architecture is being commissioned to promote open-ended, undetermined, lightly programmed or un-programmed interactions between people. This new phenomenon of architectural form – Pavilions, Pop-Ups and Parasols – is presaged by rapidly changing social relationships flowing from social media such as Facebook, Twitter and Instagram. The nexus between real and virtual meeting is effectively being reinvented by innovative and creative architectural practices. People meet in new and responsive ways, architects meet their clients in new

forums, knowledge is 'met' and achieved in new and interactive frameworks. It contrasts bluntly with the commercially structured interactions of shopping malls and the increasingly deliberate interactions available in cultural institutions. These experiences imbue a new type of client; casually engaged, flocking, hacking, crowd funding and self-helping. Contributors include: Rob Bevan, Pia Ednie-Brown, Roan Ching-Yueh, Dan Hill, Martyn Hook, Minsuk Cho, Andrea Kahn, Felicity Scott, Akira Suzuki Contributing architects include: Alisa Andrasek/Biothing, Peter Cook/CRAB studio, CJ Lim/Studio 8, Tom Holbrook/5th Studio, Matthias Hollwich/HWKN, Mamou-Mani Architects, Benedetta Tagliabue/EMBT
