Jessica Teich, Brandel France de Bravo

The Portable Pediatrician for Parents Laura W. Nathanson, A step-by-step guide to the first five years of life for parents who want the most balanced coverage of behavioral and medical issues -- from the pen of a highly esteemed pediatrician.

The Portable Pediatrician, Second Edition Laura W. Nathanson,2009-10-06 Dr. Laura Nathanson wrote The Portable Pediatrician to help parents find the joy in parenting and gain the confidence to quickly and easily assess their child's development, medical symptoms, and behavioral problems. Parents can't always visit their pediatrician every time they have a question, but fortunately with this book they have the next best thing. The Portable Pediatrician, one of the few child-care books written by a practicing pediatrician, offers authoritative and practical advice on: Keeping up with, or even one step ahead of, your child's rapidly changing needs Setting limits before the one year birthday Planning the arrival of the next baby in the family Coping with your own as well as with your child's separation anxiety Dealing with the four I's: illnesses, injuries, immunizations, and insurance coverage Getting prompt medical attention for serious crises -- and what to do in the meantime Preventing childhood obesity and eating disorders later Confronting complex behavior and medical problems, including ADD, autism, asthma, oppositional behavior (including potty resistance)

Trees Make the Best Mobiles Jessica Teich,Brandel France de Bravo,2007-04-01 Books like Simplify Your Life and Don't Sweat the Small Stuff have encouraged millions of readers to slow down and enjoy life more. Now, Jessica Teich and Brandel France de Bravo help new parents- who barely have time to return a phone call or wash a sock- learn to do less, listen more, and spend focused, fruitful time with their children. Practical and fun to read, Trees Make the Best Mobiles urges parents to treat every task-even diapering and feeding-as a chance to connect with their child, and gives calming advice about hot-button issues from pacifier use to temper tantrums. Parents will be relieved to discover that they don't have to buy lots of stuff-a tree outside a baby's window can serve as a mobile-or shuttle kids from one activity to another. In fact, in today's hectic, high-speed world, children need less stimulation and more unhurried interaction with the people who matter most. The authors call their approach present parenting, because they believe being present in the moment, without resentment or distraction, is the greatest present any parent can give.

Would you and your baby both sleep better if you shared a bed? How old is too old for breastfeeding? What is a father's role in nurturing a newborn? How does early attachment foster a child's eventual independence? Dr. Bill and Martha Sears -- the doctor-and-nurse, husband-and-wife team who coined the term attachment parenting -- answer these and many more questions in this practical, inspiring guide. Attachment parenting is a style of parenting that encourages a strong early attachment, and advocates parental responsiveness to babies' dependency needs. The Attachment Parenting Book clearly explains the six Baby B's that form the basis of this popular parenting style: Bonding, Breastfeeding, Babywearing, Bedding close to baby, Belief in the language value of baby's cry, and Beware of baby trainers. Transcendent Parenting Sun Sun Lim,2019-11-01 Whether members of the family are headed to school or work, smartphones accompany family members throughout the day. The growing sophistication of mobile communication has unleashed a proliferation of apps, channels, and platforms that link parents to their children and the key institutions in their lives. While parents may feel empowered by their ability to provide their children assistance with a click on their smartphone, they may also feel pressured and overwhelmed by this need to always be on call for their children. This book focuses on the phenomenon of transcendent parenting, where parents actively use technology to go beyond traditional, physical practices of parenting. In drawing on the experiences of intensely digitally-connected families in Singapore to tell a global story, Sun Sun Lim argues how transcendent parenting can embody and convey, intentionally or not, the parenting priorities in these households. Chapters outline how parents exploit mobile connectivity to transcend the physical distance between themselves and their children, the online and offline social interaction environments, and the timelessness of seemingly ceaseless parenting. Transcendent Parenting further explores how mobile communication allows parents to be more involved than ever in their children's lives, leaving readers to question whether or not parents have become too involved as a result. With its clear discussions of the effects of transcendent parenting on parents' wellbeing and children's personal development, Transcendent Parenting will appeal to a broad audience of readers, from scholars, educators and policy makers to parents and young people across the globe.

Additionally, it is fun to use the toilet because they have a toilet seat that they like to go to, such as a musical one or one with common characters on it, and this will motivate them as well to use the toilet. We understand why and also have created this book on toilet chairs and everything that you'll require to learn about them too, and that means you can pick the one which is most beneficial for your son or daughter.

The World Is Our Classroom Jennie Germann Molz,2021-02-23 How travelling the world allows new ways to educate children and perform family life on the move A growing number of families are selling their houses, quitting their jobs, and taking their children out of traditional school settings to educate them while traveling the globe. In The World is Our Classroom, Jennie Germann Molz explores the hopes and anxieties that drive these parents and children to leave their comfortable lives behind out of a desire to live the "good life" on the move. Drawing on interviews with parents and stories from the blogs they publish during their journeys, as well as her own experience traveling the world with her ten-year-old son, Germann Molz takes us inside a fascinating life spent on trains, boats, and planes. She shows why many parents--disillusioned with standard public schooling--believe the world is a child's best classroom. Rebelling against convention, these parents combine technology and travel to pursue a different version of the good life, one in which parents can work remotely as "digital nomads," participate in like-minded communities online, and expose their children to the risks, opportunities, and life lessons that the world has to offer. Ultimately, Germann Molz sheds light on the emerging phenomenon of "worldschooling," showing that it is not just an alternative way to educate children, but an altogether new kind of mobile lifestyle. The World is Our Classroom paints an extreme portrait of twenty-first century parenting and some families' attempts to raise global citizens prepared to thrive in the uncertain world of tomorrow.
