**Microwave Effects on DNA and Proteins** Chris D.

Geddes,2017-03-09 For several years, researchers have been reporting the effects of microwave radiation/heating on both the structure and function of DNA, RNA and proteins. For the most part, favourable accelerated biological functions are observed as microwave induced heating occurs, but other not-so favourable effects are also observed, such as denaturation, fragmentation and the so called and ill-explained, non-thermal microwave effects. This volume, the first of its kind, brings researchers together from around the world to discuss their current findings and thinking on the effects of Microwaves on Biological systems, particularly DNA, RNA and proteins, in the form of contributed edited chapters.

*Judaism, Christianity, and Islam* Sander L. Gilman,2014-11-01  
Islam, Christianity, and Judaism share several common features, including their historical origins in the prophet Abraham, their belief in a single divine being, and their modern global expanse. Yet it is the seeming closeness of these “Abrahamic” religions that draws attention to the real or imagined differences between them. This volume examines Abrahamic cultures as minority groups in

societies which may be majority Muslim, Christian, or Jewish, or self-consciously secular. The focus is on the relationships between these religious identities in global Diaspora, where all of them are confronted with claims about national and individual difference. The case studies range from colonial Hong Kong and Victorian London to today's San Francisco and rural India. Each study shows how complex such relationships can be and how important it is to situate them in the cultural, ethnic, and historical context of their world. The chapters explore ritual practice, conversion, colonization, immigration, and cultural representations of the differences between the Abrahamic religions. An important theme is how the complex patterns of interaction among these religions embrace collaboration as well as conflict—even in the modern Middle East. This work by authors from several academic disciplines on a topic of crucial importance will be of interest to scholars of history, theology, sociology, and cultural studies, as well as to the general reader interested in how minority groups have interacted and coexisted. "This is a groundbreaking collection of original, learned, and cutting-edge essays on various aspects of the three major monotheistic religions in modern times. The subjects of the essays range across the globe, from Hong Kong

and South Asia to Victorian Britain and Weimar Germany, and teach us to see each tradition, and all three traditions together, in new and original ways. A distinctive contribution.” —Steven T. Katz, Boston University “Judaism, Christianity, and Islam is remarkable for bringing together accessible scholarly essays, each with keen insight, exploring the diverse ‘Abrahamic’ cultures and their complex interactions. As the human landscape of Europe continues to evolve, this superb series of engagements with the past and present is an indispensable guide.” —Michael Berkowitz, University College London “Gilman remains an unparalleled expert at identifying cutting-edge, interdisciplinary research. The essays in this superb volume provide urgently needed comparative and theoretical examinations of the constructed natures of Christianity, Islam, and Judaism, and the complex and challenging relationships they engender.” —Lisa Silverman, University of Wisconsin-Milwaukee

*Shadowless* Hasan Ali Toptas, 2017-04-20 'A knotty, postmodern tale. The quicksilver narrative slips between dream, memory and reality ... A beguiling enigma' Financial Times In an Anatolian village forgotten both by God and the government, the muhtar has been elected leader for the sixteenth successive year.

When he staggers to bed that night, drunk on raki and his own well-deserved success, the village is prosperous. But when he is woken by his wife the next evening he discovers that Nuri, the barber, has disappeared without a trace in the dead of night, and the community begins to fracture. In a nameless town far, far away, Nuri walks into a barbershop as if from a dream, not knowing how he has arrived. Try as he might, he cannot grasp the strands of his memory. The facts of his past life shift and evade him, and as other customers come and go, they too struggle to recall how they got there... Blurring the lines of reality to terrific effect, *Shadowless* is both a compelling mystery and an enduring evocation of displacement from one of the finest, most exciting voices in Turkish literature today.

**Cities, Peasants and Food in Classical Antiquity** Peter

Garnsey, 1998 Sixteen essays in the social and economic history of the ancient world, by a leading historian of classical antiquity, are here brought conveniently together. Three overlapping parts deal with the urban economy and society, peasants and the rural economy, and food-supply and food-crisis. While focusing on

eleven centuries of antiquity from archaic Greece to late imperial Rome, the essays include theoretical and comparative analyses of food-crisis and pastoralism, and an interdisciplinary study of the health status of the people of Rome using physical anthropology and nutritional science. A variety of subjects are treated, from the misconduct of a builders' association in late antique Sardis, to a survey of the cultural associations and physiological effects of the broad bean.

**Mechatronics and Robotics Engineering for Advanced and Intelligent Manufacturing** Dan Zhang,Bin Wei,2016-08-22 Featuring selected contributions from the 2nd International Conference on Mechatronics and Robotics Engineering, held in Nice, France, February 18–19, 2016, this book introduces recent advances and state-of-the-art technologies in the field of advanced intelligent manufacturing. This systematic and carefully detailed collection provides a valuable reference source for mechanical engineering researchers who want to learn about the latest developments in advanced manufacturing and automation, readers from industry seeking potential solutions for their own applications, and those involved in the robotics and mechatronics industry.

**The Gospel of the Flying Spaghetti Monster** Bobby

Henderson,2010-04-07 Can I get a “ramen” from the congregation?! Behold the Church of the Flying Spaghetti Monster (FSM), today’s fastest growing carbohydrate-based religion. According to church founder Bobby Henderson, the universe and all life within it were created by a mystical and divine being: the Flying Spaghetti Monster. What drives the FSM’ s devout followers, a.k.a. Pastafarians? Some say it’s the assuring touch from the FSM’s “noodly appendage.” Then there are those who love the worship service, which is conducted in pirate talk and attended by congregants in dashing buccaneer garb. Still others are drawn to the Church’s flimsy moral standards, religious holidays every Friday, or the fact that Pastafarian heaven is way cooler: Does your heaven have a Stripper Factory and a Beer Volcano? Intelligent Design has finally met its match—and it has nothing to do with apes or the Olive Garden of Eden. Within these pages, Bobby Henderson outlines the true facts– dispelling such malicious myths as evolution (“only a theory”), science (“only a lot of theories”), and whether we’re really descended from apes (fact: Humans share 95 percent of their DNA with chimpanzees, but they share 99.9 percent with pirates!) See what impressively credentialed top scientists have to say: “If Intelligent Design is taught in schools,

equal time should be given to the FSM theory and the non-FSM theory.” –Professor Douglas Shaw, Ph.D. “Do not be hypocritical. Allow equal time for other alternative ‘theories’ like FSMism, which is by far the tastier choice.” –J. Simon, Ph.D. “In my scientific opinion, when comparing the two theories, FSM theory seems to be more valid than classic ID theory.” –Afshin Beheshti, Ph.D. Read the book and decide for yourself!

**À nos démons intimes** J.M. Darhower, 2020-04-23 Ignazio Vitale n'est pas un homme bon. Je le soupçonne dès notre première rencontre, je sens le danger qui entoure cet homme. Il a une façon d'exiger l'attention, de prendre le contrôle, de savoir ce que je pense avant même que je le sache. C'est à la fois inquiétant et attirant. C'est sombre et redoutable. C'est tout ce que j'ai toujours voulu, et pourtant la dernière chose dont j'ai besoin. Une obsession. Il ne lui faut pas longtemps pour m'attirer dans sa toile, me charmer jusqu'à dans son lit et me prendre au piège de sa vie, une vie dont j'ignore tout avant qu'il soit trop tard. Il a des secrets, des secrets que je ne peux percer et qui m'empêchent de partir, même si je le supplie de me laisser m'en aller. Je l'aperçois

parfois dans ses yeux, cette noirceur terrifiante et fascinante à la fois. C'est un monstre dans un emballage somptueux, et ce que je découvre en le démasquant change absolument tout. J'ai envie de le haïr. Parfois même, j'y parviens. Et pourtant, ça ne m'empêche pas de l'aimer.

*Standards for the Management of Open Fractures* Simon Eccles, Selvadurai Nayagam, 2020 *Standards for the Management of Open Fractures* provides an evidence-based approach for the management of open fractures, focussing on lower limb injuries. It builds on and expands the NICE Guidelines to provide a practical approach with supporting evidence. The new edition has been extensively updated and expanded to include key aspects of management, ranging from setting up an orthoplastic service, through to dealing with the bone and soft tissue injuries, complications such as infection, and patient rehabilitation and psychological care. The book is primarily aimed at trainee plastic, orthopaedic and trauma surgeons (particularly for expanding knowledge and examination revision) but would also appeal to established surgeons to improve patient care. *Standards for the Management of Open Fractures* is an open access title. It is available to read and download as a free PDF version on Oxford

**America's Bridges???** Evan N. Kantwell,2008 Has anyone actually seen a bridge being built in America? This editor has travelled for almost 40 years in America without seeing a single one being constructed -- and few even being repaired. Some critics point out that America has built excellent bridges in Vietnam and Iraq which indicates that the knowledge base remains intact. Others say that individual states cannot feed their armies of bureaucrats and fund their plush pensions and health care programs and still expect to build bridges. And the federal government cannot be counted on for much of anything useful. This book presents recent reports focusing on this part of America's crumbling infrastructure.

**Karabatak #10** karabatak.org, Karabatak Göçü Tolstoy, eserlerinde ilkbahardan iki şekilde söz eder: Her ilde, bütün kötülüklere rağmen ilkbahar güzeldir, müjdedir ve zaten güzel olan her ilde, onda daha da güzelleşir. İlde ve yazarlar tarafından ilkbahar bu kadar iltifata layık görülürken sonbahar, hayat veren

hiçbir şeyle bağdaştırılmaz. O, gidişin ayak seslerini barındırır derinlerde ve hiçbir güç arındıramaz sonbaharı bu yükten. Bütün şairlerle yazarlar ağız birliği edip sussalar ve ona böyle özellikler vermekten vazgeçseler de insanın ara sıra gözünü gökyüzüne çevirmesi yeterlidir. Göçmen kuşlar yeter sonbaharı ele vermeye. Fakat bu göçe şahit olmak için gözü uzaklara çevirmeye gerek yoktur. Göç, Karabatak'ın sayfalarında başlıyor. Karabatak dosyasının semalarında uçuruyor şairleriyle bütünleşen efsanevi kuşları. “Bülbül”ü, “Kuzgun”u, “Simurg’un kuşları”nı, “Albatros”u, “Akbaba”yı, “Güvercin”i, “Kartal”ı, “Turna”yı ve elbette “Karabatak”ı. Karabatak onuncu sayısında da unutulmayacak bir röportaj sunuyor okurlarına. “Küçük Mey Yoktur” ve “Bir’in Sırrı” adlı eserleriyle dünyaya ve yaratılışa yepyeni bir gözle bakmayı öğreten Kemal Ural, bu ayki konumuz. “Dünyanın En Büyük Sevgileri ve Acıları Gizli Kalanlardır” diyen Kemal Ural münzevi sessizliğini ilk kez bozuyor. Elli üç sene önce yayınladığı Öküz Dergisi’nin hazırlıklarını ve kısa ama iz bırakan öyküsünü paylaşıyor okurlarımızla. *Thirty Million Words* Dana Suskind,2015-09-08 The founder and director of the Thirty Million Words Initiative, Professor Dana Suskind, explains why the most important—and astoundingly simple—thing you can do for your child's future success in life is to talk to them. What nurtures the brain to optimum intelligence and stability? It is a secret hiding in plain sight: the most important thing we can do for our children is to have conversations with them. The way you talk with your growing child literally builds his or her brain. Parent talk can drastically improve school readiness and lifelong learning in everything from math to art. Indeed, parent-child talk is a fundamental, critical factor in building grit, self-control, leadership skills, and generosity. It is crucial to making the most in life of the luck you have with your genes. This landmark account of a new

scientific perspective describes what works and what doesn't (baby talk is fine; relentless correction isn't). Discover how to create the best language environments for children by following the simple structure of the Three Ts: Tune In; Talk More; Take Turns. Dr. Suskind and her colleagues around the country have worked with thousands of families; now their insights and successful, measured approaches are available to all. This is the first book to reveal how and why the first step in nurturing successful lives is talking to children in ways that build their brains. Your family—and our nation—need to know. \*Nominated for the Books for a Better Life Award\*

Final Girls Riley Sager, 2022-02-08 THE NATIONAL AND INTERNATIONAL BESTSELLER “If you liked *Gone Girl*, you’ll like this.”—Stephen King Ten years ago, six friends went on vacation. One made it out alive.... In that instant, college student Quincy Carpenter became a member of a very exclusive club—a group of survivors the press dubbed “The Final Girls”: Lisa, who lost nine sorority sisters to a college dropout's knife; Sam, who endured the Sack Man during her shift at the Nightlight Inn; and now Quincy, who ran bleeding through the woods to escape the massacre at Pine Cottage. Despite the media's attempts, the three girls have

never met. Now, Quincy is doing well—maybe even great, thanks to her Xanax prescription. She has a caring almost-fiancé; a popular baking blog; a beautiful apartment; and a therapeutic presence in Coop, the police officer who saved her life. Her mind won't let her recall the events of that night; the past is in the past...until the first Final Girl is found dead in her bathtub and the second Final Girl appears on Quincy's doorstep. Blowing through Quincy's life like a hurricane, Sam seems intent on making her relive the trauma of her ordeal. When disturbing details about Lisa's death emerge, Quincy desperately tries to unravel Sam's truths from her lies while evading both the police and bloodthirsty reporters. Quincy knows that in order to survive she has to remember what really happened at Pine Cottage. Because the only thing worse than being a Final Girl is being a dead one.
