Minnesota in the Mail Bonnie Wilson, 2004 Wilson highlights both the images and the curious stories behind them. Using 185 postcards selected from the extensive collection of the Minnesota Historical Society, she helps readers understand the needs and wants of postcard makers and senders, at the same time sharing historical details that go beyond the captions and messages. The postcards are grouped in four categories: towns, businesses, families, and vacations.

Postcards from the Interior Wyn Cooper, 2005-06-01 Postcards from the Interior is a collection of postcard poems written from different geographical locations and varied states of heart and mind. The first section, "Postcards from Vermont," is composed of poems about Vermont towns and historical landmarks. The second section, "Postcards from the Interior," stretches to include poems from far-flung places, real and imagined. Adroit at juxtaposing the exterior weather of landscapes and the interior weather of the human condition, Cooper writes poetry with the heft of a Romantic meditation and the breezy ease of contemporary song lyrics. Wyn Cooper has published three previous poetry collections. A poem from his first book was turned into lyrics for Sheryl Crow's Grammy-winning song "All I Wanna Do." He lives in Battleboro, Vermont.

Art of the Japanese Postcard Anne Nishimura Morse, J. Thomas Rimer, Kendall H. Brown, 2004 From the late nineteenth to the early twentieth century, Japan was a vital world center for postcard art. Art of the Japanese Postcard

presents 300 full-color examples of these cards, culled from the vast Leonard A. Lauder Collection. Authoritative essays by leading scholars of Japanese art and culture, plus a statement by the collector himself, highlight the design, development, and cultural function of these rarely studied, but highly influential and visually exciting, expressions of graphic genius. From the late nineteenth to the early twentieth century, Japan was a vital world centre for postcard art. More than just casual mail pieces, these postcards were often designed by prominent artists and had a visual impact that belied their modest format. Remarkably beautiful examples of graphic design in their own right, they also recorded the shifting definitions of 'East' and 'West' at a time when such European currents as Art Nouveau began to show up in Japanese visual productions. Art of the Japanese Postcard presents 350 full-color examples of these cards, culled from the vast Leonard A. Lauder Collection. printing, but also for the insight they provide into contemporary Japanese artistic practices - insights not relayed in standard histories that focus on painting and sculpture - as well as for the fluid interplay of European and Japanese modes. Authoritative essays by leading scholars of Japanese art and culture, plus a statement by the collector himself, highlight the design, development, and cultural function of these rarely studied, but highly influential and visually exciting, expressions of graphic genius.

Waco, Texas Agnes Warren Barnes, 1999 From the 1890s through the 1920s, the postcard was an extraordinarily popular means of communication, and many of the postcards produced during this golden age can today be considered works of art. Postcard photographers traveled the length and breadth of the nation snapping photographs of busy street scenes, documenting local landmarks, and assembling crowds of local townspeople only too happy to pose for a picture. These images, printed as postcards and sold in general stores across the country, survive as telling reminders of an important era in America's history.

Postcards from Exeter Carol Walker Aten, 2003 In 1904, Frank W. Swallow left behind his short-lived car dealership and began a successful cottage industry, printing his own hand-colored postcards. He was the First to Introduce the Souvenir Post Card to One-Half of New England, according to the imprint of his trademark swallow. Many of Swallow's photographs are contained within this book, which tells a special history of Exeter, New Hampshire, between 1900 and 1940—a time when the horse and carriage era shifted to the automobile, hemlines rose a few inches, and electricity came to town. Learn about a mysteriously lost statue, hidden waterways, great buildings that burned, forgotten parades, and the famous Swallow Girls. Most images, never before seen, are from the Exeter Historical Society's collection, and proceeds from the sales of this publication support the society in honor of its seventy-fifth anniversary.

Riverside in Vintage Postcards Steve Lech, 2005 Riverside has been a vital center of agriculture and government throughout the growth of Southern California. Postcards sent from this city to those far away usually depict it as a resort, situated on the western edge of the Colorado Desert, where the

historic Mission Inn has been a vacation destination for generations. Illustrating many facets of this world-renowned, garden-like gathering spot, these attractive images also showcase Riverside's Main Street, public buildings, parks, broad avenues, the sharply rising Mt. Rubidoux on the edge of town, and the influence of the citrus industry.

Orange Don Dorflinger, Marietta Dorflinger, 1999-01-01 From the 1890s through the 1920s, the postcard was an extraordinarily popular means of communication, and many of the postcards produced during this golden age can today be considered works of art. Postcard photographers traveled the length and breadth of the nation snapping photographs of busy street scenes, documenting local landmarks, and assembling crowds of local children only too happy to pose for a picture. These images, printed as postcards and sold in general stores across the country, survive as telling reminders of an important era in America's history. This fascinating new history of Orange, New Jersey, showcases more than two hundred of the best vintage postcards available.

Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical

manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents.
